PrepAwayETE is A Perfect and Reliable Option for UiPath-SAIAv1 Exam Questions

If you want to strive for a further improvement in the IT industry, it's right to choose our PrepAwayETE. PrepAwayETE's UiPath-SAIAv1 exam certification training materials is worked out by IT industry elite team through their own exploration and continuous practice. It has high accuracy and wide coverage. Owning PrepAwayETE's UiPath-SAIAv1 Exam Certification training materials is equal to have the key to success.

UiPath Specialized AI Associate Exam (2023.10) Sample Questions (Q57-Q62):

NEW QUESTION # 57
What are the mandatory activities to be included in an automation workflow to allow a remote knowledge worker to pick up an action that validates the extracted data in the form of a Document Validation Action?

- A. Create Document Validation Action, Wait for Document Validation Action and Resume.
- B. Orchestration Process Activities.
- C. Document Understanding Process Activities.
- D. Present Validation Station, Wait for Document Validation Action and Resume.

Answer: A

Explanation:
To enable a remote knowledge worker to validate the extracted data from documents in Action Center, the automation workflow needs to include the following activities12:
Create Document Validation Action: This activity creates an action of type Document Validation in Orchestrator Action Center, and returns an action object as output. The action object contains the information needed to resume the workflow after the human validation is completed. The input properties of this activity include the action details, such as title, priority, catalog, and folder, and the document validation data, such as the document object model, the document text, the taxonomy, and the automatic extraction results.
Wait for Document Validation Action and Resume: This activity suspends the execution of the workflow until the human validation is done in Action Center, and then resumes it with the updated extraction results. The input property of this activity is the action object obtained from the Create Document Validation Action activity. The output property is the validated extraction results, which can be used for further processing or exporting.
References: 1: Create Document Validation Action 2: Wait for Document Validation Action and Resume

NEW QUESTION # 58
What activity from the Microsoft 365 package should be used to share a SharePoint file URL with specific permissions to a specific user?

- A. Share File/Folder
- B. Get File-Folder
- C. Upload File
- D. Share URL Link

Answer: A

Explanation:
Reference: UiPath Microsoft 365 Activities

NEW QUESTION # 59
What is the primary purpose of assigning labels to messages within a dataset in UiPathCommunications Mining?

- A. To apply labels to a maximum amount of data to enhance model performance.
- B. To allocate 20 training examples for each label.
- C. To formulate a comprehensive training set that closely reflects the entirety of the dataset.
- D. To provide the platform with a collection of keywords associated with each label for predicting other instances.

Answer: C

Explanation:
Reference: UiPath Communications Mining Training

NEW QUESTION # 60
Which are the the minimum required inputs in order to configure the Classification Station as an attended activity?

- A. Taxonomy, Document Path, Document Object Model, Document Text, Automatic Classification Results.
- B. Taxonomy, Document Path, Document Object Model, Document Text.
- C. Taxonomy, Document Path, Document Directory, Document Text, Automatic Extraction Results.
- D. Taxonomy, Document Object Model, Automatic Extraction Results, Document Directory.

Answer: B

Explanation:
To configure the Classification Station as an attended activity in UiPath, certain inputs are mandatory for proper functionality. These include:
Taxonomy: The schema that defines the structure of document types and fields.
Document Path: The file path of the document to be classified.
Document Object Model (DOM): Generated from the document using the Digitize Document activity, this is a structured representation of the document.

Document Text: The extracted text of the document, also an output from the Digitize Document activity.
These inputs allow the Classification Station to review and validate the classification results, eithermanually or based on automatic suggestions from previous processes.

NEW QUESTION # 61
What can be found in the Images folder within the exported dataset coming from Document Manager?

- A. Each page of the images of exported files.
- B. Each page of the exported documents saved as an image.
- C. Each page of the images of logs.
- D. Each page of the images used for schema configuration.

Answer: B

Explanation:
The Images folder in the exported dataset from UiPath's Document Manager contains each page of the documents in the dataset saved as images. This ensures that the visual layout of the documents is preserved, which is especially important when working with scanned documents or files that need to retain their original format for processing or validation purposes

NEW QUESTION # 62
.....

Under the hatchet of fast-paced development, we must always be cognizant of social long term goals and the direction of the development of science and technology. Adapt to the network society, otherwise, we will take the risk of being obsoleted. Our UiPath Specialized AI Associate Exam (2023.10) qualification test help improve your technical skills and more importantly, helping you build up confidence to fight for a bright future in tough working environment. Our professional experts devote plenty of time and energy to developing the UiPath-SAIAv1 Study Tool. You can trust us and let us be your honest cooperator in your future development. Here are several advantages about our UiPath Specialized AI Associate Exam (2023.10) exam for your reference. We sincere suggest you to spare some time to have a glance over the following items.
