PL-300 Exam Questions - Exam PL-300 Simulator Fee

Power BI PL-300 Certification Exam Questions and Answers 100% Correct

There is a matrix using a standard date hierarchy. It is currently showing a range of years. How do you display just a specific year and that year's quarters? - ANSWER-Select 'Drill Down', and then the preferred data point, which will drill down into the specific year and its quarters.

What pane allows the user to set the order that visuals move between after pressing Tab? - ANSWER-Selection pane. It provides a list of all objects on the current page and allows the user to group and hide visuals as well as change the layer and tab order.

What Power Query feature removes spaces from the beginning and the end of any string in a column? - ANSWER-Trim (Under Transform > Format). This removes leading and trailing spaces from a string

When filtering a visual to values containing certain text, what wildcard represents zero to many characters? For example, I want to show all values starting with 'St' that include another 'T' - ANSWER-Asterisks (Example: St*t*)

What does Column Distribution in the Power Query editor show? - ANSWER-Unique and Distinct values

What are two ways to add a custom visual from the online Microsoft Store to a Power BI report? - ANSWER-Go to the Home tab, select More Visuals, and select "From AppSource" or go the Insert tab, select the dropdown containing all of the visuals, and select "Get more Visuals"

There is a dataset of Employee Data which includes the 'Department' and 'Salary' fields. To understand whether Department has an influence on Salary, what two actions need to be taken? There is a Key Influencers visual. - ANSWER-Drag Salary into the 'Analyze' section and Department into the 'Explain By' section. The field in the Analyze section is the numerical field that you are wanting to have explained. The field(s) in the "Explain by" are the fields you want to see have an influence.

What AI visual allows users to analyze data by drilling down into various fields? - ANSWER-Decomposition Tree. The measure that is to be broken down is placed into the Analyze section, and then how it is to be broken down is placed in the Explain By section. This allows users to drill-down into different related fields in their data model and learn how they all influence each other.

How are changes to an original column reflected in Duplicated and Referenced columns, respectively? - ANSWER-Duplicating a query means that the query as it
