Test MTCNA Lab Questions & MTCNA Question Explanations

d. RouterA(config-if)#clock rate 64000

25. Which one of the following is true regarding VLANs?
a. Two VLANs are configured by default on all Cisco switches.
b. VLANs only work if you have a complete Cisco switched internetwork. No off-brand switches are allowed.
c. You should not have more than 10 switches in the same VTP domain.
d. VTP is used to send VLAN information to switches in a configured VTP domain.

26. What does a VLAN do?
a. Acts as the fastest port to all servers.
b. Provides multiple collision domains on one switch port.
c. Breaks up broadcast domains in a layer 2 switch internetwork.
d. Provides multiple broadcast domains within a single collision domain.

27. What is the main reason the OSI model was created?
a. To create a layered model larger than the DoD model.
b. So application developers can change only one layer's protocols at a time.
c. So different networks could communicate.
d. So Cisco could use the model.

28. How many collision domains are created when you segment a network with a 12-port switch?
a. 1
b. 2
c. 5
d. 12

29. What command will display the line, protocol, DLCI, and LMI information of an interface?
a. sh pvc
b. show interface
c. show frame-relay pvc
d. show run

30. Which protocol does Ping use?
a. TCP
b. ARP
c. ICMP
d. BootP

31. Which command is used to upgrade an IOS on a Cisco router?
a. copy tftp run
b. copy tftp start
c. config net
d. copy tftp flash

32. If you wanted to delete the configuration stored in NVRAM, what would you type?
a. erase startup

MikroTik MTCNA practice exam support team cooperates with users to tie up any issues with the correct equipment. If MikroTik Certified Network Associate Exam material changes, CertsFire also issues updates free of charge for three months following the purchase of our MikroTik MTCNA Exam Questions.

The MTCNA exam covers a wide range of topics, including network architecture, routing, wireless networks, firewall and security, and network management. Participants who pass the exam will have demonstrated their ability to configure MikroTik routers, manage network traffic, and troubleshoot network issues. The MTCNA certification is an entry-level certification that is ideal for individuals who are just starting their careers in networking or those who are looking to expand their knowledge and skills in MikroTik RouterOS software. MikroTik Certified Network Associate Exam certification is recognized globally and can lead to better job opportunities and higher salaries in the networking industry.

With the growing demand for network professionals with expertise in MikroTik networking devices, the MikroTik MTCNA Certification is an excellent opportunity for individuals to advance their career in the networking industry. MikroTik Certified Network Associate Exam certification not only provides candidates with the skills and knowledge required to work with MikroTik devices, but it also validates their expertise, making them more attractive to potential employers. Overall, the MikroTik MTCNA Exam is an excellent investment for network professionals looking to advance their career in the networking industry.

MTCNA Question Explanations & MTCNA Latest Exam Cost

As is known to all, practice makes perfect. This proverb also can be replied into the exam. We have the MTCNA Study Materials with good reputation in the market. The MTCNA exam dumps not only contains the quality, but also have the quantity, therefore it will meet your needs. Just think that you just need to practice it for some time, a certificate will be obtained by your own efforts, it will be a quite delightful thing. So act now, you will be very happy to see it come true.

MikroTik Certified Network Associate Exam Sample Questions (Q108-Q113):

NEW QUESTION # 108
Where can you monitor (see addresses and ports) real-time connections which are processed by the router?

- A. Firewall Connection Tracking
- B. Tool Torch
- C. Queue Tree
- D. Firewall Counters

Answer: A

Explanation:
Firewall Connection Tracking (also known as conntrack) is used to monitor real-time connections that pass through the router. It shows source and destination IPs, ports, protocols, connection states (established, new, related), and more.
Let's evaluate the options:
* A.#Correct - Shows live connection table with IPs, ports, and statuses
* B.#Shows rule match counters only - no detailed connection info
* C.#Torch shows per-interface traffic; useful for bandwidth, but not a connection list
* D.#Queue Tree is used for traffic shaping, not for viewing connections MTCNA Course Manual - Firewall Concepts:
"Connection tracking shows all active sessions through the router with IP and port details." Rene Meneses Guide - Firewall Tools:
"Use connection tracking to diagnose connection states and NAT behavior." Terry Combs Notes - Monitoring Tools:
"conntrack is your real-time connection monitor. Torch is per-interface, not per-flow."

NEW QUESTION # 109
In a network with dozens of switches, how many root bridges would you have?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

NEW QUESTION # 110
Netinstall can be used to

- A. Install different software version (upgrade or downgrade)
- B. Keep configuration, but reset a lost admin password
- C. Install package for different hardware architecture
- D. Reinstall software without losing licence

Answer: A,B,D

NEW QUESTION # 111
What layer in the TCP/IP stack is equivalent to the Transport layer of the OSI model?

- A. Host-to-Host
- B. Internet

- C. Application
- D. Network Access

Answer: A

Explanation:
In the TCP/IP model (also known as the DoD model), the Host-to-Host layer is responsible for reliable end-to- end communication, which aligns directly with the Transport Layer (Layer 4) of the OSI model. This layer is where TCP and UDP protocols reside.
MTCNA Course Material - Protocol Layers Mapping:
"The Host-to-Host layer in TCP/IP model corresponds to the Transport layer in OSI. It handles reliable delivery through TCP and connectionless communication via UDP." Rene Meneses MTCNA Study Guide - TCP/IP vs OSI:
"Host-to-Host layer = OSI Layer 4. Protocols: TCP, UDP."
Other layers:
* Application # OSI Layers 5-7
* Internet # OSI Layer 3
* Network Access # OSI Layers 1-2

NEW QUESTION # 112
What is term for the hardware coded address found on an interface?

- A. IP Address
- B. MAC Address
- C. FQDN Address
- D. Interface Address

Answer: B

NEW QUESTION # 113
......

The MikroTik - MikroTik Certified Network Associate Exam MTCNA PDF file we have introduced is ideal for quick exam preparation. If you are working in a company, studying, or busy with your daily activities, our MikroTik MTCNA dumps PDF format is the best option for you. Since this format works on laptops, tablets, and smartphones, you can open it and read MikroTik MTCNA Questions without place and time restrictions.
