

500-710 Updated Test Cram & Latest 500-710 Cram Materials

BONUS!!! Download part of Easy4Engine 500-710 dumps for free: https://drive.google.com/open?id=1ysIw7qSHh5t9m3mx_92NWA6-5VYBbL8D

Our 500-710 practice materials are suitable to exam candidates of different levels. And after using our 500-710 learning prep, they all have marked change in personal capacity to deal with the 500-710 exam intellectually. The world is full of chicanery, but we are honest and professional in this area over ten years. Even if you are newbie, it does not matter as well. To pass the exam in limited time, you will find it as a piece of cake with the help of our 500-710 study engine!

Cisco 500-710 Certification Exam is an important credential for IT professionals who want to demonstrate their knowledge and expertise in implementing video infrastructure solutions. Cisco Video Infrastructure Implementation certification exam covers a broad range of topics, including video endpoints, gatekeepers, multipoint control units, conferencing solutions, and collaboration applications. By passing the Cisco 500-710 exam, candidates can prove their ability to design, deploy, and support video infrastructure solutions that meet the needs of their organizations.

To pass the exam, candidates need to demonstrate a thorough understanding of Cisco video infrastructure technologies, protocols and standards. They must also be able to troubleshoot common issues related to the deployment and management of Cisco video solutions. Candidates who pass the exam will receive the Cisco Video Infrastructure Implementation certification, which is recognized as a mark of expertise in the field of video conferencing and collaboration.

Enhance your Exam Preparation by using Real 500-710 Questions

If you are craving for getting promotion in your company, you must master some special skills which no one can surpass you. To suit your demands, our company has launched the Cisco 500-710 exam materials especially for office workers. For on one hand, they are busy with their work, they have to get the Cisco 500-710 Certification by the little spread time.

Cisco 500-710 Exam is designed for professionals who are responsible for implementing and configuring Cisco Video Infrastructure. Cisco Video Infrastructure Implementation certification exam is a part of the Cisco Video Infrastructure Implementation certification and is intended for individuals who want to demonstrate their expertise in designing, deploying, and maintaining Cisco video infrastructure solutions.

Cisco Video Infrastructure Implementation Sample Questions (Q23-Q28):

NEW QUESTION # 23

Which group of items must be configured when adding a Cisco Meeting Server to TMS before the server can be used in scheduled conferences?

- A. MACaddress, numeric ID base, numeric ID quantity
- B. domain, numeric ID base, conference ID range
- C. domain, numeric ID base, numeric ID quantity
- D. DNS address, numeric ID base, numeric ID quantity

Answer: C

NEW QUESTION # 24

Which two ports are used for SIP communications between an endpoint and the SIP server? (Choose two.)

- A. 1721 (TLS)
- B. 5060 (TCP)
- C. 1720 (TCP)
- D. 1719 (TCP)
- E. 5061 (TLS)

Answer: B,E

NEW QUESTION # 25

Which two statements about subzones are true? (Choose two.)

- A. Subzones are used for bandwidth and authentication control of a logical grouping of endpoints within the registration list of the Expressway
- B. Endpoints are assigned to a particular subzone by their alias or IP subnet.
- C. Endpoints require the use of other endpoints for authentication
- D. Subzones require the use of endpoint authentication
- E. Subzones are used for routing calls to peers in other parts of the network.

Answer: A,B

NEW QUESTION # 26

Which statement about Call Service Connect on a Cisco Spark Hybrid deployment is true?

- A. Call Service Connect allows integration between Cisco Spark and Cisco Unified Communications Manager.
- B. Call Service Aware does not need to be deployed to use Call Service Connect.
- C. Mutual TLS can be used to deploy Call Service Connect, but it is not required.
- D. Call Service Connect does not require media traversal capabilities or licenses to be installed.

Answer: A

NEW QUESTION # 27

For Business to Business calls, which option must be configured on an Expressway Edge to route calls to an unknown domain?

- A. neighbor zone to the other business
- B. SIP trunk to a public DNS server
- C. traversal zone to a public DNS address
- **D. DNS zone and a public DNS address**

Answer: D

Explanation:

= For Business to Business (B2B) calls, the Expressway Edge must be able to route calls to domains that are not registered or known in advance. This can be achieved by configuring a DNS zone on the Expressway Edge, which allows it to perform DNS lookups for the destination domain and find the appropriate SIP server to route the call. A public DNS address must be specified for the DNS zone, which can be either a static IP address or a hostname that resolves to a public DNS server. The DNS zone must also be linked to a search rule that matches the destination domain pattern and assigns a priority and weight for the zone.¹²³
