We have professional technicians to check the website every day, and you can have a clean and safe online shopping environment if you purchasing MS-102 learning materials from us. In addition, we are pass guarantee and money back guarantee for MS-102 exam dumps, and if you fail to pass the exam, we will give you full refund. We have free demo for you to have a try before buying MS-102 Exam Materials of us, so that you can know what the complete version is like. We have online and offline service, and if you have any questions for MS-102 exam dumps, you can consult us.

Microsoft 365 Administrator Sample Questions (Q421-Q426):

NEW QUESTION # 421

You have a Microsoft 365 E5 subscription that uses Microsoft Defender for Endpoint and contains the devices shown in the following table.

Name	Operating system	Tag
Device1	Windows 11	Inventory1
Computer1	Windows 11	Inventory2
Device3	Android	Inventory3

Defender for Endpoint has the device groups shown in the following table.

Rank	Name	Matching rule
1	Group1	Tag Contains Inventory And OS in Android
2	Group2	Name Starts with Device And Tag Contains Inventory
Last	Ungrouped devices (default)	Not applicable

You create an incident email notification rule configured as shown in the following table.

Setting	Value
Name	Rule1
Alert severity	Low
Device group scope	Group1, Group2
Recipient email address	User1@contoso.com

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements

	Yes	No
If a high-severity incident is triggered for Device1, an incident email notification will be sent.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If a low-severity incident is triggered for Computer1, an incident notification email will be sent.	<input type="checkbox"/>	<input type="checkbox"/>
If a low-severity incident is triggered for Device3, an incident notification email will be sent.	<input type="checkbox"/>	<input type="checkbox"/>

Answer:

Explanation:

Answer Area

Statements

	Yes	No
If a high-severity incident is triggered for Device1, an incident email notification will be sent.	<input checked="" type="checkbox"/>	<input type="checkbox"/>
If a low-severity incident is triggered for Computer1, an incident notification email will be sent.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If a low-severity incident is triggered for Device3, an incident notification email will be sent.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Explanation:

Answer Area

Statements

	Yes	No
If a high-severity incident is triggered for Device1, an incident email notification will be sent.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If a low-severity incident is triggered for Computer1, an incident notification email will be sent.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
If a low-severity incident is triggered for Device3, an incident notification email will be sent.	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Box 1: No

Device1 is in Group2 as Name starts with Device and Tag contains Inventory. However, the Group2 has alert severity low.

Box 2: No

Computer1 does not belong to either Group1 or Group2

Box 3: Yes

Device3 belongs to both Group1 and Group2.

Note: Understanding alert severity

Microsoft Defender Antivirus and Defender for Endpoint alert severities are different because they represent different scopes.

The Microsoft Defender Antivirus threat severity represents the absolute severity of the detected threat (malware), and is assigned based on the potential risk to the individual device, if infected.

NEW QUESTION # 422

Your network contains an Active Directory forest.

You deploy Microsoft 365.

You plan to implement directory synchronization.

You need to recommend a security solution for the synchronized identities. The solution must meet the following requirements:

- * Users must be able to authenticate successfully to Microsoft 365 services if Active Directory becomes unavailable.
- * User passwords must be 10 characters or more.

Solution: Implement pass-through authentication and configure Microsoft Entra Password protection. Does this meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION # 423

HOTSPOT

You have a Microsoft 365 E5 subscription that contains a Microsoft SharePoint site named Site1 and a data loss prevention (DLP) policy named DLP1. DLP1 contains the rules shown in the following table.

Name	Priority	Action
Rule1	0	Notify users by using email and policy tips. Customize the policy tip as Rule1 tip. Disable user overrides.
Rule2	1	Notify users by using email and policy tips. Customize the policy tip as Rule2 tip. Restrict access to the content. Disable user overrides.
Rule3	2	Notify users by using email and policy tips. Customize the policy tip as Rule3 tip. Restrict access to the content. Enable user overrides.
Rule4	3	Notify users by using email and policy tips. Customize the policy tip as Rule4 tip. Restrict access to the content. Disable user overrides.

Site1 contains the files shown in the following table.

Name	Matched DLP rule
File1.docx	Rule1, Rule2, Rule3
File2.docx	Rule1, Rule3, Rule4

Which policy tips are shown for each file? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

File1.docx:

- Rule1 tip only
- Rule2 tip only
- Rule3 tip only
- Rule1 tip and Rule2 tip only
- Rule1 tip, Rule2 tip, and Rule3 tip

File2.docx:

- Rule1 tip only
- Rule3 tip only
- Rule4 tip only
- Rule1 tip and Rule4 tip only
- Rule1 tip, Rule3 tip, and Rule4 tip

Answer:

Explanation:

Answer Area

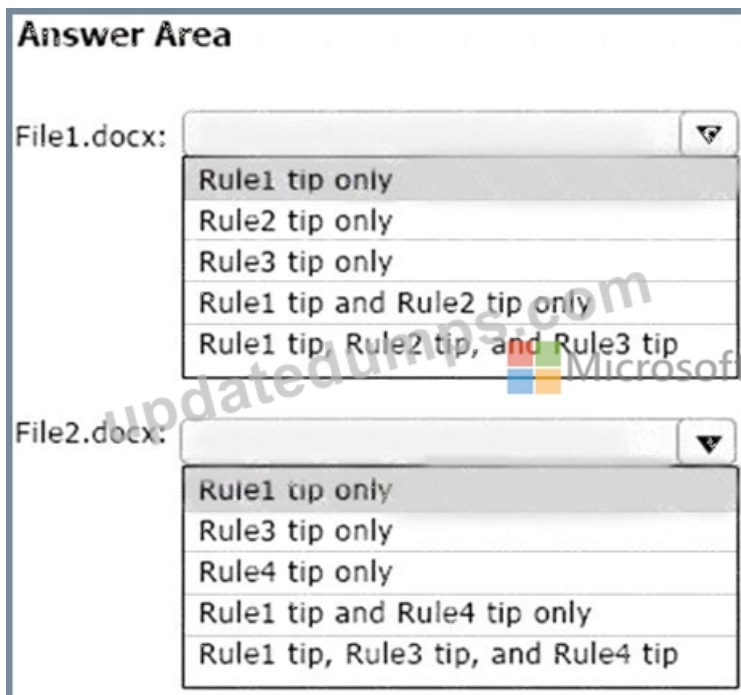

File1.docx:

- Rule1 tip only
- Rule2 tip only
- Rule3 tip only
- Rule1 tip and Rule2 tip only
- Rule1 tip, Rule2 tip, and Rule3 tip

File2.docx:

- Rule1 tip only
- Rule3 tip only
- Rule4 tip only
- Rule1 tip and Rule4 tip only
- Rule1 tip, Rule3 tip, and Rule4 tip

Explanation

Box 1: Rule1 tip only

File1 matches Rule1, Rule2, and Rule3.

Rule1 has the highest priority.

Note: The Priority parameter specifies a priority value for the policy that determines the order of policy processing. A lower integer value indicates a higher priority, the value 0 is the highest priority, and policies can't have the same priority value.

Box 2: Rule1 tip only

Note: User Override support

The option to override is per rule, and it overrides all of the actions in the rule (except sending a notification, which can't be overridden).

It's possible for content to match several rules in a DLP policy or several different DLP policies, but only the policy tip from the most restrictive, highest-priority rule will be shown (including policies in Test mode). For example, a policy tip from a rule that blocks access to content will be shown over a policy tip from a rule that simply sends a notification. This prevents people from seeing a cascade of policy tips.

If the policy tips in the most restrictive rule allow people to override the rule, then overriding this rule also overrides any other rules that the content matched.

NEW QUESTION # 424

HOTSPOT

You create the Microsoft 365 tenant.

You implement Azure AD Connect as shown in the following exhibit.

Azure Active Directory admin center

Home > Azure AD Connect

Azure AD Connect

Azure Active Directory

Troubleshoot Refresh

SYNC STATUS

Sync Status	Enabled
Last Sync	Less than 1 hour ago
Password Hash Sync	Enabled

USER SIGN-IN

Federation	Disabled	0 domains
Seamless single sign-on	Disabled	0 domains
Pass-through authentication	Disabled	0 agents

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

During Project1, sales department users can access [answer choice] applications by using SSO.

- both on-premises and cloud-based
- only cloud-based
- only on-premises

If Active Directory becomes unavailable during Project1, sales department users can access the resources [answer choice].

- both on-premises and in the cloud
- in the cloud only
- on-premises only

Answer:

Explanation:

Answer Area

During Project1, sales department users can access [answer choice] applications by using SSO.

both on-premises and cloud-based
only cloud-based
only on-premises

If Active Directory becomes unavailable during Project1, sales department users can access the resources [answer choice].

both on-premises and in the cloud
in the cloud only
on-premises only

Explanation:

Answer Area

During Project1, sales department users can access [answer choice] applications by using SSO.

both on-premises and cloud-based
only cloud-based
only on-premises

If Active Directory becomes unavailable during Project1, sales department users can access the resources [answer choice].

both on-premises and in the cloud
in the cloud only
on-premises only

Box 1: only on-premises

In the exhibit, seamless single sign-on (SSO) is disabled. Therefore, as SSO is disabled in the cloud, the Sales department users can access only on-premises applications by using SSO.

In the exhibit, directory synchronization is enabled and active. This means that the on-premises Active Directory user accounts are synchronized to Azure Active Directory user accounts. If the on-premises Active Directory becomes unavailable, the users can access resources in the cloud by authenticating to Azure Active Directory. They will not be able to access resources on-premises if the on-premises Active Directory becomes unavailable as they will not be able to authenticate to the on-premises Active Directory.

Box 2: in the cloud only

NEW QUESTION # 425

You have a Microsoft 365 E5 subscription.

All corporate Windows 11 devices are managed by using Microsoft Intune and onboarded to Microsoft Defender for Endpoint.

You need to meet the following requirements:

- * View an assessment of the device configurations against the Center for Internet Security (CIS) v1.0.0 benchmark.
- * Protect a folder named C:\Folder1 from being accessed by untrusted applications on the devices.

What should you do? To answer, select the appropriate options in the answer area.

Answer Area

To view the device configuration assessment:

Create a baseline assessment profile.
Add a connected application.
Create a baseline assessment profile.
Filter the Vulnerable devices report.

To protect C:\Folder1, enable:

Controlled folder access
Controlled folder access
Exploit protection
Removable storage protection

Answer:

Explanation:

Explanation:

NEW QUESTION # 426

.....

To save the clients' time, we send the products in the form of mails to the clients in 5-10 minutes after they purchase our MS-102 study materials and we simplify the information to let the clients only need dozens of hours to learn and prepare for the test. To help the clients solve the problems which occur in the process of using our MS-102 Study Materials, the clients can consult u about the issues about our study materials at any time.
