The H12-891_V1.0 training materials provide you with free demo, and you can have a try in our website. If you are satisfied with the free demo, you just need to add them to your shopping cart, and pay for it, please check the email address carefully, due to we will send the H12-891_V1.0 Exam Dumps to you by email. Besides, we support online payment with credit card, and the payment tools will change the currency of your country, and there is no necessary for you to exchange by yourself.

Candidates who pass the Huawei H12-891_V1.0: HCIE-Datacom V1.0 exam will be certified as HCIE-Datacom professionals. HCIE-Datacom V1.0 certification is globally recognized and is highly valued in the field of data communication. It is a testament to the skills and knowledge of candidates in designing, implementing, and managing complex data communication networks.

H12-891_V1.0 Valid Test Papers & Online H12-891_V1.0 Training

Preparing for the exam may be not an easy thing for some candidates, if you choose us, we will do the things for you, what you need to do is practicing. We offer you free demo for H12-891_V1.0 training materials, you can have a try before buying. And you will receive the downloading link and password within ten minutes after purchasing the H12-891_V1.0 Exam Dumps. In addition, we

have after-service stuff to resolve the confusions you have. If you fail to pass the exam, we are money back guaranteed, or if you have other exam to attend, we can also replace other 2 valid exam dumps for you.

The Huawei H12-891_V1.0 Exam covers a wide range of topics, including network design principles, network virtualization, data center network design, network security, network management, and network troubleshooting. H12-891_V1.0 exam consists of both theoretical and practical components, which test the candidate's ability to apply their knowledge and skills to real-world scenarios.

Huawei H12-891_V1.0 (HCIE-Datacom V1.0) exam is a comprehensive certification program that is recognized globally. HCIE-Datacom V1.0 certification demonstrates that a candidate has the knowledge, skills, and expertise required to design, implement, maintain, and troubleshoot complex data communication networks. HCIE-Datacom V1.0 certification program is ideal for network engineers, network administrators, and IT professionals who want to enhance their career prospects and advance their skills in the field of data communication.

Huawei HCIE-Datacom V1.0 Sample Questions (Q215-Q220):

NEW QUESTION # 215

An engineer needs to download the configuration file `vrpcfg.cfg` to a local device through SFTP, rename the configuration file to `backup.cfg`, and upload it to the default directory of the device.

The configuration file is located at `/vrpcfg.cfg` (default directory of the remote device), and the local directory is `C:\`.

Which of the following Python Paramiko code lines can implement the required operations?

- A. `sftp.get('/vrpcfg.cfg', r'C:\backup.cfg')`
`sftp.put(r'C:\backup.cfg', '/')`
- B. `sftp.get('/vrpcfg.cfg', r'C:\vrpcfg.cfg')`
`sftp.put('/backup.cfg', r'C:\vrpcfg.cfg')`
- C. `sftp.get('/vrpcfg.cfg', r'C:\')`
`sftp.put(r'C:\backup.cfg', '/')`
- D. `sftp.get('/vrpcfg.cfg', r'C:\backup.cfg')`
`sftp.put(r'C:\backup.cfg', '/backup.cfg')`

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

The correct sequence of operations:

* Download the file from remote device (`/vrpcfg.cfg`) # Store as `C:\backup.cfg`.

* Upload the renamed file (`backup.cfg`) back to the remote device.

Breaking Down the Correct Option (B) # `sftp.get('/vrpcfg.cfg', r'C:\backup.cfg')` # Downloads `vrpcfg`.

`cfg` from the remote device and renames it `backup.cfg` in `C:\`. # `sftp.put(r'C:\backup.cfg', '/')` # Uploads `backup.cfg` back to the remote device.

NEW QUESTION # 216

What is the wrong description of the function of OSPFv3 protocol authentication?

- A. OSPFv3 authentication relies on IPv6 packet authentication headers and encapsulation security net load headers
- B. OSPFv3 can only establish a security alliance SA using manual mode
- C. The OSPFv3 protocol header removes the Type and Automation fields
- D. Huawei router OSPFv3 IPsec authentication can not only support transmission mode, but also support tunnel mode

Answer: D

NEW QUESTION # 217

In Huawei SD-WAN Solution, which of the following tunneling technologies is used to establish data channels?

- A. WLAN
- B. GRE over IPsec
- C. IPsec

- D. MPLS

Answer: B,C

Explanation:

Understanding Huawei SD-WAN Tunneling Technologies

Huawei SD-WAN uses secure tunneling to connect branches, data centers, and cloud services.

Tunneling Technologies in SD-WAN# IPsec (Answer B) # Provides secure encrypted tunnels over public or private networks.#

GRE over IPsec (Answer D) # Encapsulates traffic inside GRE, then encrypts with IPsec, enabling support for multicast and non-IP traffic.

A. WLAN (Incorrect Choice) # WLAN is a wireless technology, not a tunneling protocol.# C. MPLS (Incorrect Choice)

MPLS is a core network transport technology but is not used to establish SD-WAN data channels directly.

Why are Answers B and D Correct?

Huawei SD-WAN primarily uses IPsec for data encryption.# GRE over IPsec is used when supporting multicast or dynamic routing protocols over tunnels.

NEW QUESTION # 218

Which of the following languages is integrated into the OPS?

- A. Java
- B. C programming language
- C. Python
- D. C++

Answer: C

Explanation:

Huawei Open Programmability System (OPS) and Scripting Support

Huawei OPS (Open Programmability System) enables network automation using script-based programming for device management and configuration.

Python is the primary language integrated into Huawei OPS.

* Python scripts can automate device configurations, monitoring, and troubleshooting.

* OPS supports Python libraries for interacting with network APIs and CLI commands.

* Used for Huawei CloudCampus, SDN, and Datacom devices.

NEW QUESTION # 219

The role of Link-LSA in OSPFv3 does not include ?

- A. Advertise the per-port ID of this router to other routers on the link
- B. Advertise to other routers on the link optional that is set in the Network LSA from which this link originates
- C. Advertise the link-local address
- D. of this interface to other routers on the link Advertise this IPv6 prefix list to other routers on the link

Answer: B
