## Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q71-Q76):

### NEW QUESTION # 71

Team A is writing a Story enabling book shoppers to access their shopping cart from any page on the website. Which of the following examples represents the recommended user voice format for the Story?

- A. As a book shopper, I want access to my shopping cart from any page, so that I can review what I am purchasing
- B. I want to view my shopping cart so I can review what I am purchasing
- C. As a book shopper, I want to access my shopping cart from any page
- D. I am a book shopper that wants to access my shopping cart anywhere on the website

**Answer: A**

Explanation:

The recommended user voice format for writing a Story is to use the following template: As a <user role>, I want <goal or desire>.

so that <benefit or value>. This format helps to capture the user's perspective, the user's need, and the user's outcome in a clear and concise way. The user voice format also helps to create a testable and valuable Story that can be prioritized and estimated by the Agile team. Therefore, the best example of the user voice format for the Story enabling book shoppers to access their shopping cart from any page on the website is: As a book shopper, I want access to my shopping cart from any page, so that I can review what I am purchasing. This example specifies the user role (book shopper), the goal or desire (access to shopping cart from any page), and the benefit or value (review what I am purchasing). #### NEW QUESTION # 72

Which of the below are not part of the CALMR approach to DevOps?

- A. Lean Flow
- B. Automation
- C. Release On Demand
- D. Culture

**Answer: C**

#### NEW QUESTION # 73

Which of the following are Scrum events?

- A. Iteration Status Session
- B. Iteration Inspection
- C. Iteration Planning
- D. Iteration Review

**Answer: C,D**

#### NEW QUESTION # 74

Team B has elected to stop holding retrospective events so they can spend more time completing Stories. Which of the following Agile Team responsibilities is Team B over-prioritizing?

- A. Deliver value
- B. Plan the work
- C. Connect with the customer
- D. Applying systems thinking

**Answer: A**

Explanation:

= Deliver value is one of the six Agile Team responsibilities in SAFe, along with aligning to a common mission, applying systems thinking, building incrementally with fast feedback, collaborating and making decisions together, and improving relentlessly. While delivering value is essential for Agile Teams, it should not come at the expense of other responsibilities, especially improving relentlessly. By skipping the retrospective events, Team B is missing an opportunity to reflect on their practices, identify what is working well and what is not, and plan actions to improve their performance and quality. Retrospectives are a key mechanism for implementing the SAFe Core Value of Relentless Improvement and the SAFe Principle #12 - Assume variability; preserve options. #### NEW QUESTION # 75

What is the role of the Product Owner?

- A. To represent the Customer to the Agile Team
- B. To ensure quality by testing the Solution
- C. Estimate the Stories in the Product Backlog
- D. To prioritize the Program Backlog

**Answer: D**

Explanation:

The Product Owner (PO) is the Agile team member primarily responsible for maximizing the value delivered by the team by ensuring that the team backlog is aligned with customer and stakeholder needs<sup>1</sup>. As a member of the extended Product Management function, the PO is the team's primary customer advocate and primary link to business and technology strategy<sup>1</sup>. The PO is also responsible for maintaining and prioritizing the Program Backlog, which is the single source of truth for the upcoming features of the system<sup>2</sup>. The PO works with the Product Manager, who owns the Vision and the Roadmap, to define and sequence the features in the Program Backlog<sup>2</sup>. The PO also collaborates with other POs in the Agile Release Train (ART) to manage dependencies and ensure alignment across teams<sup>1</sup>.
