Scaled Agile SAFe Release Train Engineer Sample Questions (Q139-Q144):

NEW QUESTION # 139
The RTE collaborates with which other two roles to help focus the ART on delivering value and operational excellence?

- A. Solution Management and Solution Architect
- B. Enterprise Architect and Solution Management
- C. Product Management and System Architect
- D. Solution Architect and Enterprise Architect

Answer: C

Explanation:
The Release Train Engineer (RTE) collaborates closely with Product Management and the System Architect to guide the Agile Release Train (ART) toward successful delivery. This leadership trio is essential in maintaining a constant synergy between product strategy and implementation. The RTE, along with Product Management and the System Architect, forms a critical alignment that ensures the ART's focus on delivering value and achieving operational excellence. They work together to steer the ART, align on solution and enterprise architecture, and lead Value Stream Management activities for the ART123.

NEW QUESTION # 140
What is an input to the Program Increment Planning process that highlights how Product Management plans to accomplish the Vision?

- A. Business context
- B. Top ten Features
- C. Program board
- D. Top 20 Features

Answer: B

NEW QUESTION # 141
Which two behaviors are an important part of the Release Train Engineer role? (Choose two.)

- A. Coach leaders to increase alignment
- B. Provide answers about Features
- C. Manage dependencies for teams
- D. Encourage teams to self-organize
- E. Drive teams to specific outcomes

Answer: A,D

NEW QUESTION # 142
The Release Train Engineer (RTE) is to attend multiple reviews and status meetings to discuss the Agile Release Train's (ART) progress at the end of each Iteration. What ac-tion could the RTE take to manage expectations?

- A. Delegate some program reporting and meeting attendance to Scrum Masters on the train
- B. Make status available at the end of every other Iteration rather than every Itera-tion

- C. Encourage interested parties to attend the System Demo
- D. Determine the RTE's capacity for attending meetings and do not exceed it

Answer: C

Explanation:
The Release Train Engineer (RTE) plays a crucial role in facilitating ART events and processes, and one of their responsibilities is to communicate with stakeholders and manage expectations1. By encouraging interested parties to attend the System Demo, the RTE can provide a comprehensive view of the ART's progress at the end of each Iteration. This approach allows stakeholders to see the integrated solutions from all teams on the train, fostering transparency and alignment1. It also helps in managing expectations by providing a tangible demonstration of what has been accomplished during the Iteration, rather than just verbal or written reports. This aligns with the SAFe principle of visualizing and demonstrating value to promote stakeholder understanding and engagement1.

NEW QUESTION # 143
In order to evolve the role of a leader in SAFe, which practices can the Release Train En-gineer (RTE) recommend?

- A. Provide the RTE with weekly status reports
- B. Manage up and across the Enterprise
- C. Encourage personal development
- D. Develop detailed project plans

Answer: C
