GInI Certified Innovation Professional (CInP) Sample Questions (Q21-Q26):

NEW QUESTION # 21

The three phases of Innovation Projects is a concept used to categorize _____ within specific phases of an innovation project. Select one correct answer from the list

- A. the level of risk incurred
- B. the types of insight needed
- C. the amount of cost incurred
- **D. the types of work to be done**

Answer: D

NEW QUESTION # 22

With experience, Project Leaders learn to structure the work of their projects to ensure the necessary actions are taken to follow a good innovation process.

Select one correct answer from the list:

- A. recruit very capable people
- B. manage each detail of the work their team does
- C. cast a compelling vision
- **D. structure the work of their projects**

Answer: D

Explanation:

GInI's CInP Handbook stresses that effective Project Leaders develop the skill to "structure the work of their projects" to ensure a disciplined, repeatable innovation process. This involves defining phases, setting milestones, and aligning team efforts with methodologies like the GInI Innovation Management System (InMS). Option A, "manage each detail," suggests micromanagement, which GInI discourages in favor of strategic oversight. Option B, "cast a compelling vision," is inspirational but not the operational focus here.

Option D, "recruit very capable people," is a prerequisite but doesn't address the act of structuring work. The question's emphasis on experience leading to process adherence points directly to C, which matches GInI's description of a Project Leader's evolution. The original answer (C) is correct and substantiated by GInI's framework.

NEW QUESTION # 23

Innovation Management is largely about two activities, namely driving engagement for bottom-up participatory innovation, and then collecting, evaluating, and selecting the ideas and opportunities that result from this.

Select one correct answer from the list:

- A. Mandatory participation / new suggestions
- B. Fun activities / fun ideas
- **C. Engagement / ideas and opportunities**
- D. The business innovation program / improvement ideas

Answer: C

Explanation:

GInI's CInP Handbook frames Innovation Management as a dual process: "driving engagement" to foster "bottom-up participatory innovation" (e.g., via mechanisms like Innovation Tournaments) and "collecting, evaluating, and selecting the ideas and opportunities" that emerge. This reflects GInI's Innovation Management System (InMS), where broad participation generates a pipeline of concepts, filtered for viability.

"Fun activities / fun ideas" (B) trivializes the process. "The business innovation program / improvement ideas" (C) is vague and narrow (improvements vs. opportunities). "Mandatory participation / new suggestions" (D) misaligns—GInI favors voluntary engagement. Option A aligns with GInI's exact terminology, matching the original answer, showcasing a systematic, inclusive

approach to harnessing creativity-a strategic GInI pillar for organizational innovation.

NEW QUESTION # 24

Subject Matter Expert Platforms are a lighter approach to Open Innovation where engagements are curated with SMEs, thus allowing a business to gain access to a wide variety of insights and learn critical information about a particular industry, market, technology, or business process.

Select one correct answer from the list:

- **A. Subject Matter Expert Platforms**
- B. Open Innovation Brokerage Platforms
- C. Cross-Industry Lateral Innovation Panels
- D. Crowdsourcing Platforms

Answer: A

Explanation:

In the context of Open Innovation, GInI's Certified Innovation Professional (CInP) Handbook describes

"Subject Matter Expert Platforms" as a streamlined method for businesses to tap into specialized knowledge from subject matter experts (SMEs). These platforms facilitate curated engagements that provide deep insights into specific areas like industry trends, markets, technologies, or processes, without the broader scope of full-scale crowdsourcing or cross-industry collaboration. The question's phrasing-"a lighter approach" and "curated with SMEs"-directly aligns with this definition. Option B, "Crowdsourcing Platforms," involves a wider, less targeted pool of contributors, which is less "light" and curated. Option C, "Open Innovation Brokerage Platforms," implies intermediaries facilitating broader innovation deals, not necessarily SME-focused. Option D, "Cross-Industry Lateral Innovation Panels," involves peer-to-peer collaboration across industries, not SME engagements. GInI's emphasis on SME-driven insights for targeted learning makes A the correct choice. The original answer (A) was correct and is affirmed here with GInI backing.

NEW QUESTION # 25

A business' Innovation Strategy will - in Stage 1 of the GInI InMS - guide the business' investment priorities for its Innovation Portfolio, thus largely determining the portfolio's what?

Select one correct answer from the list

- **A. Scope, depth and Impact.**
- B. Size, shape, and speed.
- C. Boundaries.
- D. Goals.

Answer: A
