### Microsoft Dynamics 365 Field Service Functional Consultant Sample Questions (Q145-Q150):

#### NEW QUESTION # 145

You are setting your environment to use Resource Scheduling Optimization (RSO). You have enabled Optimize Schedule for all Bookable Resources.

You need to complete the remaining steps to prepare your work order data for optimization.

Which three actions should you perform, in sequence, to achieve the goal? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

Explanation:

#### NEW QUESTION # 146

You restore Resource Schedule Optimization. You need to optimize individual resource schedules.

What should you do?

- A. From the schedule board, click Actions and select Optimize Schedule.
- B. From the schedule board, right-click a Resource record and select Optimize Schedule.
- C. In Field Service Administration, locate a Resource record and select Optimize Schedule.
- D. In Resource Schedule Optimization, locate a User record and select Optimize Schedule.

**Answer: A**

#### NEW QUESTION # 147

Drag and Drop Question

A new member of your company's scheduling department is learning which scheduling function to use in Dynamics 365 for Field Service, based on different scenarios.

You need to provide a scheduling matrix to the new team member.

Which scheduling function should be used with each scenario? To answer, drag the appropriate function to the appropriate scenario. Each function may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view the content.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### NEW QUESTION # 148

You need to set up the system to meet LitWare's inspection requirements.

Which three actions should you perform in sequence in the Field Service app? To answer, move the three appropriate actions from the list of actions to the answer area. Arrange the three actions in the order.

**Answer:**

Explanation:

Explanation:

To set up the system to meet LitWare's inspection requirements in the Field Service app, you should perform these three actions in sequence:

\* Access the Inspection tab within Field Service app settings.

\* Enable Analytics.

\* Set Analytics Frequency to "Daily".

These steps will allow you to configure the inspection settings, enable analytics for inspections, and set the frequency of analytics to daily for regular updates. This will help LitWare Inc. to meet their inspection requirements effectively.

### NEW QUESTION # 149

You are implementing Dynamics 365 Field Service for Contoso Manufacturing.

You need to set preventive maintenance schedules for multiple sub-components that have a different maintenance routine than the top-level or parent asset. The goal is to increase asset useful life and provide increased customer satisfaction.

Which two actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Create an Agreement for each asset sub-component to ensure the proper preventive maintenance schedule is set.
- B. Create Asset Categories for each preventive maintenance schedule, and assign to the appropriate sub-component.
- C. Associate Agreement Booking Incidents to separate booking setups for each of the sub-component assets based on their required maintenance schedule.
- **D. Create Asset Properties, and associate the appropriate new Asset Property schedule to each sub-component.**

**Answer: D**
