Avail Newest Latest CASPO-001 Dumps Book to Pass CASPO-001 on the First Attempt

You must ensure that you can pass the CASPO-001 exam quickly, so you must choose an authoritative product. Our CASPO-001 exam materials are certified by the authority and have been tested by users. This is a product that you can definitely use with confidence. Of course, our data may make you more at ease. The passing rate of CASPO-001 Preparation prep reached 99%, which is a very incredible value, but we did. If you want to know more about our products, you can consult our staff, or you can download our free trial version of our CASPO-001 practice engine. We are looking forward to your joining.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q17-Q22):

NEW QUESTION # 17

The Product Owner is accountable for the functionality included in each Increment. Does he or she have the final say over the definition of "Done"?

- A. Yes, the Product Owner is responsible for the definition of "Done". The Developers may be consulted.
- B. No, the Scrum Team is responsible for the definition of "Done". The Product Owner may be consulted.

Answer: B

Explanation:

The Scrum Guide clarifies that the definition of "Done" is a shared commitment created by the Scrum Team:

"The Definition of Done is a formal description of the state of the Increment when it meets the quality measures required for the

product." While the Product Owner defines what goes into the Increment (via the Product Backlog), the definition of "Done" is a collaborative effort, often driven by the Developers' technical expertise and organizational standards, with input from the Product Owner on value and quality expectations.

Option A incorrectly gives the Product Owner sole authority, while B correctly reflects the team's collective responsibility, with the Product Owner as a contributor, not the final arbiter.

NEW QUESTION # 18

When is a Sprint finished? (Choose the best answer)

- A. When the Definition of Done is met
- B. When the work remaining is zero
- **C. When the time-boxed duration is met**
- D. When the Product Owner accepts the Increment

Answer: C

Explanation:

A Sprint is a fixed-length, time-boxed event that ends when its duration expires, regardless of work completion. The Scrum Guide states: "Sprints are the heartbeat of Scrum, where ideas are turned into value.

They are fixed length events of one month or less to create consistency." The end is determined by the time-box, not by acceptance, quality standards, or task completion.

* A: Product Owner acceptance occurs at Sprint Review, but doesn't define Sprint end.

* B: The Definition of "Done" applies to the Increment, not the Sprint's duration.

* C: Correct-the time-box dictates the end.

NEW QUESTION # 19

Who is responsible for maximizing the value of the product? (Choose the best answer)

- A. Scrum Master
- B. Senior Executives
- **C. Product Owner**
- D. Developers

Answer: C

Explanation:

The Product Owner has explicit accountability for product value. The Scrum Guide states: "The Product Owner is accountable for maximizing the value of the product resulting from the work of the Scrum Team."

* A: The Scrum Master ensures Scrum effectiveness, not value.

* B: Correct-value maximization is their role.

NEW QUESTION # 20

During a Sprint Retrospective, for what is the Scrum Master responsible? (Choose the best answer)

- **A. Participating as a Scrum Team member and facilitating as requested or needed.**
- B. Prioritizing the resulting action items.
- C. Acting as a scribe to capture the Developers' answers.
- D. Summarizing and reporting the discussions to management.

Answer: A

Explanation:

The Scrum Guide describes the Sprint Retrospective as an event where the Scrum Team inspects itself and plans improvements, with the Scrum Master playing a dual role: "The Scrum Master participates as a peer team member in the Sprint Retrospective... and ensures that the event takes place and is positive and productive." Option C captures this-participating as a team member and facilitating when needed. Option A (scribe) is too narrow and not required. Option B (prioritizing) is a team decision, not the Scrum Master's alone. Option D (reporting to management) violates Scrum's team autonomy. Thus, C is correct.

NEW QUESTION # 21

When can the Product Backlog be updated? (Choose the best answer)

- A. Only during Product Backlog refinement sessions if the Product Owner is present
- B. Never, unless agreed to by the change request
- **C. At any time when done by the Product Owner or at the Product Owner's discretion**
- D. Only after a Sprint Review if agreed to by the stakeholders

Answer: C

Explanation:

The Product Backlog is under the Product Owner's control and can be updated anytime. The Scrum Guide states: "The Product Owner is accountable for effective Product Backlog management," implying ongoing adjustments as needed.

* A: Limiting updates to Sprint Review contradicts its emergent nature.

* B: Refinement is a key activity, but updates aren't restricted to it.

* C: A "change request" process isn't in Scrum.

NEW QUESTION # 22

.....

The Pass4training is a trusted and leading platform that is committed to making the entire GAQM CASPO-001 exam preparation process simple, smart, and quick. To achieve this objective Pass4training is offering real, valid, and updated GAQM CASPO-001 Exam Questions. These GAQM CASPO-001 exam dumps are the real CASPO-001 exam questions that surely will repeat in the upcoming CASPO-001 exam and you can pass the challenging exam.
