C-TS470-2412 Valid Test Registration & C-TS470-2412 Practice Exam Pdf

For candidates who will attend the exam, some practice is necessary. C-TS470-2412 exam materials are valid and high-quality. We have a professional team to search for the first-hand information for the exam. We also have strict requirements for the questions and answers of C-TS470-2412 exam materials, we ensure you that the C-TS470-2412 Training Materials are most useful tool, which can help you pass the exam just one time. In addition, we offer you free update for one year after purchasing, we also have online service stuff, if you have any questions, just contact us.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service Sample Questions (Q54-Q59):

NEW QUESTION # 54

Which information do you maintain for each line item of an ad hoc billing plan? Note: There are 3 correct answers to this question.

- A. Billing document request ID
- B. Attachment
- C. Billing value
- D. Description
- E. Billing date

Answer: C,D,E

Explanation:

Anad hoc billing planin a service contract allows flexible billing without fixed periodicity. The correct answers areB, C, E. Let's explore.
* Billing value (B):The amount to be billed (e.g., $500) is mandatory for each line item.
* Description (C):A text field (e.g., "Q1 Service Fee") describes the billing purpose.
* Billing date (E):The date when billing occurs (e.g., 2025-03-31) drives the billing document request.
Why Not the Others?
* Attachment (A):Optional, not required.
* Billing document request ID (D):Generated by the system, not maintained manually.
Example:
Line 1: $200, "Inspection Fee," 2025-04-01.
"Ad hoc billing plan line items include billing value, description, and billing date."

NEW QUESTION # 55

What does the repair order status "Released" mean?

- A. This is the initial status of all repair orders
- B. The repair object is ready to be scheduled for repair
- C. The repair object has been sent back to the customer
- D. The repair object has been scheduled for repair

Answer: B

Explanation:

In anin-house repair process, the repair order status "Released" (e.g., REPO transaction type) has a specific meaning:D. Let's dive in.
Released Status:
"Released" (system status REL) means the repair order is approved andready to be scheduled for repair. It's a preparatory step, allowing planning (e.g., resource allocation) before execution begins.
Why Not the Others?
* A:Scheduling happens after release, not indicated by it.
* B:Initial status is "Created" (CRTD), not "Released."
* C:Return to customer is a later status (e.g., "Completed").
Flow:
Created # Released (ready to schedule) # In Process # Completed.
"The 'Released' status indicates the repair object is ready to be scheduled for repair."

NEW QUESTION # 56

To which of the following can you assign production resources and tools? Note: There are 2 correct answers to this question.

- A. Maintenance order operation
- B. Service order
- C. Product bundle
- D. Task list operation

Answer: A,D

Explanation:

Production resources and tools (PRTs)in SAP S/4HANA Cloud Private Edition, Service are objects (e.g., tools, test equipment) used during maintenance or service activities. They are assigned to specific operational steps to ensure the right resources are available. The correct answers aretask list operation (B)and maintenance order operation (C). Let's explore this in depth.

Understanding PRTs:

PRTs can be materials, equipment, or documents tracked in the system. They are not consumed like spare parts but are used temporarily during a task (e.g., a wrench or a calibration device). Assigning PRTs ensures proper planning and availability during execution.

Why Task List Operation and Maintenance Order Operation?

* Task list operation (B):A task list defines standard procedures for maintenance or service (e.g.,

"Inspect pump"). Within the task list, each operation (step) can have PRTs assigned in the operation details. For example, Operation 0010 might require a "Torque Wrench" as a PRT. This assignment is done in the task list maintenance screen (e.g., IA05 or IA06). When the task list is used in a plan or order, the PRTs carry over.

* Maintenance order operation (C):A maintenance order schedules specific work on a technical object.

PRTs can be assigned directly to operations within the order (e.g., in transaction IW31/IW32). For instance, Operation 0020 in a maintenance order might list a "Lifting Crane" as a required PRT. This supports detailed execution planning.

Why Not the Other Options?

* Service order (A):PRTs are not assigned at the header level of a service order. They are linked to specific operations within the order, which aligns with maintenance order operations (C), not the order as a whole.

* Product bundle (D):A product bundle groups items for sales or service offerings but has no operational context for PRT assignment-it's a commercial construct, not a work execution object.

Additional Context:

In practice, PRTs assigned to a task list operation can automatically populate a maintenance order when the task list is referenced, streamlining the process. Availability checks for PRTs can also be configured to ensure they're ready before work begins.

"Production resources and tools (PRTs) can be assigned to task list operations and maintenanceorder operations to specify the tools or resources required for execution."

NEW QUESTION # 57

In the Event-Based Revenue Recognition - Service Documents app, which of the following can you review?

- A. Billed margin
- B. Planned margin
- C. Billed revenue
- D. Actual revenue

Answer: D

Explanation:

TheEvent-Based Revenue Recognition - Service Documentsapp tracks revenue based on events (e.g., confirmation). The correct answer isactual revenue (B).

Why Actual Revenue?

The app shows revenue posted to the general ledger as events occur (e.g., $500 from a confirmation), reflecting real-time financials.

Why Not the Others?

* A & D:Margins are in profitability apps.

* C:Billed revenue is in billing apps, not recognition.

"The Event-Based Revenue Recognition app allows review of actual revenue from service documents."

NEW QUESTION # 58

Which of the following can you assign to a service item category? Note: There are 2 correct answers to this question.

- A. Status object profile
- B. Date profile
- C. Text determination procedure
- D. Rejection profile

Answer: B,C

Explanation:

Service item categories in SAP S/4HANA Service (e.g., SRVI for service items) control the behavior of items in service documents.

Assignable objects include:

* Text determination procedure: Defines how texts (e.g., descriptions, notes) are automatically populated or managed for the item, configured in Customizing.
* Date profile: Specifies date rules and milestones (e.g., start/end dates) for the service item, critical for scheduling and execution.
* Rejection profile: Not a standard assignment; rejection is managed via status or reasoncodes, not profiles at the item category level.
* Status object profile: Status profiles are typically assigned to transaction types or item categories for lifecycle management, but not as "status object profiles" in this context. These settings are part of service transaction Customizing. "Assign text determination procedures and date profiles to service item categories to control item behavior." (SAP Help Portal, Service Item Category Configuration).

NEW QUESTION # 59

......

Our C-TS470-2412 practice torrent offers you more than 99% pass guarantee, which means that if you study our materials by heart and take our suggestion into consideration, you will absolutely get the certificate and achieve your goal. On the other hand, You can free download the demo of our C-TS470-2412 Study Guide before you buy our C-TS470-2412 exam questions.
