

Microsoft MB-335 Fragen und Antworten, Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Prüfungsfragen

2026 Die neuesten PrüfungFrage MB-335 PDF-Versionen Prüfungsfragen und MB-335 Fragen und Antworten sind kostenlos verfügbar: <https://drive.google.com/open?id=1o1JKdD5Nepk4D36BDlsQUiJ9ZAIWUPNU>

Nun bieten viele Ausbildungsinstitute Ihnen die Schulungsunterlagen zur Microsoft MB-335 Zertifizierungsprüfung. Meistens bekommen die Kandidaten per diese Websites keine ausführlichen Materialien. Denn ihre Materialien zur Microsoft MB-335 Zertifizierungsprüfung sind breit gefächert und nicht zielgerichtet. So können sie keine Aufmerksamkeit der Kandidaten gewinnen.

Die MB-335-Prüfung besteht aus verschiedenen Themen, die die wichtigsten Konzepte von Dynamics 365 Supply Chain Management abdecken. Diese Themen umfassen Produktinformationsmanagement, Bestandsverwaltung, Lagermanagement, Transportmanagement, Qualitätsmanagement, Nachfrageplanung und Beschaffung. Die Prüfung testet auch das Wissen des Kandidaten über die Konfiguration und Implementierung dieser Funktionen in der Dynamics 365 Supply Chain Management.

Die MB-335 Zertifizierungsprüfung konzentriert sich darauf, die Fähigkeit der Kandidaten zur Konfiguration und Verwaltung von Supply-Chain-Prozessen mit Dynamics 365 zu bewerten. Die Prüfung testet verschiedene Aspekte des Supply-Chain-Managements, einschließlich Bestands- und Lagerverwaltung, Beschaffung und Beschaffungswesen, Produktionskontrolle und Transportmanagement. Die Prüfung bewertet auch die Fähigkeit der Kandidaten, Dynamics 365 mit anderen Anwendungen und Systemen zu integrieren.

MB-335 Schulungsmaterialien & MB-335 Dumps Prüfung & MB-335 Studienguide

Möchten Sie die Microsoft MB-335 Zertifizierungsprüfung mühelos bestehen? Dann sind die Fragenkataloge zur Microsoft MB-335 Zertifizierung aus PrüfungFrage unerlässlich. Die Fragenpool zur Microsoft MB-335 Zertifizierungsprüfung aus PrüfungFrage werden von den erfahrenen Experten durch ständige Praxis entworfen, sie sind eine Kombination aus Fragen und Antworten. Deswegen ist die Webseite PrüfungFrage die Beste. Wählen Sie PrüfungFrage, wartet eine schönere Zukunft auf Sie da.

Um für diese Prüfung zu erscheinen, muss man ein solides Verständnis für Geschäftsprozesse, Anlagenbetrieb und Logistikfunktionen haben. Darüber hinaus ist auch ein gründliches Verständnis der Dynamics 365 -Module für Lieferkettenmanagement erforderlich, um die Prüfung abzuhalten. Die Prüfung ist mit insgesamt 40-60 Fragen ausgestattet und hat eine Dauer von 180 Minuten.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert MB-335 Prüfungsfragen mit Lösungen (Q174-Q179):

174. Frage

A manufacturing company uses Dynamics 365 Supply Chain Management.

The shop floor has multiple pieces of the same model of equipment. The equipment produces a finished good that requires special

handling.

The equipment has a visual guide available. The shop floor manager requires the following:

- * The most recent visual guide must be available for all pieces of the equipment at the same time.
- * The shop floor workers must have a visual guide available for handling of the finished good.

You need to configure the visual guides to meet the shop floor requirements.

What should you configure for each requirement? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Features

- Released product
- Resource group
- Bill of materials
- BOM version

Requirement

- Assign a visual guide for the equipment.
- Assign a visual guide for the finished good.

Feature

Antwort:

Begründung:

Features

- Released product
- Resource group
- Bill of materials
- BOM version

Requirement

- Assign a visual guide for the equipment.
- Assign a visual guide for the finished good.

Feature

- Bill of materials
- Released product

Explanation:

Features

- Released product
- Resource group
- Bill of materials
- BOM version

Requirement

- Assign a visual guide for the equipment.
- Assign a visual guide for the finished good.

Feature

- Bill of materials
- Released product

175. Frage

A company uses multiple Dynamics 365 applications to track and repair equipment.

The company wants to improve its repair order process. Repair technicians frequently encounter unexpected issues daily. The technicians must be empowered to address the issues and create new work orders by doing the following:

- * Provide step-by-step, just-in-time training for work order completion in the field by using videos and text.
- * Document work order creation in a single, printable document.
- * Report on the use of hands-on training.

You need to implement a solution forth requirements.

Which solution should you implement for each requirement? To answer, drag the appropriate solutions to the correct requirements. Each solution may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Solutions

- Dynamics 365 Guides
- Dynamics 365 Remote Assist
- Dynamics 365 Connected Spaces
- Dynamics 365 Supply Chain Management

Requirement

- Just-in-time training
- Work order creation document
- Training reporting

Solution

Antwort:

Begründung:

Explanation:

To implement a solution for the requirements, you should use the following solutions:

- * Just-in-time training: You should use Dynamics 365 Guides. This solution allows you to create interactive, step-by-step learning experiences for repair technicians in the field. You can use videos, images, and text to provide instructions and tips for work order completion. You can also use mixed reality tools to overlay holograms on physical objects and guide technicians through complex tasks.
 - * Work order creation document: You should use Dynamics 365 Supply Chain Management. This solution allows you to create and manage work orders for equipment maintenance and repair. You can use the Work order page to enter the details of the work order, such as the customer, the equipment, the service tasks, the materials, and the costs. You can also print a work order report that summarizes the information in a single document.
 - * Training reporting: You should use Dynamics 365 Guides. This solution allows you to track and analyze the usage and effectiveness of your guides. You can use Power BI dashboards to view metrics such as completion rates, duration, errors, and feedback for each guide and step. You can also filter the data by date, location, operator, or device.
- [What is Dynamics 365 Guides?] : [Work orders overview] : [Print a work order report] : [Analyze guide effectiveness]

176. Frage

An electronics manufacturing company is transitioning from infinite capacity planning to finite capacity planning to improve scheduling efficiency and manage resource constraints effectively.

The company observes that its manufacturing process typically requires a minimum lead time of five days.

The company requires finite capacity scheduling to create realistic production schedules that account for resource limitations over a defined minimum lead time of five days.

You need to implement finite capacity planning with a time fence that aligns with the five-day manufacturing lead time.

Solution: Set a finite capacity time fence for one day of manufacturing.

Does the solution meet the goal?

- A. No
- B. Yes

Antwort: A

177. Frage

A company implements Dynamics 365 Supply Chain Management.

You need to ensure that cost roll-ups and sales price calculations are configured for the scenario. Which options should you use? To answer select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Antwort:

Begründung:

Explanation:

178. Frage

You need to resolve the issue reported by Buyer1.

Which two features should you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign lifecycle state for subassembly.
- B. Disable active for planning for lifecycle status.
- C. Enable active for planning for lifecycle status.
- D. Assign lifecycle state for parent BOM.
- E. Assign new engineering version for parent BOM.

Antwort: A,C
