

FCSS_SDW_AR-7.4 Discount & Minimum FCSS_SDW_AR-7.4 Pass Score

P.S. Free 2026 Fortinet FCSS_SDW_AR-7.4 dumps are available on Google Drive shared by ExamsLabs:
https://drive.google.com/open?id=1f7A39FHsPLbrbkScoTYOI1_EZf602EFf

It is important to check the exercises and find the problems. Once you use our FCSS_SDW_AR-7.4 study prep to aid your preparation of the exam, all of your exercises of the study materials will be carefully recorded on the system of the FCSS_SDW_AR-7.4 exam braindump. Also, you can know your current learning condition clearly. The results will display your final scores on the screen. Also, you will know the numbers of correct and false questions of your exercise. Our FCSS_SDW_AR-7.4 test question grading system is designed to assist your study, which is able to calculate quickly. So you don't need to wait for a long time. The calculating speed of our FCSS_SDW_AR-7.4 study prep is undergoing the test of practice. The highest record is up to five seconds. There has no delay time of the grading process. Slow system response doesn't exist. In addition, the calculation system of the FCSS_SDW_AR-7.4 test question is very powerful and stable. We promise that the results of your exercises are accurate.

If you want to check the quality and validity of our FCSS_SDW_AR-7.4 exam questions, then you can click on the free demos on the website. The free demo has three versions. We only send you the PDF version of the FCSS_SDW_AR-7.4 study questions. We have shown the rest two versions on our website. All in all, you will have a comprehensive understanding of various FCSS_SDW_AR-7.4 practice materials. Then after deliberate considerations, you can directly purchase the most suitable one for yourself.

Minimum FCSS_SDW_AR-7.4 Pass Score | Review FCSS_SDW_AR-7.4 Guide

You can easily get FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) certified if you prepare with our Fortinet FCSS_SDW_AR-7.4 questions. Our product contains everything you need to ace the FCSS_SDW_AR-7.4 certification exam and become a certified IT professional. So what are you waiting for? Purchase this updated FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) exam practice material today and start your journey to a shining career.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q34-Q39):

NEW QUESTION # 34
Refer to the exhibit.

FortiGate router policy and diagnose output

```
branch1_fgt # show router policy
config router policy
  edit 1
    set src "10.0.1.128/255.255.255.128"
    set dst "128.66.0.0/255.255.255.0"
    set action deny
  next
end

branch1_fgt # diagnose sys sdwan service4

Service(1): Address Mode(IPV4) flags=0x4200 use-shortcut-sla
use-shortcut
  Tie break: cfg
  Shortcut priority: 2
  Gen(1), TOS(0x0/0x0), Protocol(0): src(1->65535):dst
(1->65535), Mode(priority),
  link-cost-factor(latency), link-cost-threshold(10),
health-check(Corp_HC)
  Members(2):
    1: Seq_num(2 port2 underlay), alive, latency:
0.769, selected
    2: Seq_num(1 port1 underlay), alive, latency:
71.022, selected
  Application Control(3): Microsoft.Portal(41469,0)
Salesforce(16920,0) Collaboration (0,28)
  Src address(1):
    10.0.1.0-10.0.1.255

Service(4): Address Mode(IPV4) flags=0x24200 use-shortcut-sla
use-shortcut
  Tie break: cfg
  Shortcut priority: 2
  Gen(1), TOS(0x0/0x0), Protocol(0): src(1->65535):dst
(1->65535), Mode(sla hash-mode=round-robin),
  Members(2):
    1: Seq_num(1 port1 underlay), alive sla(0x1),
gid(2), num of pass(1), selected
    2: Seq_num(2 port2 underlay), alive sla(0x1),
gid(2), num of pass(1), selected
  Src address(1):
    10.0.1.0-10.0.1.255

  Dat address(1):
    128.66.0.0-128.66.255.255
```

How does FortiGate handle the traffic with the source IP 10.0.1.130 and the destination IP 128.66.0.125?

- A. FortiGate drops the traffic flow.
- B. FortiGate steers the traffic flow through port2.
- C. FortiGate load balances the traffic flow through port1 and port2.
- D. FortiGate routes the traffic flow according to the FIB.

Answer: A

Explanation:

The router policy explicitly denies traffic with source 10.0.1.128/25 (which includes 10.0.1.130) and destination 128.66.0.0/24 (which includes 128.66.0.125). Even though SD-WAN service 4 shows members (port1 and port2) alive and available for this traffic, the router policy is evaluated first and blocks it.

Therefore, FortiGate drops the traffic flow.

NEW QUESTION # 35

You are planning a new SD-WAN deployment with the following criteria:

- Two regions
- Most of the traffic is expected to remain within its region
- No requirement for inter-region ADVPN

To remain within the recommended best practices, which routing protocol should you select for the overlays?

- A. IBGP with BGP on loopback within each region and EBGP between the regions.
- B. IBGP with BGP per overlays within each region and IBGP with BGP on loopback between the regions.
- C. OSPF for the routing within each region and EBGP between the regions.
- D. IBGP within each region and between the regions.

Answer: A

Explanation:

Using iBGP with BGP on loopback within each region ensures scalable and stable routing inside the region, while eBGP between regions aligns with best practices to maintain clear boundaries, reduce convergence complexity, and support region separation.

NEW QUESTION # 36

Exhibit.

```
config vpn ipsec phase1-interface
edit "VPN1"
set interface "port1"
set ike-version 2
set peertype any
set exchange-interface-ip enable
set mode-cfg disable
set proposal aes256-sha256
end
end
```

The administrator configured the IPsec tunnel VPN1 on a FortiGate device with the parameters shown in exhibit.

Based on the configuration, which three conclusions can you draw about the characteristics and requirements of the VPN tunnel? (Choose three.)

- A. The remote end must support IKEv2.
- B. The remote end can be a third-party IPsec device.
- C. This configuration allows user-defined overlay IP addresses.
- D. The administrator must manually assign the tunnel interface IP address on the hub side
- E. The tunnel interface IP address on the spoke side is provided by the hub.

Answer: B,C,D

NEW QUESTION # 37

Refer to the exhibit. The exhibit shows the health-check configuration on a FortiGate device used as a spoke. You notice that the hub FortiGate doesn't prioritize the traffic as expected.

Which two configuration elements should you check on the hub? (Choose two.)

```

config system sdwan FORTINET
  config health_check
    edit "DNS"
      set server "4.2.2.1" "4.2.2.2"
      set detect-mode active
      set protocol ping
      set embed-measured-health enable
      set members 3 4
      config sla
        edit 1
          set link-cost-factor latency
          set latency-threshold 100
        end
      next
    end
  end
end

```

- A. The performance SLA uses the same criteria.
- B. The performance SLA has the parameter priority-out-slaconfigured.
- C. The performance SLA is configured with set embedded-measure accept.
- D. This performance SLA uses the same members.

Answer: A,C

Explanation:

The hub must use a performance SLA with the same criteria as the spoke's health check. The spoke's health check is using ping (protocol ping) and measuring latency (link-cost-factor latency). For the hub to use the data sent by the spoke, its performance SLA must be configured to measure the same metrics. If the hub is looking for jitter or packet loss, it will not use the latency data sent by the spoke.

When a spoke sends embedded health data, the hub FortiGate must be configured to receive and use it. This is done by setting set embedded-measure accept within the performance SLA configuration on the hub. This setting explicitly tells the hub to trust and use the performance metrics received from the remote FortiGate (the spoke). Without this setting, the hub will likely ignore the embedded health data and rely on its own health checks, which could lead to incorrect traffic prioritization.

NEW QUESTION # 38

You used the HUB IPsec_Recommended and the BRANCH IPsec_Recommended templates to define the overlay topology. Then, you used the SD-WAN template to define the SD- WAN members, rules, and performance SLAs.

You applied the changes to the devices and want to use the FortiManager monitors menu to get a graphical view that shows the status of each SD-WAN member.

Which statement best explains how to obtain this graphical view?

- A. Use the SD-WAN monitor template view to get a map view of the branches, hub, and tunnel status, including the SLA pass or missed status.
- B. Use the SD-WAN monitor table view to get a donut view and a table view that shows the status of each SD-WAN member, including the SLA pass or missed status.
- C. Use the VPN monitor map view to get a map view of the branches, hub, and tunnel status, including the SLA pass or missed status.
- D. Use the SD-WAN monitor asset view to get a donut view and a table view that shows the status of each device and the SLA status of each SD-WAN member.

Answer: B

Explanation:

The SD-WAN monitor's table view in FortiManager provides a donut visualization plus a detailed table that shows each SD-WAN member's status and SLA pass/miss, giving the per-member health view you're after.

NEW QUESTION # 39

.....

Do you want to find a job that really fulfills your ambitions? That's because you haven't found an opportunity to improve your ability to lay a solid foundation for a good career. Our FCSS_SDW_AR-7.4 quiz torrent can help you get out of trouble regain confidence and embrace a better life. Our FCSS_SDW_AR-7.4 Exam Question can help you learn effectively and ultimately obtain the authority certification of Fortinet, which will fully prove your ability and let you stand out in the labor market. We have the confidence and ability to make you finally have rich rewards.

Minimum FCSS_SDW_AR-7.4 Pass Score: https://www.examslabs.com/Fortinet/Fortinet-Certified-Solution-Specialist/best-FCSS_SDW_AR-7.4-exam-dumps.html

Our FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) practice exam software helps to prepare applicants to practice time management, problem-solving, and all other tasks on the standardized exam and lets them check their scores, Fortinet FCSS_SDW_AR-7.4 Discount We aim to make sure all our brain dumps pdf are high-quality because we have more than ten years' experienced education staff and professional IT staff, Fortinet FCSS_SDW_AR-7.4 Discount With so many benefits mentioned above, do you have a flash to buy it?

A Quick Survey of Remote Desktop Technologies, I can't say the noise and the quarrel of music and the bad things at all, Our FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) practice exam software helps to prepare applicants to practice time management, problem-solving, and all other tasks on the standardized exam and lets them check their scores.

Start Your Journey to Success with ExamsLabs Fortinet FCSS_SDW_AR-7.4 Practice Material

We aim to make sure all our brain dumps pdf are high-quality because we have FCSS_SDW_AR-7.4 Brain Dump Free more than ten years' experienced education staff and professional IT staff, With so many benefits mentioned above, do you have a flash to buy it?

The point of every question is set separately, Facing so many difficulties FCSS_SDW_AR-7.4 Brain Dump Free in the reparation, there is nothing more important than finding the best-quality FCSS - SD-WAN 7.4 Architect exam practice dumps for your exam preparation.
