## PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q69-Q74):

### NEW QUESTION # 69

What technique provides the benefit of checking the quality of the decision-support information being provided to the P3O?

- A. Capacity planning for resource management
- B. Management dashboards
- C. Gated reviews
- D. Business process swimlanes

**Answer: C**

Explanation:

Gated reviews provide the benefit of checking the quality of decision-support information, according to the P3O Foundation (2013) manual. Section 7.3.2 states, "Gated reviews offer an independent assessment to verify the quality and reliability of information used for P3O decision-making, ensuring governance standards are met." This contrasts with business process swimlanes (B), which map processes, capacity planning (C), which manages resources, and management dashboards (D), which visualize data. The 2013 edition highlights gated reviews as a key assurance technique, supporting P3O's role in maintaining high-quality decision support. This process enhances strategic alignment and risk management.

### NEW QUESTION # 70

Which is a purpose of measuring Key Performance Indicators for a P3O?

- A. Identify the resources required within a P3O
- B. Demonstrate a P3O's successes to the organization
- C. Determine project progress against its plan
- D. Identify areas of personal improvement for Project Managers

**Answer: B**

Explanation:

Measuring Key Performance Indicators (KPIs) for a P3O aims to demonstrate its successes to the organization, as per the P3O Foundation (2013) manual. Section 7.3.1 states, "KPIs are used to measure and demonstrate the P3O's contribution and success to the organization, providing evidence of value delivery." This differs from determining project progress (B), identifying resources (C), or personal improvement (D), which are specific to project or individual roles. The 2013 edition emphasizes KPIs as a strategic tool to justify the P3O's existence and effectiveness, focusing on outcomes like strategic alignment and benefit realization. This ensures organizational buy-in and continuous improvement.

### NEW QUESTION # 71

What question regarding business change governance support and enablement relates to 'business change design'?

- A. Are we doing the right things?
- B. Are we doing things the right way?
- C. Are we getting the business benefits?
- D. Are we getting things done well?

**Answer: A**

Explanation:

The question "Are we doing the right things?" relates to business change design, per the P3O Foundation (2013) manual. Section 2.2.2 states, "Business change design addresses the question 'Are we doing the right things?' by ensuring initiatives align with strategic objectives." This differs from benefits realization (A), efficiency (C), or process correctness (D), which address other

governance aspects. The 2013 edition links this question to the P3O's role in validating strategic alignment, a key design phase concern. This ensures change initiatives are prioritized correctly, supporting effective governance.

#### NEW QUESTION # 72

Which of the following statements about how a P3O should integrate with the wider organization are true?

1. Operates independently of other functions within the organization
  2. Typically relies on dedicated full-time resources to provide financial functions needed
- A. Both 1 and 2 are true
  - B. Only 1 is true
  - C. Only 2 is true
  - D. Neither 1 or 2 is true

**Answer: D**

Explanation:

The P3O Foundation (2013) manual indicates that a P3O should not operate independently nor rely solely on dedicated full-time resources for financial functions, making both statements false. Section 5.1.2 states, "The P3O model should integrate seamlessly with existing organizational functions, leveraging shared resources and aligning with corporate governance." Independence (1) is impractical as P3O relies on collaboration, while financial functions (2) are typically supported by existing organizational structures rather than dedicated P3O resources (Section 7.2). The 2013 edition emphasizes integration and resource sharing to enhance efficiency, contradicting both options. Thus, D is correct, ensuring the P3O complements rather than duplicates organizational capabilities, supporting a cohesive change management framework.

#### NEW QUESTION # 73

What types of office does a P3O typically consist of?

- A. Permanent and temporary
- B. Virtual and decentralized
- C. Co-located and centralized
- D. Permanent and transitioning

**Answer: A**

Explanation:

The P3O Foundation (2013) manual states that a P3O typically consists of permanent and temporary offices. Section 5.1.1 notes, "A P3O model typically comprises permanent offices, such as the Organization Portfolio Office, and temporary offices, such as Programme or Project Offices, to support the change lifecycle." This differs from transitioning (A), co-located/centralized (B), or virtual/decentralized (C), which describe specific configurations or states. The 2013 edition highlights this dual structure to address both ongoing and project-specific needs, ensuring flexible support across the organization.
