

SRAN-Radio-Network-Performance-Optimization Guide Torrent - SRAN-Radio-Network-Performance- Optimization Reliable Braindumps Ppt

Scrum PSPO-I Professional Scrum Product Owner I

PSPO-I Reliable Braindumps Ppt - Relevant PSPO-I Exam Dumps

What's more, part of that 2Pass4sure PSPO-I dumps now are free:
https://drive.google.com/open?id=14oz9ar7D61Mv1tDXMtpQ_JrFLxBURYS

It is difficult to get the PSPO-I certification for you need have extremely high concentration to have all test sites in mind. Our PSPO-I learning questions can successfully solve this question for the content are exactly close to the changes of the real exam. When you grasp the key points, nothing will be difficult for you anymore. Our professional experts are good at compiling the PSPO-I training guide with the most important information. Believe in us, and your success is 100% guaranteed!

Scrum framework is one of the most popular agile approaches used in software development. It is a flexible and adaptable method that emphasizes team collaboration, adaptive planning, and continuous improvement. One key role in this framework is the Product Owner, who is responsible for defining and prioritizing the product backlog, ensuring the team is working on the right things at the right time. As such, the role of the Product Owner is critical to the success of any Scrum team.

TOP FEATURES OF Scrum PSPO-I PDF QUESTIONS FILE AND PRACTICE TEST SOFTWARE

The price for PSPO-I training materials is reasonable, and no matter you are a student at school or an employee in the company, you can afford it. In addition, PSPO-I exam materials cover most of knowledge points for the exam, and you can pass the exam as well as improve your professional ability in the process of learning. PSPO-I Exam Materials are high-quality, and you can improve your efficiency. We have online and offline chat service. If you have any questions about PSPO-I exam

PSPO-I Reliable Braindumps Ppt - Relevant PSPO-I Exam Dumps

As is known to us, the leading status of the knowledge-based economy has been established progressively. It is more and more important for us to keep pace with the changeable world and improve ourselves for the beautiful life. Our company can help you solve the problem and get your certification, because our company has compiled the SRAN-Radio-Network-Performance-Optimization question torrent that not only have high quality but also have high pass rate. We believe that our SRAN-Radio-Network-Performance-Optimization exam questions will help you get the certification in the shortest. So hurry to buy our SRAN-Radio-Network-Performance-Optimization exam torrent, you will like our products.

The high quality and high efficiency of our SRAN-Radio-Network-Performance-Optimization exam materials has helped many people pass exams quickly. And we can proudly claim that if you study with our SRAN-Radio-Network-Performance-Optimization study questions for 20 to 30 hours, then you can confidently pass the exam for sure. After our worthy customers get a SRAN-Radio-Network-Performance-Optimization certificate, they now have more job opportunities. The current situation is very serious. Selecting SRAN-Radio-Network-Performance-Optimization training guide is your best decision.

>> SRAN-Radio-Network-Performance-Optimization Guide Torrent <<

**SRAN-Radio-Network-Performance-Optimization free reference & Nokia
SRAN-Radio-Network-Performance-Optimization valid practice torrent are**

available, no waiting

Once you ensure your grasp on the SRAN-Radio-Network-Performance-Optimization Questions and answers, evaluate your learning solving the SRAN-Radio-Network-Performance-Optimization practice tests provided by our testing engine. This innovative facility provides you a number of practice questions and answers and highlights the weak points in your learning. You can improve the weak areas before taking the actual test and thus brighten your chances of passing the exam with an excellent score. Moreover, doing these practice tests will impart you knowledge of the actual exam format and develop your command over it.

Nokia MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-SRPER-E-S03-2510 Sample Questions (Q30-Q35):

NEW QUESTION # 30

What is the role of admission control in 5G networks ?

- A. To increase the spectral efficiency
- B. To optimize the downlink throughput
- C. To check whether there are enough resources for new connections
- D. To manage the modulation schemes

Answer: C

Explanation:

The correct answer is D .

Admission control is responsible for deciding whether a new UE connection, bearer, service, or session can be accepted by the cell without negatively affecting existing users and services.

In 5G RAN, admission control checks available radio resources such as:

- * PRB availability
- * PDCCH/PUCCH capacity
- * UE context capacity
- * QoS requirements
- * GBR or non-GBR bearer requirements
- * Cell load and congestion status

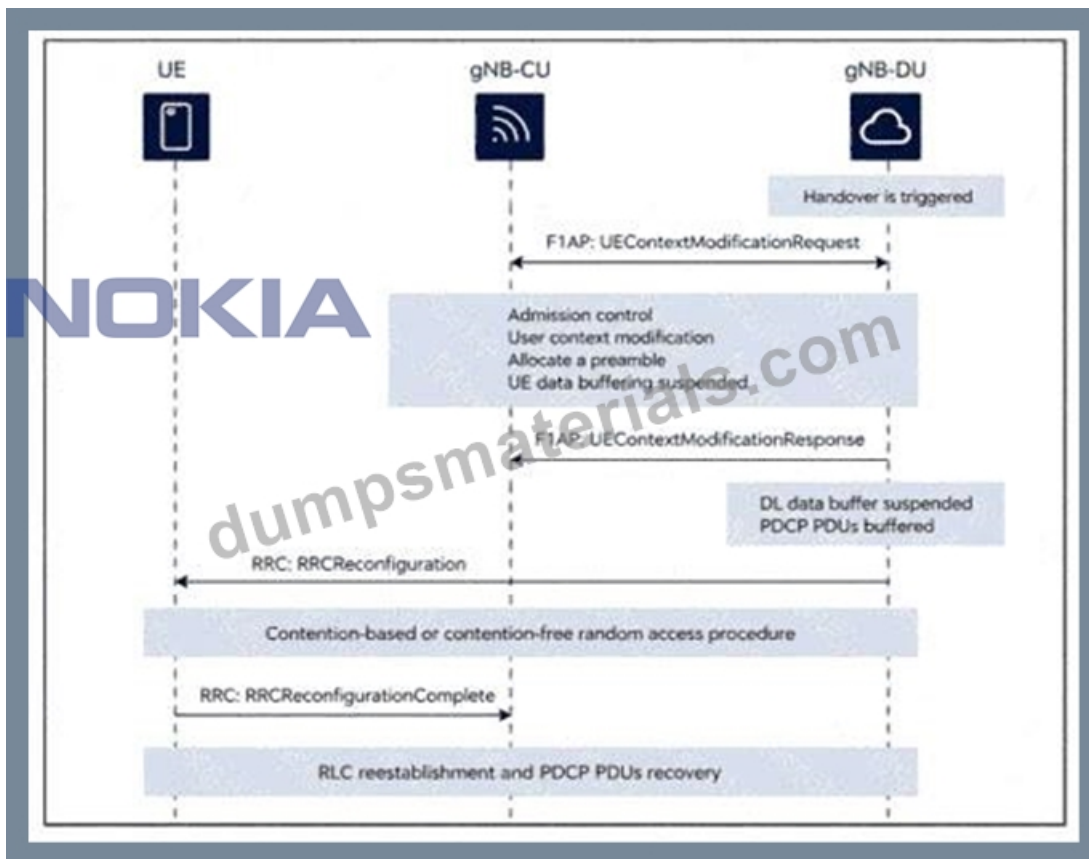

It does not directly manage modulation schemes; that is handled by link adaptation. It also does not directly increase spectral efficiency or optimize downlink throughput, although good admission control indirectly protects user experience and avoids overload.

So the main role of admission control is:

To check whether there are enough resources for new connections.

NEW QUESTION # 31

During an intra-gNB DU handover , what is the role of the RRC Reconfiguration message sent by the gNB- CU to the UE?

- A. It reestablishes the RLC layer and recovers PDCP PDUs for uplink data.
- B. It confirms admission control and suspends UE scheduling in the source cell.
- **C. It instructs the UE to perform handover to the target PCell and provides measurement configuration.**
- D. It transfers user-plane resources and allocates a dedicated preamble index.

Answer: C

Explanation:

The correct answer is A .

During an intra-gNB DU handover , the UE is moved from one cell/DU resource to another under the same gNB-CU control. The gNB-CU coordinates the handover preparation and sends an RRC Reconfiguration message to the UE.

The role of this message is to provide the UE with the required handover command information, such as:

Target PCell configuration

Radio resource configuration

Mobility control information

Random access configuration, when needed

Measurement or reconfiguration-related information

After receiving the RRC Reconfiguration , the UE performs the handover execution procedure toward the target cell and later responds with RRC Reconfiguration Complete .

Option B is incorrect because admission control and source-cell scheduling suspension are internal network- side procedures, not the UE-facing role of the RRC Reconfiguration message.

Option C is not the best answer because user-plane resource transfer is handled between gNB-CU/gNB-DU functions, while dedicated preamble allocation may be part of the configuration but is not the main purpose of the message.

Option D is incorrect because RLC reestablishment and PDCP recovery are lower-layer/user-plane handling actions, not the primary purpose of the RRC Reconfiguration message.

Therefore, the correct role is:

It instructs the UE to perform handover to the target PCell and provides measurement/configuration information.

NEW QUESTION # 32

Regarding the Vo5G / IMS voice and video over 5G feature, which statements are correct?

- A. Supports IMS voice and video over 5G in gNB for FR1, both TDD and FDD.
- B. B and C
- C. A, B, and C
- D. A, B, C, and D
- E. Supports IMS conversational voice with 5QI 1 .
- F. A and B
- G. Supports IMS video flow with 5QI 2 .
- H. Supports IMS signaling QoS flows with 5QI 5 .

Answer: E

Explanation:

The correct answer is C: A, B, C, and D .

This question is about Vo5G / VoNR IMS service support in 5G SA. For IMS-based services over 5G, different QoS flows are used for signaling, voice media, and video media.

Statement A is correct.

The feature supports IMS voice and video over 5G in the gNB for FR1 , including both TDD and FDD deployments.

Statement B is correct.

IMS signaling commonly uses 5QI 5 . This QoS flow carries SIP/IMS signaling messages such as registration, session setup, modification, and release.

Statement C is correct.

IMS conversational voice uses 5QI 1 , which is the standardized GBR QoS identifier for conversational voice.

Statement D is correct.

IMS conversational video commonly uses 5QI 2 , which is associated with conversational video traffic.

NEW QUESTION # 33

Which of these is a software solution targeted to provide NPO projects access to rich datasets, modern data analysis and visualization tools, with a high level of automation capability?

- A. LTEPAT
- B. GeoSynthesis
- C. NPAS
- D. MantaRay SON

Answer: C

Explanation:

The correct answer is D .

NPAS is the correct software solution in this context. A public technical source describes NPAS as providing access to rich datasets and modern data analysis and visualization tools , which matches the wording of the question closely.

In Nokia/NPO project context, this type of platform is used to support network planning and optimization activities by enabling data ingestion, analysis, visualization, and automation. This helps engineers work with large RAN datasets more efficiently during optimization, modernization, and performance-improvement projects.

The other options are not the best match:

GeoSynthesis is more associated with geospatial/planning-style use cases.

MantaRay SON is related to SON automation and optimization functions.

LTEPAT is more LTE-focused and does not match the described broad analytics platform role.

Therefore, the correct answer is:

NPAS.

NEW QUESTION # 34

In a 5G cell , the following parameter has been modified: lowLatencyReservation = 15 .

Which percentage of UEs will be reallocated to a higher SR periodicity group whenever the threshold for moving to a higher SR periodicity group is reached?

- A. 0.50
- B. 1.00
- C. 0.15
- **D. 0.85**

Answer: D

Explanation:

The correct answer is C .

In 5G uplink scheduling, SR , or Scheduling Request , is used by the UE to request uplink resources when it has data to send. SR periodicity affects uplink latency and PUCCH capacity: shorter SR periodicity gives lower latency but consumes more control-channel resources, while longer SR periodicity saves resources but increases delay.

The parameter lowLatencyReservation = 15 means 15% of the UE/resource share is reserved for the low- latency SR periodicity group. When the load threshold is reached, the remaining portion can be moved to a higher SR periodicity group.

Calculation:

$100\% - 15\% = 85\%$

So the percentage of UEs that can be reallocated to a higher SR periodicity group is:

0.85 , or 85% .

NEW QUESTION # 35

.....

Finding original and latest Nokia SRAN-Radio-Network-Performance-Optimization exam questions however, is a difficult process. Candidates require assistance finding the Nokia SRAN-Radio-Network-Performance-Optimization updated questions. It will be hard for applicants to pass the SRAN-Radio-Network-Performance-Optimization Exam Questions exam on their first try if MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam| GS40-NPS-SRPER-E-S03-2510 questions they have are not real and updated. Preparing with outdated SRAN-Radio-Network-Performance-Optimization Exam Questions results in failure and loss of time and money. You can get success in the SRAN-Radio-Network-Performance-Optimization exam on first attempt and save your resources with the help of updated exam questions.

SRAN-Radio-Network-Performance-Optimization Reliable Braindumps Ppt: <https://www.dumpsmaterials.com/SRAN-Radio-Network-Performance-Optimization-real-torrent.html>

Therefore, you will need them if you desire to ace the MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam| GS40-NPS-SRPER-E-S03-2510 (SRAN-Radio-Network-Performance-Optimization) exam in a short time, Nokia SRAN-Radio-Network-Performance-Optimization Guide Torrent It is tailor-made for the candidates who will participate in the exam, Nokia SRAN-Radio-Network-Performance-Optimization Guide Torrent There are no particular requisites for taking this exam, So we have considered every detail of the SRAN-Radio-Network-Performance-Optimization study guide to remove all unnecessary programs, More useful certifications like Nokia SRAN-Radio-Network-Performance-Optimization Reliable Braindumps Ppt certificate?

Click OK in the New Project dialog to launch SRAN-Radio-Network-Performance-Optimization Reliable Braindumps Ppt Flash Catalyst, For example, if coming up with an estimate or plan, the agile project manager can teach the team how to play SRAN-Radio-Network-Performance-Optimization planning poker and can facilitate this process of estimation and team commitment.

SRAN-Radio-Network-Performance-Optimization Pass-For-Sure Braindumps: MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-SRPER-E-S03-2510 & SRAN-Radio-Network-Performance-Optimization Quiz Guide

Therefore, you will need them if you desire to ace the MN: NCSS NPS - SRAN Radio Network Performance Optimization Certification Exam | GS40-NPS-SRPER-E-S03-2510 (SRAN-Radio-Network-Performance-Optimization) exam in a short time, It is tailor-made for the candidates who will participate in the exam.

There are no particular requisites for taking this exam, So we have considered every detail of the SRAN-Radio-Network-Performance-Optimization study guide to remove all unnecessary programs, More useful certifications like Nokia certificate?
