Salesforce Certified Slack Consultant Sample Questions (Q194-Q199):

NEW QUESTION # 194

A large organization is planning to migrate to Slack. What is the most effective approach for scheduling pre-migration activities to ensure minimal disruption to the business operations?

- A. Plan pre-migration activities in phases, starting with departments that have flexible schedules
- B. Conduct pre-migration activities during business hours to ensure maximum employee involvement
- C. Postpone pre-migration activities until all employees are trained on Slack basics
- D. Schedule all pre-migration activities to occur during a single weekend to minimize impact on daily operations

Answer: A

Explanation:

Phasing pre-migration activities allows for a more manageable and tailored approach, especially in a large organization. Starting with departments that have more flexible schedules minimizes disruption and allows for learning and adjustments before proceeding with more critical departments.

NEW QUESTION # 195

A financial institution using Slack needs to comply with strict data privacy regulations. How should they configure their app approval settings to align with these requirements?

- A. Require a thorough security and compliance review for each app before approval
- B. Enable automatic approval for apps that have encryption capabilities
- C. Only allow apps that have been internally developed
- D. Approve all apps that are related to financial services

Answer: A

Explanation:

A thorough security and compliance review for each app ensures that the app meets the strict data privacy regulations necessary for a financial institution, providing a balance between functionality and compliance.

NEW QUESTION # 196

During a Slack migration project, who is primarily responsible for customizing Slack workflows to align with the client's specific business processes?

- A. The Partner's consulting team, in collaboration with the client's business analysts, to ensure that the workflows align with the client's needs
- B. Slack's technical support team should handle all customizations to ensure they are done correctly
- C. The client's IT department should independently handle all customization work
- D. Outsource to a third-party vendor specializing in workflow customization

Answer: A

Explanation:

The Partner's consulting team, with their expertise in Slack, should lead the customization of Slack workflows. Collaborating with the client's business analysts ensures that the customizations align with the client's specific business processes and requirements.

NEW QUESTION # 197

Which of the following is a key benefit of using the Slack app in Salesforce?

- A. Allows for faster product development
- B. Decreases data storage
- C. Reduces team collaboration
- D. Provides a unified platform for collaboration and customer management

Answer: D

Explanation:

The Slack app in Salesforce enables teams to seamlessly collaborate and manage customer interactions, providing a more efficient and unified approach to customer management.

NEW QUESTION # 198

In a company using Slack, there is a need for a role that can manage workspace settings, oversee channel creation, and handle user permissions but should not have access to billing information. Which Slack administrative role is best suited for this task?

- A. Workspace Admin
- B. Workspace Owner
- C. Org Owner
- D. User Group Admin

Answer: A

Explanation:

Workspace Admins have the capabilities to manage workspace settings, oversee channel creation, and handle user permissions, but they do not have access to billing information, making this role ideal for the described need.
