The product of FreePdfDump is available in PRINCE2 PRINCE2-Practitioner PDF, EXAM CODE desktop practice exam software, and web-based PRINCE2 Practitioner Exam (PRINCE2-Practitioner) practice test.

## PRINCE2 Practitioner Exam Sample Questions (Q84-Q89):

### NEW QUESTION # 84

The executive has set the following tolerances for stage 2:

Time (+/- 1 week)

Cost (+/- £20,000)

Scope (using MoSCoW prioritization technique)

Risk (based on the risk appetite defined in the risk management approach) These tolerances have been recorded in the stage plan. The project manager will report progress regularly via highlight reports to the project board and use exception reports to raise exceptions. In addition, the project assurance role will monitor the stage to provide confidence to the project board that exceptions are being reported.

How well does this apply the 'manage by exception' principle, and why?

- A. It applies the principle well, because the project manager needs to control the project using discrete management stages.
- **B. It applies the principle poorly, because tolerances should be set for each stage against each of the six aspects of project performance.**
- C. It applies the principle well, because tolerances should be set for the related aspects of project performance for each stage.
- D. It applies the principle poorly, because it is the regular reporting of progress that should give the project board the required confidence.

**Answer: B**

#### NEW QUESTION # 85

While producing the Team Plan to deliver the agreed Work Package, it became apparent that the user representatives assigned 10 check some of the products were unsuitable.

Which 2 actions should the Team Manager take in response to this situation?

- **A. Consult the Senior Supplier to assign suitable reviewers.**
- B. Ensure the Quality Register is updated with details of the agreed amendments to the reviewers.
- **C. Discuss the situation with Project Assurance and agree the changes or additions to the reviewers. Advise the Project Manager of this risk.**
- D. Notify the Project Manager by raising an Exception Report explaining that the original reviewers are unsuitable.

**Answer: A,C**

#### NEW QUESTION # 86

##### HOTSPOT

##### Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits Ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

There is a major concern over an apparent lack of control of project documentation.

For each concern listed in Column 1, select from Column 2 the configuration management task that could help address the problem. Each selection from Column 2 can be used once, more than once or not at all.

□

**Answer:**

Explanation:

□

#### NEW QUESTION # 87

## Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

Do nothing.

Re-engineer selected business functions.

Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

One service provider should be contracted to provide the services currently provided by the Information Technology Division and the Facilities Division.

A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

Use PRINCE2.

Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost £2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of £20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage.

Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Major risks heading?

- A. Due to market conditions a suitable service provider may not be found, possibly leading to premature closure of the project.
- B. Owing to employment contract changes staff may resist outsourcing, which would make it difficult to transfer staff to the selected service provider.
- C. MFH's operations may be reduced and the 1a-year contract may not achieve its estimated value of £80m, which would reduce the service provider's profit.
- D. The management stages recommended by the consultants may not be appropriate, resulting in confusion in planning.
- E. The initial estimates, taken from the feasibility study report, indicate that the project will take two years to complete, which means that the business problems would remain for this period.

**Answer: B,E**

## NEW QUESTION # 88

### Scenario

#### Additional Information

Chief Executive Officer (CEO): He started the company 25 years ago and knows his job very well. He injured his leg two years ago which has restricted his visits to the engineering area. As CEO he has an overall perspective of the business strategic requirements and the authority to commit resources as required.

Marketing Director: She has been with the company for three years, following a successful career with a publicity company. She has the ability to represent the needs of the business, particularly as this is a marketing project. She has the authority to commit the annual business marketing budget, from which the project will be funded, as she sees appropriate. She will be responsible for monitoring the expected benefits of the calendar, in particular the improvement of the company's image.

Engineering Manager: He has been responsible for many engineering innovations in the company and is still as keen and energetic as the day he started. Whilst he will not be part of the project team, his staff will feature in the photos for the promotional calendar.

Central Records: This group of five staff looks after all company records and document control. They now maintain all project files.

Bright Lights: This is the local office supplies company. It supplies all the stationery and office equipment needs of the company and will supply the stationery for this project.

Portraits Ltd: This is a professional photographic company with a number of excellent photographers and a history of successful work. This company has been selected to take the photos for the company calendar. It has yet to be decided which of the photographers to use.

Which 2 statements explain why Central Records should be appointed as Project Support for this project?

- A. They have knowledge of the organizational standards that will be applicable to the project.
- B. They control the receipt, identification, versions, storage and issue of all project products within the company's projects.
- C. They will ensure compliance with all company policies and procedures.
- D. They already exist within the organization and have been with the company for many years.
- E. They perform a quality assurance function across all projects.

**Answer: A,B**

## NEW QUESTION # 89

.....
