# NCP-DB-6.10 Reliable Test Camp & NCP-DB-6.10 Exam Introduction

Therefore, you have the option to use Nutanix NCP-DB-6.10 PDF questions anywhere and anytime. Real4dumps Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) dumps are designed according to the Nutanix NCP-DB-6.10 certification exam standard and have hundreds of questions similar to the actual Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) exam. Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) web-based practice exam software also works without installation.

As for the points you may elapse or being frequently tested in the real exam, we give referent information, then involved them into our NCP-DB-6.10 practice materials. Their expertise about NCP-DB-6.10 practice materials is unquestionable considering their long-time research and compile. Furnishing exam candidates with highly effective materials, you can even get the desirable outcomes within one week. By concluding quintessential points into NCP-DB-6.10 practice materials, you can pass the exam with the least time while huge progress.

NCP-DB-6.10 Exam Introduction, NCP-DB-6.10 Valid Test Fee

You might have seen lots of advertisements about NCP-DB-6.10 learning question, there are so many types of NCP-DB-6.10 exam material in the market, why you should choose us? Our reasons are as follow. Our NCP-DB-6.10 test guide is test-oriented, which makes the preparation become highly efficient. Once you purchase our NCP-DB-6.10 exam material, your time and energy will reach a maximum utilization. Thus at that time, you would not need to afraid of the cruel society and peer pressure with NCP-DB-6.10 Certification. In conclusion, a career enables you to live a fuller and safer life. So if you want to take an upper hand and get a well-pleasing career our NCP-DB-6.10 learning question would be your best friend.

Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Sample Questions (Q223-Q228):

NEW QUESTION # 223
A NDB non-administrative user wants to provision an Oracle database leveraging a Software Profile that the administrator created. What must the administrator do to ensure that this user has access to the Oracle Software Profile?

- A. Replicate the Software Profile to other Nutanix clusters for all users to access.
- B. Promote the Software Profile to Published to be available by other NDB users.
- C. Ensure that the Software Profile has been properly versioned to the latest release of Oracle.
- D. Ensure that specified users have access to the Software Profile using Access Control.

Answer: B

Explanation:
To allow a non-administrative NDB user to provision an Oracle database using a Software Profile created by an administrator, the administrator must promote the Software Profile to Published. In NDB, Software Profiles define the database software version and

configuration (e.g., Oracle binaries). By default, a newly created profile is in a draft or private state. Promoting it to "Published" makes it available for use by other NDB users, including non-administrative ones, within the access control framework. This ensures the profile is validated and accessible without requiring individual user assignments.

NEW QUESTION # 224
Which command can be used to assign a static IP address to the Era VM on ESXi?
set
era-server > era
era-server >
An administrator is trying to register an Oracle Database Server VM to Era.
Which dependency must be met?

- A. Enable reQUIREetty setting on the source database
- B. set path = /sbin:/bin:/usr/sbin:/usr/bin
- C. /TEMP folder must have read-only permissions
- D. SUDO NOPASS access is required

Answer: D

Explanation:
To register an Oracle Database Server VM to Era in Nutanix Database Automation (NCP-DB), certain dependencies must be met. One of these is that SUDO NOPASS access is required. This allows the Era service to perform necessary operations on the Oracle Database Server VM. As for assigning a static IP address to the Era VM on ESXi, you can use the vSphere Client to configure static IP settings. However, this is not directly related to the registration of an Oracle Database Server VM to Era. Please note that these answers are based on the information available as of my last update in 2021 and may need to be verified with the most recent Nutanix Database Automation (NCP-DB) documentation or resources.

NEW QUESTION # 225
An administrator has created a new SQL Server software profile version to apply the latest cumulative update.
What should the administrator do to make it available to all users?

- A. Select the software profile version with the update and optimization,
- B. Update the software profile version and set the status to Published.
- C. Deprecate the existing software profile version and use the new one.
- D. Set the status of the existing software profile version to Unpublished.

Answer: B

Explanation:
When an administrator creates a new SQL Server software profile version to apply the latest cumulative update, they should update the software profile version and set the status to Published. This makes the new profile version available to all users. NDB will show available updates for any database server using the software profile as soon as the new profile version is published.

NEW QUESTION # 226
Which site needs to be reachable to ensure an NDB server can send periodic telemetry data to the central Nutanix repository over port 443?

- A. portal.nutanix.com
- B. insights.nutanix.com
- C. developers.nutanix.com
- D. download.nutanix.com

Answer: B

Explanation:
To ensure an NDB server can send periodic telemetry data to the central Nutanix repository, the server must be able to communicate with the Nutanix Insights platform over port 443 (HTTPS).
The insights.nutanix.com site is the designated endpoint for telemetry data, which includes usage statistics, health metrics, and other

operational data sent to Nutanix for support and analytics purposes. This connectivity is a standard requirement for NDB to comply with Nutanix's telemetry and support framework, and port 443 is used for secure transmission.

NEW QUESTION # 227
An administrator needs to provision a database for test purposes with a data protection policy that minimizes storage usage.
How should the administrator best complete this task?

- A. Select the built-in NONE SLA that is configured for no snapshot or log backup.
- B. Disable the SLA for this database during provisioning.
- C. Create a SLA that only leverages zero-byte snapshots.
- D. Create a custom SLA for this database that only retains 1 day of snapshots and bogs.

Answer: A

Explanation:
Nutanix Database Automation (NCP-DB) allows administrators to manage Service Level Agreements (SLAs) for databases. These SLAs define the data protection policies for databases.
In this case, to minimize storage usage for a test database, the administrator should select the built-in NONE SLA. This SLA is configured for no snapshot or log backup, thus minimizing storage usage.

NEW QUESTION # 228
......

With the rapid development of economy, the demand of society for us is getting higher and higher. If you can have an international certification, then you will be more competitive in society. Our NCP-DB-6.10 exam materials have helped many people improve their competitive in their company or when they are looking for better jobs. Because our NCP-DB-6.10 Practice Questions are all the most advanced information and knowledge to equip you up as the most skilled person. Besides, you can get the certification as well.

NCP-DB-6.10 Exam Introduction: https://www.real4dumps.com/NCP-DB-6.10_examcollection.html

Our Nutanix NCP-DB-6.10 Exam Introduction exam question answers are fully verified by Nutanix NCP-DB-6.10 Exam Introduction professionals that have number of year's experience, Reasonable price of NCP-DB-6.10 study guide, 20-30 hours' preparation is enough for candidates to take the NCP-DB-6.10 exam, Nutanix NCP-DB-6.10 Reliable Test Camp As is known to us, a good product is not only reflected in the strict management system, complete quality guarantee system but also the fine pre-sale and after-sale service system, Nutanix NCP-DB-6.10 Reliable Test Camp Because the things what our materials have done, you might need a few months to achieve.

The nurse should be most concerned about which nursing diagnosis, When faced NCP-DB-6.10 with the prospect of introducing outliers into collective uniformity, teams should embrace these opportunities to increase robustness and performance.

High Hit Rate NCP-DB-6.10 Reliable Test Camp & Passing NCP-DB-6.10 Exam is No More a Challenging Task

Our Nutanix exam question answers are fully verified by Nutanix professionals that have number of year's experience, Reasonable price of NCP-DB-6.10 Study Guide.

20-30 hours' preparation is enough for candidates to take the NCP-DB-6.10 exam, As is known to us, a good product is not only reflected in the strict management system, complete NCP-DB-6.10 Reliable Test Camp quality guarantee system but also the fine pre-sale and after-sale service system.

Because the things what our materials NCP-DB-6.10 Reliable Test Preparation have done, you might need a few months to achieve.
