Snowflake SnowPro Core Certification Exam Sample Questions (Q726-Q731):

NEW QUESTION # 726

Which user preferences can be set for a user profile in Snowsight? (Select TWO).

- A. Default schema
- B. Notification
- C. Multi-Factor Authentication (MFA)
- D. Username
- E. Default database

Answer: A,E

Explanation:

In Snowsight, Snowflake's web interface, user preferences can be customized to enhance the user experience. Among these preferences, users can set a default database and default schema. These settings streamline the user experience by automatically selecting the specified database and schema when the user initiates a new session or query, reducing the need to manually specify these parameters for each operation.

This feature is particularly useful for users who frequently work within a specific database or schema context.
