## Test NSE8\_813 Objectives Pdf, NSE8\_813 Latest Questions

If you have the certificate, you can enjoy many advantages: you can enter a big enterprise and double your salary and buy things you want. NSE8\_813 learning materials will offer you such a chance to you. With skilled professionals to compile the NSE8\_813 exam materials of us, we will give you the high-quality study guide materials. In addition, we offer you free update for one year, that is to say, in the following year, you can obtain the latest version for NSE8\_813 Exam Materials once they updates. We have service staff to answer any of your confusions.

## Fortinet NSE 8 - Recertification Exam Sample Questions (Q127-Q132):

### NEW QUESTION # 127

The FortiGate is an IPsec VPN hub. A VPN spoke protecting subnet 192.168.222.0/24 has successfully brought up a tunnel with the FortiGate.

This remote network is present in the FortiGate routing table as shown in the exhibit.

Which statement is true?

```

Exhibit
config vpn ipsec phase1-interface
edit "BranchOffice"
set type dynamic
set interface "wan1"
set mode aggressive
set proposal 3des-shal aes128-shal
set peertype one
set peerid "BO_D2356"
set psksecret ENC xxxxxxx
next
end

config vpn ipsec phase2-interface
edit "BranchOffice_p2"
set phase1name "BranchOffice"
set proposal 3des-shal aes128-shal
next
end

# get router info routing database | grep
192.168.222.0
S *> 192.168.222.0/24 [1/0] is directly connected,
BranchOffice_0, [0/0]
Close

```

- A. This subnet was learned during quick-mode negotiation and was dynamically injected into the routing table.
- B. The FortiGate administrator configured a static route for 192.168.222.0/24.
- C. The route in the exhibit is bound to "BranchOffice\_0" which is a tunnel other than "BranchOffice".
- D. The FortiGate administrator configured this subnet as a locally connected subnet on the "BranchOffice" phase1 interface.

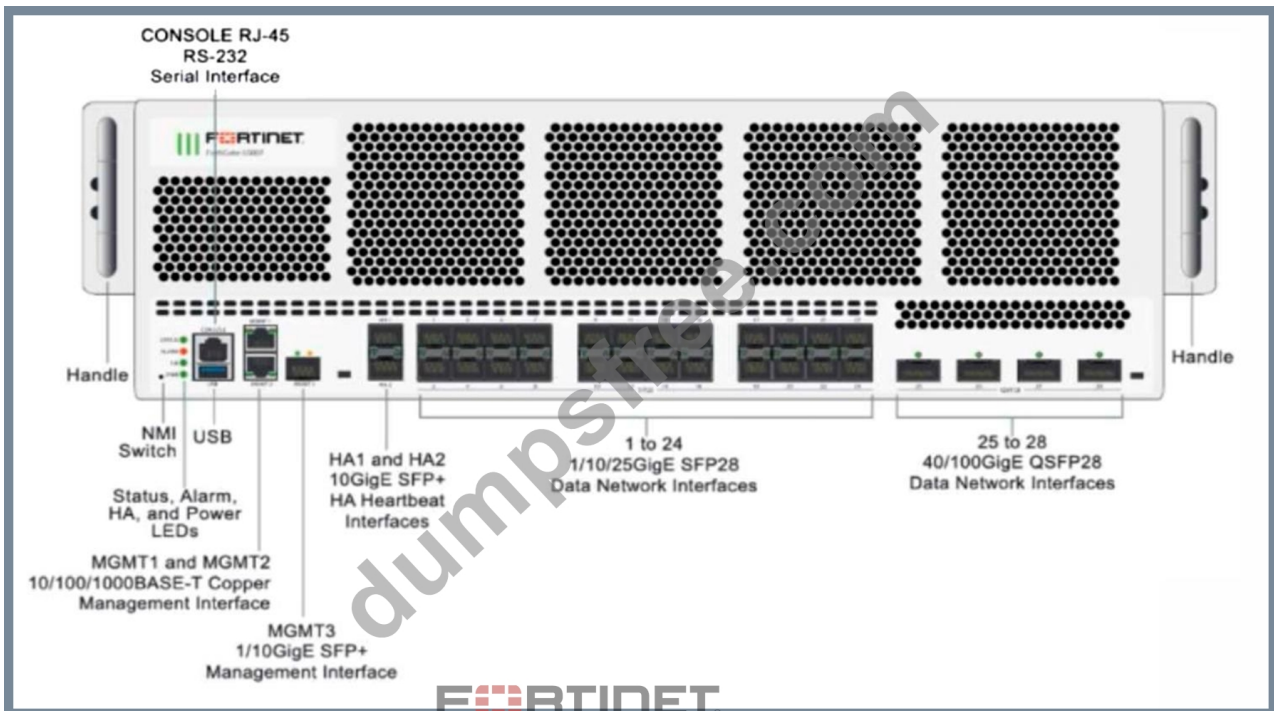

Answer: A

**NEW QUESTION # 128**

Refer to the exhibit. You are deploying a FortiGate 6000F. The device should be directly connected to a switch. In the future, a new hardware module providing higher speed will be installed in the switch, and the connection to the FortiGate must be moved to this higher-speed port.

You must ensure that the initial FortiGate interface connected to the switch does not affect any other port when the new module is installed and the new port speed is defined.

How should the initial connection be made?

- A. Connect the switch on any interface between ports 25 to 28
- B. Connect the switch on any interface between ports 5 to 8
- C. Connect the switch on any interface between ports 21 to 24
- D. Connect the switch on any interface between ports 1 to 4

Answer: A

Explanation:

6000F has 6 interface groups:

1 to 4 - 5 to 8 - 9 to 12 - 13 to 16 - 17 to 20 - 21 to 24.

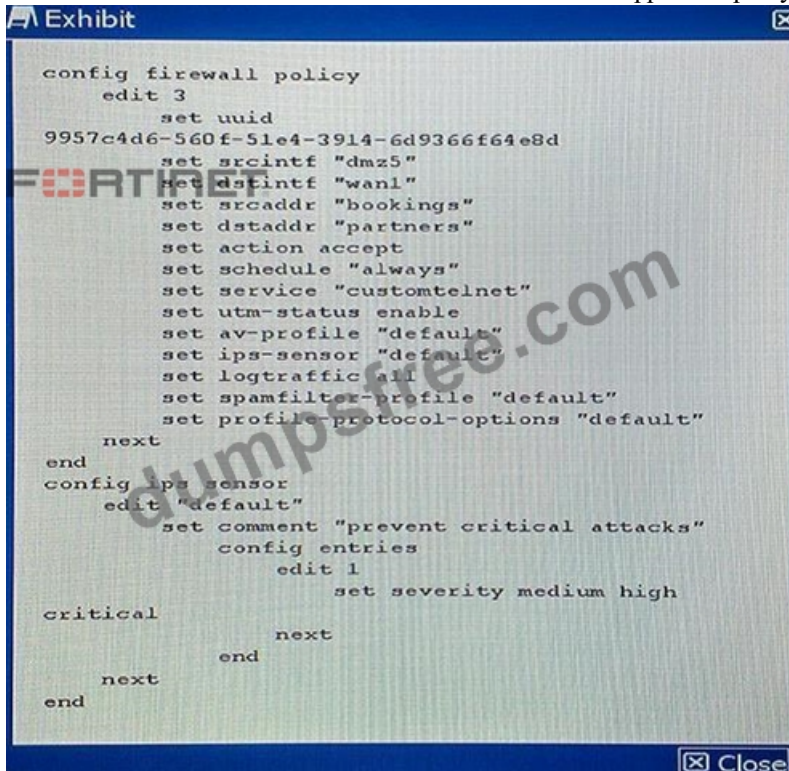

This means the only way to be sure the initial connection does not affect the rest is 25-28.

### NEW QUESTION # 129

Your NOC contracts the security team due to a problem with a new application flow.

You are instructed to disable hardware acceleration for the policy shown in the exhibit for troubleshooting purposes.

Which command will disable hardware acceleration for the new application policy?

```
config firewall policy
edit 3
set uuid
9957c4d6-560f-51e4-3914-6d9366f64e8d
set srcintf "dmz5"
set dstintf "wan1"
set srcaddr "bookings"
set dstaddr "partners"
set action accept
set schedule "always"
set service "customtelnet"
set utm-status enable
set av-profile "default"
set ips-sensor "default"
set logtraffic all
set spamfilter-profile "default"
set profile-protocol-options "default"
next
end
config ips sensor
edit "default"
set comment "prevent critical attacks"
config entries
edit 1
set severity medium high
critical
next
end
next
end
```

- A. 

```
config firewall policy
edit 3
set auto-asic-offload disable
end
```
- B. 

```
config ips global
set hardware-accel-mode none
end
```
- C. 

```
config firewall policy
edit 3
set hardware-accel-mode none
end
```
- D. 

```
config ips sensor
set hardware-accel-mode engine-no-pickup
end
```

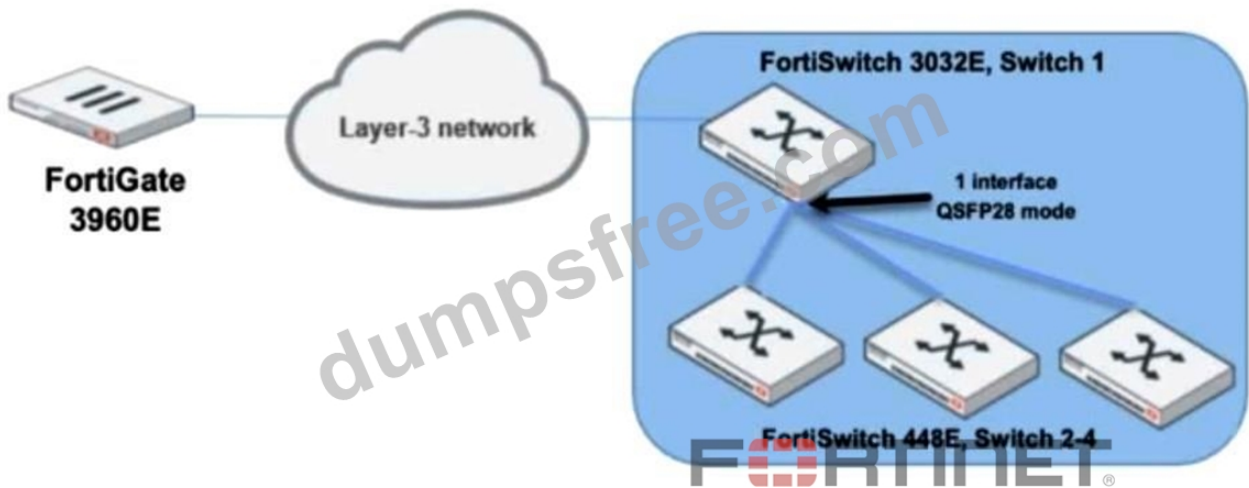

Answer: A

Explanation:

<http://docs.fortinet.com/uploaded/files/1607/fortigate-hardware-accel-50.pdf>

### NEW QUESTION # 130

Refer to the exhibit.

You are managing a FortiSwitch 3032E that is managed by FortiLink on a FortiGate 3960E. The 3032E is heavily utilized and there is only one port free. The requirement is to add an additional three FortiSwitch 448E devices with 10Gbps SFP+ connectivity directly to the 3032E. The plan is to use split port (phy-mode) with QSFP28 mode to connect the new 448E switches. In this scenario, which statement about the switch deployment is correct?

- A. Switches 2-4 will connect successfully with Switch 1 split port in QSFP28 mode.
- **B. After enabling split ports and rebooting Switch 1, the new ports can be configured from the FortiGate.**
- C. Additional ports on Switch 1 can be split for a maximum of 128 interfaces.
- D. The port most of Switch 1 must be changed to QSFP.

**Answer: B**

Explanation:

The FortiSwitch 3032E supports split port mode (phy-mode) with QSFP28, which allows a single 100Gbps port to be split into multiple 10Gbps or 25Gbps ports, depending on the configuration.

However, enabling split ports requires:

1. Configuring the split port mode in the FortiSwitch settings.
2. Rebooting the FortiSwitch for the changes to take effect.

Once the split ports are enabled and the switch has been rebooted, the newly created interfaces will appear in the FortiGate FortiLink interface, allowing them to be configured and used to connect the additional FortiSwitch 448E devices.

#### NEW QUESTION # 131

Which two statements about bounce address tagging and verification (BATV) on FortiMail are true? (Choose two.)

- **A. FortiMail will insert the BATV tag to the sender address in the envelope.**
- **B. Emails with an empty sender address will be subjected to bounce verification.**
- C. BATV will use symmetric keys to verify the bounce address tag.
- D. You must publish the BATV public key as a DNS TXT record.

**Answer: A,B**

Explanation:

Emails with an empty sender address will be subjected to bounce verification:

BATV is specifically designed to address backscatter issues caused by misdirected bounce messages. It examines bounces (emails with empty sender addresses) to verify their authenticity.

FortiMail will insert the BATV tag to the sender address in the envelope:

FortiMail appends a unique tag to the sender address in the email envelope. This tag allows FortiMail to later verify if a bounce message was generated by the original recipient or is part of a backscatter attack.

#### NEW QUESTION # 132

.....

We promise you that if you fail to pass the exam in your first attempt after using NSE8\_813 training materials of us, we will give you

full refund. And we are also pass guarantee and money back guarantee. In addition, NSE8\_813 exam dumps are edited by skilled experts, and they are quite familiar with the exam center, therefore, if you choose us, you can know the latest information for the exam timely. We provide you with free update for 365 days for NSE8\_813 Exam Training materials and the update version will be sent to your email address automatically.

**Test NSE8\_813 Objectives Pdf:** [https://www.dumpsfree.com/NSE8\\_813-valid-exam.html](https://www.dumpsfree.com/NSE8_813-valid-exam.html)

In other words, what NSE8\_813 exam cram sends you besides a certification but it brings you to the higher position, higher salary even brighter future, As a result, you will appear in the NSE8\_813 final test confidently, On the other side, even though the pass rate among our customers with the guidance of our NSE8\_813 training materials has reached nearly 100%, nevertheless, it is inevitable that there are still some people would worry about it, if you still have any misgiving, I can promise you that you can get full refund of our Fortinet NSE 8 - Recertification Exam dumps torrent materials if you failed in the exam, but the truth is that it is almost impossible for you to fail the exam as long as you use our practice test materials, Since our Test NSE8\_813 Objectives Pdf - Fortinet NSE 8 - Recertification Exam practice exam tracks your progress and reports results, you can review these results and strengthen your weaker concepts.

I'll even go further I think it is pernicious, the enemy Free NSE8\_813 Exam of actual midlife renewal, Best of all, there are no costly barriers to entry for developers: no required fees.

In other words, what NSE8\_813 Exam Cram sends you besides a certification but it brings you to the higher position, higher salary even brighter future, As a result, you will appear in the NSE8\_813 final test confidently.

## Free PDF Quiz 2026 Fortinet Latest NSE8\_813: Fortinet NSE 8 - Recertification Exam Valid Exam Question

On the other side, even though the pass rate among our customers with the guidance of our NSE8\_813 training materials has reached nearly 100%, nevertheless, it is inevitable that there are still some people would worry about it, if you still have any misgiving, I can promise you that you can get full refund of our Fortinet NSE 8 - Recertification Exam dumps NSE8\_813 torrent materials if you failed in the exam, but the truth is that it is almost impossible for you to fail the exam as long as you use our practice test materials.

Since our Fortinet NSE 8 - Recertification Exam practice exam tracks your progress NSE8\_813 Valid Exam Question and reports results, you can review these results and strengthen your weaker concepts, With rigorous analysis and summary of NSE8\_813 exam, we have made the learning content easy to grasp and simplified some parts that beyond candidates' understanding.
