BONUS!!! Download part of ValidDumps MB-335 dumps for free: <https://drive.google.com/open?id=1GbiVvJW6DpC9flvA2-8EX-piKQPQt2bw>

Our MB-335 training materials provide 3 versions to the client and they include the PDF version, PC version, APP online version. Each version's using method and functions are different but the questions and answers of our MB-335 study materials is the same. The client can decide which MB-335 version to choose according their hobbies and their practical conditions. For instance, the PDF version is convenient for reading and supports the printing of our MB-335 Study Materials. If client uses the PDF version of MB-335 learning questions, you can also put on notes on it.

Microsoft MB-335 certification exam is designed for professionals who are interested in becoming a certified Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert. MB-335 exam is designed to test the candidate's knowledge and skills in implementing and configuring supply chain management solutions using Microsoft Dynamics 365. By passing MB-335 Exam, candidates can demonstrate their expertise in this area and enhance their career prospects.

## Quiz 2026 Microsoft MB-335: High Hit-Rate Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Test Centres

The latest MB-335 exam torrent covers all the qualification exam simulation questions in recent years, including the corresponding matching materials at the same time. Do not have enough valid MB-335 practice materials, can bring inconvenience to the user, such as the delay progress, learning efficiency and to reduce the learning outcome was not significant, these are not conducive to the user persistent finish learning goals. Therefore, to solve these problems, the MB-335 test material is all kinds of qualification examination, the content of the difficult point analysis, let users in the vast amounts of find the information you need in the study materials, the MB-335 practice materials improve the user experience, to lay the foundation for good grades through qualification exam.

## Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q114-Q119):

NEW QUESTION # 114

You are the product design manager for a computer manufacturer.

Your new laptop model is configurable. There are restrictions on which hardware components can be selected depending on the model. You create configuration groups for hardware and software.

You need to create a new laptop item number and configurations.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- ⋮ Create a product master with dimension-based configuration technology.
- ⋮ Assign a product dimension group with an active configuration dimension.
- ⋮ Create a bill of materials version and create a configuration route.
- ⋮ Create the configuration variants automatically by using the Maintain configurations form.

Answer Area

**Answer:**

**Explanation:**

Actions

- ⋮ Create a product master with dimension-based configuration technology.
- ⋮ Assign a product dimension group with an active configuration dimension.
- ⋮ Create a bill of materials version and create a configuration route.
- ⋮ Create the configuration variants automatically by using the Maintain configurations form.

Answer Area

- ⋮ Create a product master with dimension-based configuration technology.
- ⋮ Assign a product dimension group with an active configuration dimension.
- ⋮ Create a bill of materials version and create a configuration route.
- ⋮ Create the configuration variants automatically by using the Maintain configurations form.

### NEW QUESTION # 115

A manufacturing company is implementing Dynamics 365 Supply Chain Management.

Bill of materials (BOMs) must be calculated using standard cost principles.

Miscellaneous charges must be included in the unit cost price. The explosion mode must always be enforced as single level.

You need to configure the system to meet the requirements.

Which configuration should you enable for each requirement? To answer, drag the appropriate configurations to the correct requirements.

Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations	Requirement	Configuration
Cost categories	Include miscellaneous charges.	<input type="text"/>
Fallback principle	Enforce the single-level explosion mode.	<input type="text"/>
Calculation restriction		
Recording restriction		

**Answer:**

**Explanation:**

Explanation:

### NEW QUESTION # 116

A company uses distributed hybrid topology within their Dynamics 365 Supply Chain Management system.

The company plans to build a manufacturing plant on a mountain to be closer to a required mineral source.

Internet connectivity is unreliable, and availability of bandwidth speed is limited. The company plans to deploy an operational edge scale unit for the plant to address the connectivity issue.

You need to determine where production operations can be performed.

Which method should you recommend?

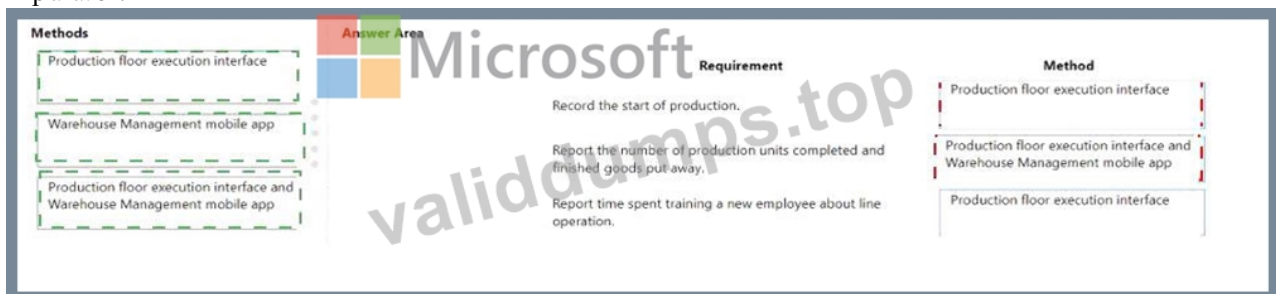

To answer, drag the appropriate methods to the correct requirements. Each method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

To determine where production operations can be performed, you should recommend the following methods:

\* Record the start of production: You should recommend the Production floor execution interface method. This method allows workers to register their daily work, such as when they start a job, report feedback about jobs, register indirect activities, and report absence1. Workers can use the production floor execution interface to sign in with their badge IDs and select the jobs that they want to start from the All jobs tab1. They can also view the details and instructions for each job, and report good quantities and scrap1.

\* Report the number of production units completed and finished goods put away: You should recommend the Production floor execution interface and Warehouse Management mobile app methods. These methods allow workers to report the completion of production jobs and the movement of finished goods to inventory. Workers can use the production floor execution interface to complete a job by selecting it from the Active jobs tab and tapping Complete1. They can also print labels for the finished goods if

required<sup>2</sup>. Workers can use the Warehouse Management mobile app to scan or enter license plates for the finished goods and put them away in a location<sup>3</sup>. They can also perform other warehouse operations, such as picking, packing, receiving, and cycle counting<sup>3</sup>.

\* Report time spent training a new employee about line operation: You should recommend the Production floor execution interface method. This method allows workers to register indirect activities that are not related to a specific production job, such as training, meetings, or maintenance<sup>1</sup>. Workers can use the production floor execution interface to register an indirect activity by tapping Indirect activity on the toolbar and selecting an activity type from the list<sup>1</sup>. They can also enter a quantity or duration for the activity, and add a comment if needed<sup>1</sup>.

1: How workers use the production floor execution interface 2: Print labels 3: Install and connect the Warehouse Management mobile app

## NEW QUESTION # 117

A company plans to implement routing and route postings.

You must direct posting of route cards based upon the route group at Report as finished. You set the start default order for route posting to Never and the Report as finished to Route Group Dependent.

You set up the route group as shown below.

The screenshot shows the 'ROUTE GROUPS' configuration for 'Standard route group'. The 'General' tab is active. Under 'ESTIMATION AND COSTING', 'Setup time' is set to 'Yes' and 'Run time' is set to 'Yes'. Under 'AUTOMATIC ROUTE CONSUMPTION', 'Setup time' is set to 'No' and 'Run time' is set to 'Yes'. Under 'FEEDBACK', 'Report operation as finished' is set to 'No'. The 'Setup' table is as follows:

Route/job type	Automatic	Run management	Working time	Capacity
Queue before	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Setup	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Process	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Overlap	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Transport	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Queue after	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

The route card posted at Report as finished will contain:

- Setup and Run time
- Setup time only
- Run time only
- Setup and Run time
- No transactions

Based upon the setup of the route group, the company may experience the following issue:

- Capacity is not consumed with transport time.
- Setup time must be manually posted.
- Working time is used for transport time.
- Capacity is not consumed with transport time.
- Job control is used for run time.

Answer:

Explanation:

Answer Area

The route card posted at Report as finished will contain:

- Setup and Run time
- Setup time only
- Run time only
- Setup and Run time
- No transactions

Based upon the setup of the route group, the company may experience the following issue:

- Capacity is not consumed with transport time.
- Setup time must be manually posted.
- Working time is used for transport time.
- Capacity is not consumed with transport time.
- Job control is used for run time.

Explanation:

### NEW QUESTION # 118

A discrete manufacturer uses the time and attendance registration for production operations.

All employees register daily clock in and clock out times during a 40-hour, Monday through Friday workweek.

Pay periods are every two weeks. Workers are paid hourly.

The production manager will create work schedules with the following windows:

- \* Mandatory work hours
- \* Work hours during which employees can leave early without accruing absences
- \* Work hours during which employees can work extra time

If a junior production worker works over 90 hours in a pay period, the worker will receive time and a half over 80 hours. If a senior production worker works over 90 hours in a pay period, the worker will receive double time over 80 hours.

You need to configure the system for these requirements.

Where should you configure this functionality? To answer, drag the appropriate forms to the correct requirements. Each form may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Answer:**

**Explanation:**

**Explanation:**

To configure the system for these requirements, you should use the following forms:

\* Configure the overtime calculations: You should use the Workers form. This form allows you to set up and maintain information about workers, such as their personal details, employment status, and compensation<sup>1</sup>. You can also specify the overtime rate for each worker on the Time and attendance tab<sup>2</sup>. For example, you can set the overtime rate to 1.5 for junior production workers and 2 for senior production workers.

\* Configure the periods of time that a worker can choose whether to work: You should use the Flex groups form. This form allows you to set up and maintain flex groups, which are groups of workers who have flexible work hours<sup>3</sup>. You can also define flex profiles for each flex group, which specify the mandatory work hours, the flex time hours, and the extra time hours for each day of the week<sup>3</sup>. For example, you can create a flex profile that has mandatory work hours from 8:00 AM to 4:00 PM, flex time hours from 4:00 PM to 6:00 PM, and extra time hours from 6:00 PM to 8:00 PM.

1: Workers 2: Set up overtime rates 3: Flex groups : [Flex profiles]

### NEW QUESTION # 119

.....

The clients can use the shortest time to prepare the MB-335 exam and the learning only costs 20-30 hours. The questions and answers of our MB-335 exam questions are refined and have simplified the most important information so as to let the clients use little time to learn. The client only need to spare 1-2 hours to learn our MB-335 study question each day or learn them in the weekends. Commonly speaking, people like the in-service staff or the students are busy and don't have enough time to prepare the

exam. Learning our MB-335 test practice materials can help them save the time and focus their attentions on their major things.
