## Latest C-BCFIN-2502 Exam Practice - C-BCFIN-2502 Practice Test

Both practice exams (web-based & desktop) give a SAP C-BCFIN-2502 real exam feeling and identify your mistakes so you can overcome your weaknesses before the C-BCFIN-2502 final test. The desktop SAP C-BCFIN-2502 Practice Test software works

on Windows after software installation. You can take the web-based SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions C-BCFIN-2502 practice exam via any operating system.

## **SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q55-Q60):**

### **NEW QUESTION # 55**

What is the primary function of SAP Treasury and Risk Management?

- A. To enhance customer relationship management
- **B. To optimize cash flow and manage financial risks**
- C. To manage employee benefits
- D. To automate payroll processing

**Answer: B**

### **NEW QUESTION # 56**

Which component of Management Accounting is used to report on profitability in real-time?

- A. Overhead Cost Accounting
- **B. Margin Analysis**
- C. Product Cost Planning
- D. Actual Costing

**Answer: B**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

In SAP S/4HANA, Margin Analysis (formerly known as Account-based CO-PA) is the primary component of Management Accounting used to report on profitability in real-time. This is made possible by its deep integration with the Universal Journal. Unlike legacy "Costing-based" Profitability Analysis, which stored data in separate tables and often required complex reconciliations with the General Ledger, Margin Analysis uses the same ledger and dimensions as Financial Accounting.

Because every sales transaction—from the moment an item is shipped to when the invoice is posted—is captured in the Universal Journal with full detail (including customer, product, region, and cost of goods sold), the CFO can see real-time profitability without waiting for month-end allocations. Margin Analysis provides a "market-oriented" view of the business, allowing users to drill down into the contribution margins of specific market segments. It also supports advanced features like "predictive accounting," where the system can project future margins based on open sales orders. This provides management with the immediate insights needed to make informed decisions about pricing, product mix, and market strategy, ensuring the business can steer toward the most profitable opportunities as they arise.

### **NEW QUESTION # 57**

Which solution can you integrate with the Global Tax solutions to manage corporate income tax?

- A. SAP Global Trade Services
- B. SAP Document and Reporting Compliance
- C. SAP Watch List Screening
- **D. SAP Profitability and Performance Management**

**Answer: D**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

In the SAP Financial Management landscape, managing corporate income tax necessitates the ability to handle complex data modeling and high-volume calculations. SAP Profitability and Performance Management (PaPM) is the primary solution for this requirement. While SAP Document and Reporting Compliance is tailored for electronic invoicing and real-time statutory reporting, PaPM provides the sophisticated calculation engine required for tax provisioning, transfer pricing, and complex tax allocations. Integrating PaPM with Global Tax solutions allows finance teams to automate the consolidation of tax-relevant data from disparate

sources. This ensures that the tax department utilizes the "Single Source of Truth" provided by the SAP S/4HANA Universal Journal. By leveraging PaPM, CFOs can ensure that their corporate income tax calculations are transparent, auditable, and compliant with evolving international standards like Pillar Two. This integration streamlines the end-of-year tax accounting process, moving it from a manual, spreadsheet-heavy task to an automated, defensible workflow that provides a clear view of the effective tax rate (ETR) and its impact on the organization's overall financial health.

#### **NEW QUESTION # 58**

Which SAP modules integrate with SAP Financials for end-to-end financial management?

- A. SAP Treasury and Risk Management
- B. SAP Procurement
- C. SAP Controlling (CO)
- D. SAP CRM

**Answer: A,C**

#### **NEW QUESTION # 59**

What is the core function of the SAP Identity Access Governance solution?

- A. Identifying, analyzing and neutralizing cyberattacks.
- B. Supporting adherence to regulatory requirements.
- C. Performing risk assessments and strategic planning.
- D. Managing user authorizations and permissions.

**Answer: D**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP Identity Access Governance (IAG) is a cloud-based service that focuses specifically on the management of user authorizations and permissions across an organization's hybrid landscape. In a modern finance environment, where data privacy and security are paramount, IAG provides a centralized way to control "who can do what" within the SAP system. This is critical for maintaining internal controls and protecting sensitive financial information.

The solution automates the provisioning process and ensures that "Segregation of Duties" (SoD) is strictly maintained. For example, it can prevent a user from having both the permission to create a purchase order and the permission to approve it, which is a fundamental requirement to prevent internal fraud. By automating these checks, IAG reduces the workload on IT and Audit teams while significantly lowering the risk of unauthorized access. While it helps meet regulatory requirements (Option C) and contributes to overall security, its primary operational function is the precise governance of user identities and the enforcement of access policies to ensure that every user has exactly the permissions they need-and no more.

#### **NEW QUESTION # 60**

.....

SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions (C-BCFIN-2502) practice exam went through real-world testing with feedback from more than 90,000 global professionals before reaching its latest form.
