

Sample NCP-EUC Questions Pdf | NCP-EUC Fresh Dumps

What's more, part of that DumpExam NCP-EUC dumps now are free: <https://drive.google.com/open?id=1D-PJE3MjUS835S1BPd-TNwUkpQZNUVGh>

The up-to-date Nutanix NCP-EUC exam answers will save you from wasting much time and energy in the exam preparation. The content of our Nutanix NCP-EUC Dumps Torrent covers the key points of exam, which will improve your ability to solve the difficulties of Nutanix NCP-EUC real questions.

Nutanix NCP-EUC Certification Exam is a multiple-choice exam that consists of 60 questions. NCP-EUC exam duration is 90 minutes, and the passing score is 300 out of 500. NCP-EUC exam is available in multiple languages, including English, Japanese, Simplified Chinese, and Korean.

Nutanix NCP-EUC exam is designed for IT professionals who specialize in end-user computing. Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam certification exam is aimed at validating the skills and knowledge of candidates in designing, implementing, and managing Nutanix-powered end-user computing solutions. Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam certification proves that the candidate is proficient in deploying and managing virtual desktop infrastructure (VDI) and enterprise mobility management (EMM) solutions on Nutanix.

NCP-EUC Fresh Dumps - NCP-EUC Cert Exam

NCP-EUC test questions have so many advantages that basically meet all the requirements of the user. If you have good comments or suggestions during the trial period, you can also give us feedback in a timely manner. Our study materials will give you a benefit as Thanks, we do it all for the benefits of the user. NCP-EUC Study Materials look forward to your joining in.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q104-Q109):

NEW QUESTION # 104

An administrator has been tasked with increasing security by setting permissions based on department. Which feature can the administrator use to best accomplish this task?

- A. Securing traffic by through Network Segmentation
- B. Cluster Lockdown through PC
- C. Creation of a single local user for each department
- **D. Role-based access control (RBAC)**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to the Prism Central Admin Guide regarding Security and User Management:

* RBAC Definition: Role-Based Access Control (RBAC) is the specific feature designed to map users and groups (such as an Active Directory "Department" group) to specific sets of permissions (Roles).

* Application: An administrator can define a role (e.g., "HR Admin") with specific privileges and assign it to the "HR Department" AD group. This ensures that permissions are granted granularly based on the department, fulfilling the security requirement efficiently.

* Why not others:

* Network Segmentation controls traffic flow (who can talk to whom), not administrative permissions.

* Cluster Lockdown disables password authentication for SSH, which is a hardening step, not a permission management strategy.

NEW QUESTION # 105

A multisite App Volumes deployment uses a stretched database over multiple Horizon View sites. Non-Attachable volumes will be used to support replication of AppStacks between blocks and pods.

What should the administrator do to be able to replicate AppStacks between the Nutanix clusters?

- A. storage container on the primary cluster to at least one host in other Nutanix clusters,
- **B. Utilize the native async disaster recovery technology to replicate the AppStacks between the Nutanix clusters.**
- C. Replicate the .vmdk files and AppStacks permissions using a script between the Nutanix clusters,
- D. Leverage an external storage system such as NFS NAS to support the non-attachable

Answer: B

Explanation:

regarding replicating AppStacks between Nutanix clusters, it is likely that the correct answer would involve configuring some form of replication or disaster recovery technology on the Nutanix clusters themselves.

NEW QUESTION # 106

An administrator would like to apply a group of base settings to Citrix-based VDI users at each logon. which user profile type would best fit the scenario?

- A. Virtual disk-based Profiles
- B. Roaming Profiles
- **C. Mandatory Profiles**
- D. Local Profiles

Answer: C

Explanation:

A mandatory profile is a type of roaming profile that is read-only and does not save any changes made by users during their sessions. A mandatory profile can be applied to a group of users who share a common desktop environment and do not need to customize their settings or preferences.

A mandatory profile can ensure that a group of base settings are applied to Citrix-based VDI users at each logon, regardless of any changes they make during their sessions. A mandatory profile can also improve performance, security, and consistency of the VDI environment.

To use a mandatory profile with Citrix Virtual Apps and Desktops, you need to create a template profile on a reference machine, rename its NTUSER.DAT file to NTUSER.MAN, and copy it to a network share. Then you need to configure Profile Management

policies or Active Directory settings to point to the network share location for your users2.

NEW QUESTION # 107

What should the administrator use when creating a Windows 10 gold image using Calm for Citrix MCS persistent desktops?

- A. Microsoft downloaded Windows 10 ISO image.
- **B. Snapshot of Citrix optimized Windows 10 image.**
- C. VMware optimized Windows 10 image.
- D. Sysprepped Microsoft Windows 10 image

Answer: B

Explanation:

A snapshot is a point-in-time copy of a virtual machine that can be used as a template for creating new machines. A Citrix optimized Windows 10 image is a Windows 10 image that has been configured with best practices and optimizations for Citrix Virtual Apps and Desktops.

Using a snapshot of a Citrix optimized Windows 10 image can ensure that the persistent desktops have consistent performance, security, and user experience. It can also simplify the image management process by allowing you to update the snapshot with new patches or applications using Calm.

Calm is a tool that automates application lifecycle management across different environments. Calm can integrate with Citrix MCS to create, update, and delete virtual machines based on blueprints that define the configuration and dependencies of an application.

NEW QUESTION # 108

An administrator is tasked with providing dedicated VDIs to developers.

Which deployment method type requires the least amount of effort to achieve this task?

- **A. Dedicated VDI provisioned from MCS**
- B. Non-persistent pool
- C. Dedicated VDI provisioned from PVS
- D. Static-built Remote PC pool

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to Citrix on Nutanix Reference Architectures:

* Simplicity of MCS: Machine Creation Services (MCS) is integrated directly into the Citrix Studio console and communicates natively with the Nutanix AHV APIs. It creates clones (Linked or Full) effortlessly without requiring extra infrastructure.

* Comparison with PVS: PVS (Provisioning Services) (Option D) requires a separate PVS infrastructure (Provisioning Servers, SQL database, TFTP/DHCP configuration, Network Streaming Setup).

* Conclusion: For a "Dedicated VDI" requirement, using MCS to provision full or fast clones requires significantly less administrative effort and infrastructure setup than implementing a PVS environment.

NEW QUESTION # 109

.....

It is known to us that the error correction is very important for these people who are preparing for the NCP-EUC exam in the review stage. It is very useful and helpful for a lot of people to learn from their mistakes, because many people will make mistakes in the same way, and it is very bad for these people to improve their accuracy. If you want to correct your mistakes when you are preparing for the NCP-EUC Exam, the study materials from our company will be the best choice for you. Because our NCP-EUC reference materials can help you correct your mistakes and keep after you to avoid the mistakes time and time again. We believe that if you buy the NCP-EUC exam prep from our company, you will pass your exam in a relaxed state.
