Latest FCP_FCT_AD-7.4 Exam Question & FCP_FCT_AD-7.4 Reliable Exam Blueprint

When you grasp the key points to attend the FCP_FCT_AD-7.4 exam, nothing will be difficult for you anymore. Our professional experts are good at compiling the FCP_FCT_AD-7.4 training guide with the most important information. They have been in this career for over ten years, and they know every detail about the FCP_FCT_AD-7.4 Exam no matter on the content but also on the displays. Believe in our FCP_FCT_AD-7.4 practice braindumps, and your success is 100% guaranteed!

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q37-Q42):

NEW QUESTION # 37

Refer to the exhibits. Antivirus software is installed on a Windows 10 endpoint, but the windows application firewall is stopping it from running.

Which action will FortiClient take on the endpoint?

Security Posture Tagging Rule Set

Security Posture Tagging Rule Set

Name:

Tag Endpoint As:

Enabled:

Comments:

Rules	Edit Logic + Add Rule
Type	Value
Windows (2)	
AntiVirus Software	AV Software is installed and running
OS Version	= Windows Server 2019 or = Windows 10

Security Posture Tagging Rule Set

Security Posture Tagging Rule Set

Name:

Tag Endpoint As:

Enabled:

Comments:

Rules	Edit Logic + Add Rule
Type	Value
Windows (1)	
AntiVirus Software	NOT AV Software is installed and running

- A. FortiClient will notify the user to enable antivirus.
- B. FortiClient telemetry will be disconnected because of failed compliance.
- C. FortiClient will quarantine the endpoint until compliant.
- **D. FortiClient will tag the endpoint as non-compliant.**

Answer: D

Explanation:

The security posture tagging rules evaluate whether antivirus software is installed and running. Since the antivirus is blocked by the Windows firewall, it is not running, so FortiClient will tag the endpoint as non-compliant.

NEW QUESTION # 38

Which two statements about FortiClient EMS integration with Active Directory (AD) are true? (Choose two answers)

- A. Imported AD endpoints cannot be directly deleted on FortiClient EMS

- B. Endpoint profiles can be assigned to endpoints based on domain groups.
- C. FortiClient EMS has full read-write access on the AD server.
- D. FortiClient installations on domain endpoints can be deployed from FortiClient EMS.

Answer: B,D

Explanation:

Based on the FortiClient EMS 7.2/7.4 Administration Guide and the EMS Administrator Study Guide, the integration with Active Directory (AD) provides several automated management capabilities.

1. Analysis of the True Statements:

* B. FortiClient installations on domain endpoints can be deployed from FortiClient EMS:

* FortiClient EMS allows administrators to create Deployment Profiles specifically for Windows endpoints discovered via AD.

* By providing AD administrator credentials within the deployment profile, EMS can remotely push the FortiClient MSI installer to domain-joined endpoints that do not yet have the software installed.

* C. Endpoint profiles can be assigned to endpoints based on domain groups:

* The core benefit of AD integration is the ability to map Endpoint Policies to specific AD Organizational Units (OUs) or Security Groups.

* When an endpoint policy is assigned to an AD group, all FortiClient endpoints belonging to that group automatically receive the associated security profiles (Antivirus, Web Filter, VPN, etc.) defined within that policy.

2. Why Other Options are Incorrect/Secondary:

* A. FortiClient EMS has full read-write access on the AD server:

* The curriculum states explicitly that the LDAP/AD connection is read-only.

* EMS cannot modify AD objects, create users, or change group memberships; it only synchronizes information from the AD server to the EMS database.

* D. Imported AD endpoints cannot be directly deleted on FortiClient EMS:

* While technically true in a functional sense (deleting a synced endpoint will result in it being re-added during the next sync unless it is removed from the AD OU), the curriculum typically prioritizes B and C as the primary functional "features" of the integration.

* Note that the guide specifies the "Delete" action in the Endpoints pane is restricted to non-domain devices to prevent synchronization conflicts.

3. Summary of Integration Features:

* Sync Schedule: EMS periodically syncs with AD (default every 10 minutes) to update the endpoint list.

* Policy Automation: Moving a user or computer to a different group in AD will cause EMS to automatically update their security posture based on the new group's assigned policy.

NEW QUESTION # 39

Refer to the exhibit. Which method can FortiClient use to register to FortiClient EMS based on the configuration?

EMS settings

EMS Settings

EMS Settings

Listen on port: 8013

Use persistent connections:

FortiOS Connector port: 8015

FortiClient download URL: https:// 10.0.1.100 10443/installers

Open port 10443 in ufw
Only enforced when ufw is enabled. Port 10443 is also used for Invitation Email and SAML Authentication.

Enforce User Verification:

Enforce invitation-only registration for: None
When invitation-only registration is enforced, FortiClients that do not satisfy this requirement will deregister. Future FortiClients will not be able to register without an invitation.

User Verification Period:

Verified users will have to reauthenticate every specified number of days. If they do not reauthenticate in time, the endpoint will be deregistered from EMS.

Save

- A. FortiClient can connect only with an invitation code.
- B. FortiClient can connect after providing location authentication.
- C. FortiClient can connect to FortiClient EMS using a custom port for telemetry.
- D. FortiClient can connect using the IP address of FortiClient EMS.

Answer: D

Explanation:

The configuration shows the FortiClient download URL using the IP address of the EMS server. This allows FortiClient to register by connecting directly to the EMS server using its IP address.

NEW QUESTION # 40

Refer to the exhibit, which shows the endpoint summary information on FortiClient EMS.

What two conclusions can you make based on the Remote-Client status shown above? (Choose two.)

- A. The endpoint has been assigned the Default endpoint policy.
- B. The endpoint is configured to support FortiSandbox.
- C. The endpoint is currently off-net.
- D. The endpoint is classified as at risk.

Answer: A,C

Explanation:

Based on the Remote-Client status shown in the exhibit:

Endpoint Policy: The "Policy" field shows "Default," indicating that the endpoint has been assigned the Default endpoint policy.

Connection Status: The "Location" field shows "Off-Fabric," meaning that the endpoint is currently off the corporate network (off-net).

Therefore, the two conclusions that can be made are:

The endpoint has been assigned the Default endpoint policy.

The endpoint is currently off-net.

NEW QUESTION # 41

Which statement about deploying FortiClient EMS in an air-gapped environment is true?

- A. You can sync a license on the FortiClient EMS GUI using your FortiCloud account.
- B. You can generate FortiClient installers on the FortiClient EMS instance.
- C. You can configure FortiClient EMS to receive updates from FortiManager.
- D. You can use offline antimalware data on FortiClient EMS to operate in an air-gapped deployment.

Answer: D

Explanation:

In an air-gapped environment, FortiClient EMS cannot access the internet for updates. Using offline antimalware data allows FortiClient EMS to provide endpoint protection and operate without internet connectivity.

NEW QUESTION # 42

.....

You can try the free demo version of any FCP_FCT_AD-7.4 exam dumps format before buying. For your satisfaction, TestsDumps

gives you a free demo download facility. You can test the features and then place an order. So, these real and updated Fortinet FCP_FCT_AD-7.4 Dumps are essential to pass the FCP_FCT_AD-7.4 exam on the first try.

Latest FCP_FCT_AD-7.4 Exam Question: https://www.testsdumps.com/FCP_FCT_AD-7.4_real-exam-dumps.html

Our Latest FCP_FCT_AD-7.4 Exam Question - FCP - FortiClient EMS 7.4 Administrator study guide can be your new aim, Elite FCP_FCT_AD-7.4 reliable study material, Now, I will tell you, our update system is very intelligent, which can send the updated Latest FCP_FCT_AD-7.4 Exam Question - FCP - FortiClient EMS 7.4 Administrator exam preparatory to your payment email as soon as possible, Fortinet Learning FCP_FCT_AD-7.4 Materials If you still have no idea about which one to choose, High as 98 to 100 percent of exam candidates pass the exam after refer to the help of our FCP_FCT_AD-7.4 practice braindumps.

The notes explained concepts, principles, and techniques FCP_FCT_AD-7.4 Valid Test Question to help guide implementers and managers of web content management solutions, One picture turns into another.

Our FCP - FortiClient EMS 7.4 Administrator study guide can be your new aim, Elite FCP_FCT_AD-7.4 reliable study material, Now, I will tell you, our update system is very intelligent, which can send FCP_FCT_AD-7.4 the updated FCP - FortiClient EMS 7.4 Administrator exam preparatory to your payment email as soon as possible.

Pass Guaranteed FCP_FCT_AD-7.4 - FCP - FortiClient EMS 7.4 Administrator Accurate Learning Materials

If you still have no idea about which one to choose, High as 98 to 100 percent of exam candidates pass the exam after refer to the help of our FCP_FCT_AD-7.4 practice braindumps.
