## ED-Con-101試験の準備方法 | 効果的なED-Con-101技術問題試験 | 真実的なSalesforce Certified Education Cloud Consultant日本語pdf問題

仕事に取り掛かって顧客とやり取りする前に厳密に訓練された責任ある忍耐強いスタッフ。ED-Con-101試験の準備の質を実践し、経験すると、それらの保守性と有用性を思い出すでしょう。ED-Con-101練習教材が試験受験者の98%以上が夢の証明書を取得するのに役立った理由を説明しています。あなたもそれを手に入れることができると信じてください。

## Salesforce Certified Education Cloud Consultant認定 ED-Con-101 試験問題 (Q154-Q159):

### 質問 # 154

Alumni Relations is using Salesforce with the Education Data Architecture (EDA). The department is holding an event that features a faculty member as the guest speaker. The events manager wants a report of all alumni who took a course from that faculty member. How should the consultant create this report?

- A. Use the Course Connections with Contact's Academic Program Report Type.
- B. **Create a custom Report Type with Courses, Course Offerings, and Course Connections.**
- C. Add a Course Connections cross filter to the Program Enrollments with Contact report.

正解: B

#### 解説:

The consultant should create a custom Report Type with Courses, Course Offerings, and Course Connections to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. A custom Report Type is a type of report that shows information about one or more objects and their fields, filters, and relationships. A custom Report Type with Courses, Course Offerings, and Course Connections can help the Alumni Relations office create a report of all alumni who took a course from that faculty member by showing the relationship between the Contact object and the Course object through the Course Offering object and the Course Connection object. The consultant can add fields and filters to the custom Report Type to show only the alumni who took a course from that faculty member. Using the Course Connections with Contact's Academic Program Report Type, adding a Course Connections cross filter to the Program Enrollments with Contact report, or creating a custom Report Type with Contacts, Accounts, and Affiliations are not ways to create a report of all alumni who took a course from that faculty member for the Alumni Relations office that is using Salesforce with EDA. #### 質問 # 155

An elementary school district has evaluated Nonprofit Success Pack and now wants to evaluate the K-12 Architecture Kit. Which action should the consultant take?

- A. Start a new K-12 Architecture Kit trial.
- B. Make K-12 Architecture Kit record types available to profiles.
- C. **Install the K-12 Architecture Kit from GitHub.**
- D. Install the K-12 Architecture Kit from the AppExchange.

正解: C

#### 解説:

The consultant should install the K-12 Architecture Kit from GitHub to evaluate it for the school district. GitHub is a platform that hosts code repositories and allows users to collaborate on software development projects. The K-12 Architecture Kit is a solution that extends EDA to meet the needs of K-12 schools. The K-12 Architecture Kit provides objects and features to track student information, such as grades, attendance, and program enrollments. The K-12 Architecture Kit is not available on the AppExchange, but rather on GitHub as an open source project that users can install and customize. Installing the K-12 Architecture Kit from the AppExchange, starting a new K-12 Architecture Kit trial, or making K-12 Architecture Kit record types available to profiles are not actions that the consultant can take to evaluate it for the school district. #### 質問 # 156

A school for continuing education needs to track program costs within its budget and related revenue streams each program brings to the school.

Which Salesforce solution should the consultant consider?

- A. Accounting Subledger
- B. Grants Management
- C. **Program Management Module**

正解: C

#### 解説:

The consultant should consider Program Management Module as a Salesforce solution to track program costs within its budget and related revenue streams each program brings to the school for the school for continuing education. Program Management Module is a product that allows users to manage programs, services, or interventions for their constituents. Program Management Module can help the school for continuing education track program costs within its budget and related revenue streams each program brings to the school by using features such as Programs, Services, Service Deliveries, or Service Reports. The consultant can also leverage other tools such as reports, dashboards, or formulas to track and analyze program costs and revenue streams. Accounting Subledger, Grants Management, or Marketing Cloud are not Salesforce solutions that can track program costs within its budget and related revenue streams each program brings to the school for the school for continuing education. ### 質問 # 157

A primary school has switched to remote learning and wants to track student well-being, technology needs, and various family situations needing attention.

Which Education Cloud solution meets this requirement?

- A. K-12 Architecture Kit
- **B. Student Success Hub**
- C. Admissions Connect
- D. Pathways

正解: **B**

解説:

Student Success Hub is a solution that enables schools to provide holistic support for students and families, especially in remote learning scenarios. It allows schools to create and track interventions, referrals, and services for students based on their needs and goals. It also provides dashboards and reports to monitor student progress and outcomes. Student Success Hub is built on top of the Education Data Architecture (EDA) and leverages the Program Management Module (PMM) and the Case Management Module (CMM) to deliver a comprehensive student support system. Student Success Hub Trailhead Module

### 質問 # 158

The International Student Services department manages the needs of international and study-abroad students in Salesforce using the Education Data Architecture. The residence hall address information must be associated to the international student Contact and Account record.

What account model should the consultant select?

- A. Standard Account
- B. Administrative Account
- **C. Person Account**
- D. Household Account

正解: **C**

解説:

Person Account is an account model that the consultant should select to meet the requirement of associating the residence hall address information to the international student Contact and Account record. Person Account is a feature that allows users to store information about individual people who are not associated with an Account, such as students or applicants. Person Account also allows users to store multiple addresses for a Contact or an Account using Address Management. The consultant should enable Person Accounts and use them to store information about international students and their residence hall addresses. Standard Account, Household Account, and Administrative Account are not account models that can meet the requirement of associating the residence hall address information to the international student Contact and Account record.
