

100% Pass 2026 Oracle 1z0-071: Oracle Database SQL First-grade New Braindumps Files

BTW, DOWNLOAD part of TestPassed 1z0-071 dumps from Cloud Storage: <https://drive.google.com/open?id=1pfvIIqCHOOA14pvKF3nNTPkFFQGN1526>

Our experts are working hard on our 1z0-071 exam questions to perfect every detail in our research center. Once they find it possible to optimize the 1z0-071 study guide, they will test it for many times to ensure the stability and compatibility. Under a series of strict test, the updated version of our 1z0-071 learning quiz will be soon delivered to every customer's email box since we offer one year free updates so you can get the new updates for free after your purchase.

Oracle 1z1-071: Oracle Database SQL exam is a certification test designed for professionals who specialize in SQL database management. 1z0-071 exam is a crucial step towards acquiring essential skills necessary to properly manage Oracle databases. Oracle 1z1-071, also known as Oracle Database SQL certification, is highly sought after by employers as it qualifies an individual to develop, manage, and maintain the Oracle database, utilizing advanced SQL features.

The Oracle 1z0-071 is a certification exam that proves the candidate's knowledge of SQL technology and SQL concepts required to participate in any database project. The target audience for this exam is the IT professionals with some experience in working with these technologies. The fundamental knowledge of general computing concepts and command line interfaces will be an advantage as well.

Specifications of TestPassed Oracle 1z0-071 Exam Preparation Material

I just want to share with you that here is a valid 1z0-071 exam cram file with 100% pass rate and amazing customer service. If you are not sure about your exam, choosing our 1z0-071 exam cram file will be a good choice for candidates. We sell products by word of mouth. We are famous for our high pass-rate 1z0-071 Exam Cram. If you try to use our study materials one time, you will know how easy to pass exam with our 1z0-071 exam cram file. Our business policy is "products win by quality, service win by satisfaction".

What are Certificates? Why is getting certified important in this era?

If you have any skill or any academic record, and you want to claim something out of it, you need to have documents and certification to prove it. Certificates will act as gate passes and help to enter any institute, firm, or company. After using the gate pass, you are independent to show your skill practically. If you don't have a gate pass to enter, no one will bother you to enter and show the talent you have. So work for it, earn it, show it, and achieve your ultimate goals. If a candidate has knowledge and skills that are required to pass Oracle 1z0-071 Exam and fully prepared with **Oracle 1z0-071 Dumps** then he should take this Oracle 1z0-071 exam.

Nowadays, every company has a database of every task happening in the company. Companies know the value of every moment, and want to perform their tasks timely and with perfection. To reach their goals, companies hire experts workers and operators who know and associate with the knowledge related to office products and tasks like; cloud space, CISSP, sap, AWS, ASM, designs, tables creating, launching of the database, clustering, making rows, and columns, how to create a table in a database, storage of data, azure, roles of servers in a database. Arithmetic, Codespace, Xcode, data dictionary, etc

How would a company head know that you have sufficient knowledge to work in the company? The answer is by certification. Certificates are the label for a human to have much knowledge and skills.

Oracle Database SQL Sample Questions (Q121-Q126):

NEW QUESTION # 121

Examine the structure of the MARKS table:

Which two statements would execute successfully? (Choose two.)

- A. `SELECT SUM(DISTINCT NVL(subject1,0)), MAX(subject1)FROM marksWHERE subject1 > subject2;`
- B. `SELECT student_name,SUM(subject1)FROM marksWHERE student_name LIKE 'R%';`
- C. `SELECT SUM(subject1+subject2+subject3)FROM marksWHERE student_name IS NULL;`
- D. `SELECT student_name subject1FROM marksWHERE subject1 > AVG(subject1);`

Answer: A,C

NEW QUESTION # 122

The SALES table has columns PROD_ID and QUANTITY_SOLD of data type NUMBER. Which two queries execute successfully?

- A. `SELECT COUNT(prod_id) FROM sales GROUP BY prod_id WHERE quantity_sold > 55000;`
- B. `SELECT prod_id FROM sales WHERE quantity_sold > 55000 AND COUNT(*) > 10 GROUP BY COUNT(*) > 10;`
- C. `SELECT prod_id FROM sales WHERE quantity_sold > 55000 GROUP BY prod_id HAVING COUNT(*) > 10;`
- D. `SELECT prod_id FROM sales WHERE quantity_sold > 55000 AND COUNT(*) > 10 GROUP BY prod_id HAVING COUNT(*) > 10;`
- E. `SELECT COUNT(prod_id) FROM sales WHERE quantity_sold > 55000 GROUP BY prod_id;`

Answer: C,E

Explanation:

When crafting SQL queries, especially those involving aggregate functions and GROUP BY clauses, correct syntax and logical order of SQL clauses are crucial. Here's why A and B are the correct answers:

* A: Correct. This query uses COUNT() as an aggregate function correctly with a GROUP BY clause. It counts the number of prod_id entries for each product where quantity_sold exceeds 55000, grouped by prod_id.

* B: Correct. This query selects prod_id for groups having more than 10 rows where quantity_sold exceeds 55000. The GROUP BY and HAVING clauses are used correctly.

* C: Incorrect. The WHERE clause should be placed before the GROUP BY clause. The correct order of clauses is essential for query execution.

* D: Incorrect. This query attempts to use an aggregate function (COUNT(*)) in the WHERE clause and improperly in the GROUP BY clause, which is not allowed.

* E: Incorrect. Similar to D, it incorrectly attempts to use COUNT(*) in the WHERE clause, which is syntactically incorrect.

NEW QUESTION # 123

You need to calculate the number of days from 1st January 2019 until today. Dates are stored in the default format of DD-MON-RR. Which two queries give the required output?

- A. `SELECT ROUND(SYSDATE - TO_DATE('01/JANUARY/2019')) FROM DUAL;`
- B. `SELECT TO_DATE(SYSDATE, 'DD/MONTH/YYYY') - '01/JANUARY/2019' FROM DUAL;`
- C. `SELECT ROUND(SYSDATE - '01-JAN-2019') FROM DUAL;`
- D. `SELECT SYSDATE - TO_DATE('01-JANUARY-2019*') FROM DUAL;`
- E. `SELECT TO_CHAR(SYSDATE, '*DD-MON-YYYY*') - '01-JAN-2019' FROM DUAL;`

Answer: A,D

NEW QUESTION # 124

You need to calculate the number of days from 1st January 2019 until today.

Dates are stored in the default format of DD-MON-RR.

Which two queries give the required output?

- A. `SELECT TO_CHAR (SYSDATE, 'DD-MON-YYYY')-'01-JAN-2019' FROM DUAL;`
- B. `SELECT ROUND (SYSDATE- '01-JAN-2019') FROM DUAL;`
- C. `SELECT SYSDATE-TO_DATE ('01-JANUARY-2019') FROM DUAL;`
- D. `SELECT ROUND (SYSDATE-TO_DATE ('01/JANUARY/2019')) FROM DUAL;`
- E. `SELECT TO_DATE (SYSDATE, 'DD/MONTH/YYYY')-'01/JANUARY/2019' FROM DUAL;`

Answer: C,D

Explanation:

To calculate the number of days between two dates in Oracle SQL, you can simply subtract the earlier date from the later date, and Oracle will return the number of days between them.

Option A uses SYSDATE to get the current date and TO_DATE to convert the string '01-JANUARY-2019' to a date using the default date format, which matches 'DD-MON-RR'. The subtraction here will correctly give the number of days between these two dates.

Option C is similar to A but includes the ROUND function, which is used to round the number to the nearest whole number. Since the difference between two dates in Oracle SQL is a decimal value representing the number of days and fractional days, rounding will give us the whole number of days, which is what we want.

Options B, D, and E are incorrect because they either use an invalid date format (the default format is 'DD-MON-RR', not 'DD/MONTH/YYYY' or 'DD-MON-YYYY'), perform invalid operations (such as subtracting a string from a date), or misuse SYSDATE.

NEW QUESTION # 125

View the Exhibit and examine the data in the PRODUCT_INFORMATION table.

Which two tasks would require subqueries? (Choose two.)

- A. displaying all supplier IDs whose average list price is more than 500
- B. displaying the total number of products supplied by supplier 102071 and having product status OBSOLETE
- C. displaying all the products whose minimum list prices are more than average list price of products having the status orderable
- D. displaying the number of products whose list prices are more than the average list price
- E. displaying the minimum list price for each product status

Answer: C,D
