

1z1-071 Latest Braindumps Sheet, 1z1-071 Pass4sure Study Materials

2026 Latest ExamPrepAway 1z1-071 PDF Dumps and 1z1-071 Exam Engine Free Share: <https://drive.google.com/open?id=1fGgVz-pWkHF7ammzxWXRwoXFZSOcvbxB>

For one thing, the most advanced operation system in our company which can assure you the fastest delivery speed on our 1z1-071 exam questions, and your personal information will be encrypted automatically by our operation system. For another thing, with our 1z1-071 actual exam, you can just feel free to practice the questions in our training materials on all kinds of electronic devices. In addition, under the help of our 1z1-071 Exam Questions, the pass rate among our customers has reached as high as 98% to 100%. We are look forward to become your learning partner in the near future.

Oracle 1z1-071 Exam Syllabus Topics:

Section	Objectives
Topic 1: SQL Functions	- Conversion and conditional functions • 1. TO_CHAR, TO_NUMBER, CASE expressions - Single-row functions • 1. Character, numeric, date functions
Topic 2: SQL Retrieval	- Joins and set operations • 1. INNER, OUTER, CROSS joins • 2. UNION, INTERSECT, MINUS - SELECT statements and filtering data • 1. ORDER BY and row limiting • 2. WHERE clause and conditions
Topic 3: Subqueries and Advanced SQL	- Single-row and multi-row subqueries - Correlated subqueries and nested queries
Topic 4: Relational Database Concepts	- Data types and database objects overview - Tables, rows, columns, and relational model basics

Topic 5: Data Manipulation and Schema Objects	- DML operations 1. INSERT, UPDATE, DELETE, MERGE - DDL operations 1. CREATE, ALTER, DROP tables and constraints

Oracle 1z1-071 Web-based Practice Exam

The Oracle 1z1-071 PDF questions file of ExamPrepAway has real Oracle 1z1-071 exam questions with accurate answers. You can download Oracle PDF Questions file and revise Oracle Database SQL 1z1-071 exam questions from any place at any time. We also offer desktop 1z1-071 practice exam software which works after installation on Windows computers. The 1z1-071 web-based practice test on the other hand needs no software installation or additional plugins. Chrome, Opera, Microsoft Edge, Internet Explorer, Firefox, and Safari support the web-based 1z1-071 Practice Exam. You can access the Oracle 1z1-071 web-based practice test via Mac, Linux, iOS, Android, and Windows. Oracle Database SQL 1z1-071 practice test (desktop & web-based) allows you to design your mock test sessions.

Oracle Database SQL Sample Questions (Q205-Q210):

NEW QUESTION # 205

Examine the structure of the EMPLOYEES table.

Name Null? Type

```

-----
EMPLOYEE_ID NOT NULL NUMBER(6)
FIRST_NAME VARCHAR2(20)
LAST_NAME NOT NULL VARCHAR2(25)
EMAIL NOT NULL VARCHAR2(25)
PHONE_NUMBER VARCHAR2(20)
HIRE_DATE NOT NULL DATE
JOB_ID NOT NULL VARCHAR2(10)
SALARY NUMBER(8,2)
COMMISSION_PCT NUMBER(2,2)
MANAGER_ID NUMBER(6)
DEPARTMENT_ID NUMBER(4)

```

There is a parent/child relationship between EMPLOYEE_ID and MANAGER_ID.

You want to display the last names and manager IDs of employees who work for the same manager as the employee whose EMPLOYEE_ID is 123.

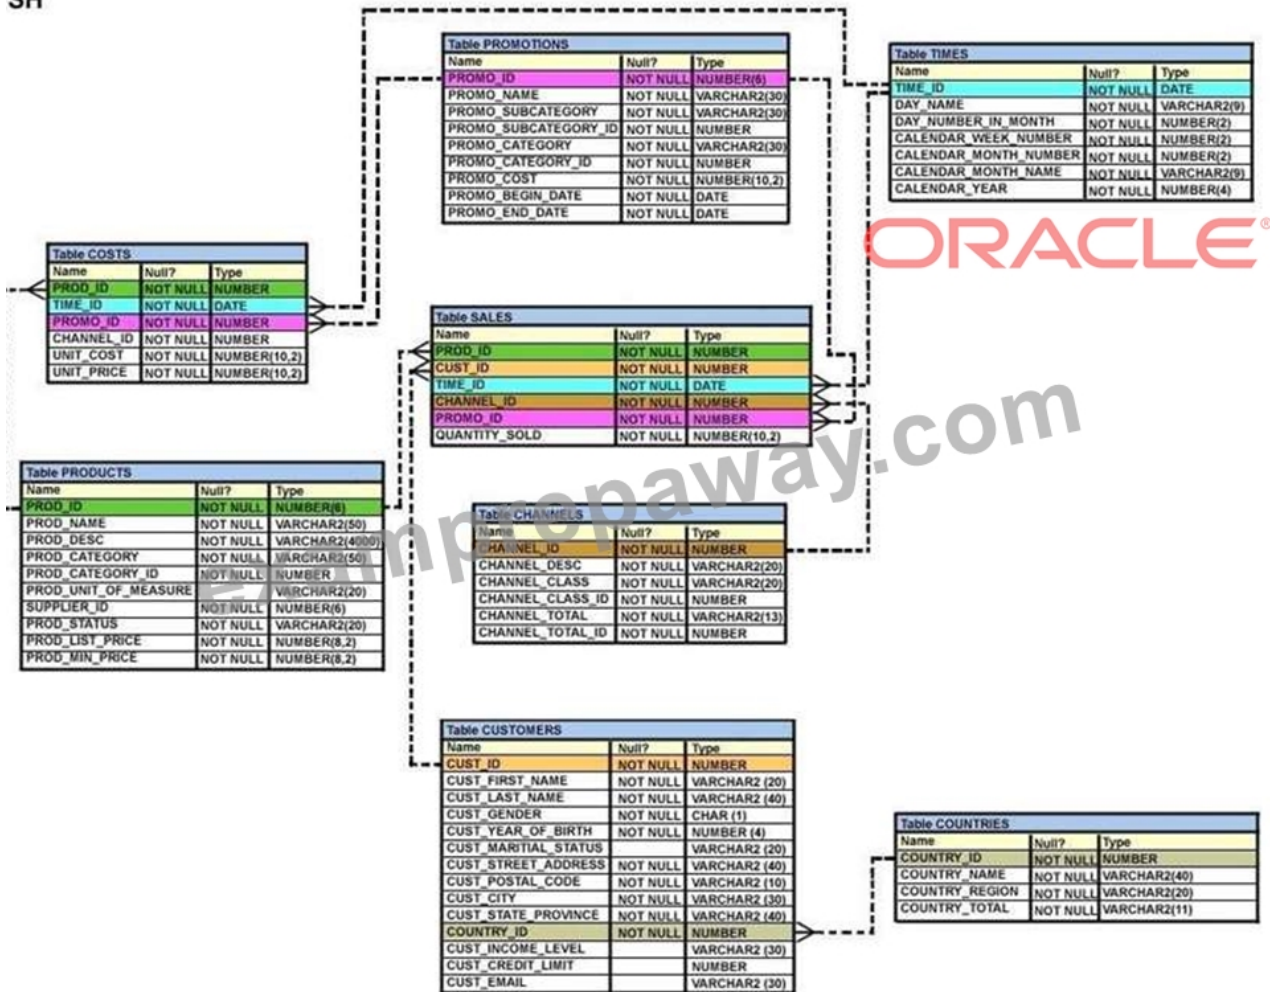

Which query provides the correct output?

- A. `SELECT e.last_name, m.manager_id
FROM employees e RIGHT OUTER JOIN employees m
on (e.manager_id = m.employee_id)
AND e.employee_id = 123;`
- B. `SELECT e.last_name, e.manager_id
FROM employees e RIGHT OUTER JOIN employees m
on (e.employee_id = m.employee_id)
WHERE e.employee_id = 123;`
- C. `SELECT m.last_name, e.manager_id
FROM employees e LEFT OUTER JOIN employees m
on (e.manager_id = m.manager_id)
WHERE e.employee_id = 123;`
- D. `SELECT e.last_name, m.manager_id
FROM employees e RIGHT OUTER JOIN employees m
on (e.employee_id = m.manager_id)
WHERE e.employee_id = 123;`

Answer: D

NEW QUESTION # 206

View the exhibit and examine the structure of the SALES, CUSTOMERS, PRODUCTS and TIMES tables.
SH

The PROD_ID column is the foreign key in the SALEStable, which references the PRODUCTStable.

Similarly, the CUST_ID and TIME_ID columns are also foreign keys in the SALEStable referencing the CUSTOMERS and TIMES tables, respectively.

Evaluate the following CREATE TABLE command:

```
CREATE TABLE new_sales (prod_id, cust_id, order_date DEFAULT SYSDATE)
```

AS

```
SELECT prod_id, cust_id, time_id
```

```
FROM sales;
```

Which statement is true regarding the above command?

- A. The NEW_SALEStable would get created and all the FOREIGNKEY constraints defined on the specified columns would be passed to the new table.
- B. The NEW_SALEStable would not get created because the DEFAULT value cannot be specified in the column definition.
- C. The NEW_SALEStable would get created and all the NOTNULL constraints defined on the specified columns would be passed to the new table.
- D. The NEW_SALEStable would not get created because the column names in the CREATETABLE command and the SELECT clause do not match.

Answer: C

NEW QUESTION # 207

Which two are true about dropping columns from a table? (Choose two.)

- A. A column can be removed only if it contains no data.
- B. A column must be set as unused before it is dropped from a table.
- C. A column that is referenced by another column in any other table cannot be dropped.
- **D. Multiple columns can be dropped simultaneously using the ALTER TABLE command.**
- E. A column drop is implicitly committed.
- **F. A primary key column cannot be dropped.**

Answer: D,F

NEW QUESTION # 208

Examine the data in the INVOICES table:

INVOICE_ID	CURRENCY_CODE	RAISED_DATE
1	EUR	01-JAN-2019
2	USD	01-FEB-2019
3	JPY	01-MAR-2019

Examine the data in the CURRENCIES table:

CURRENCY_CODE

JPY

GPB

CAD

EUR

USD

Which query returns the currencies in CURRENCIES that are not present in INVOICES?

- A. `SELECT * FROM currencies WHERE NOT EXISTS (SELECT NULL FROM invoices WHERE currency_code = currency_code);`
- B. `SELECT currency_code FROM currencies INTERSECT SELECT currency_code FROM invoices;`
- C. `SELECT * FROM currencies MINUS SELECT * FROM invoices;`
- **D. `SELECT currency_code FROM currencies MINUS SELECT currency_code FROM invoices;`**

Answer: D

Explanation:

To calculate the length of employment, you would compare the current date to the HIRE_DATE and calculate the difference in years.

A . This is the correct answer. The expression calculates the number of days between the current date (SYSDATE) and the HIRE_DATE, then divides by 365 to convert it to years, and checks if it is greater than 5.

B . SYSTIMESTAMP includes a time component including fractional seconds and time zone information, making this comparison incorrect.

C . There are typos in this option (CUARENT_DATE should be CURRENT_DATE and hire_data should be hire_date). Even with the correct function and column names, CURRENT_DATE returns the current date in the session time zone, not in years.

D . There are typos in this option (SYSNAYW should be SYSDATE). Additionally, dividing by 12 incorrectly assumes that a month is equivalent to a year.

E . This is a repetition of option D with the same issues.

F . There are typos in this option (CUNACV_DATE should be CURRENT_DATE and hire_data should be hire_date).

Additionally, dividing by 12 incorrectly assumes that a month is equivalent to a year.

Reference:

Oracle Database SQL Language Reference, 12c Release 1 (12.1): "Date Functions"

NEW QUESTION # 209

Examine the structure proposed for the TRANSACTION table:

Name	Null?	Type
TRANS_ID	NOT NULL	NUMBER (6)
CUST_NAME	NOT NULL	VARCHAR2 (20)
CUST_STATUS	NOT NULL	CHAR
TRANS_DATE	NOT NULL	DATE
TRANS_VALIDITY		VARCHAR2
CUST_CREDIT_LIMIT		NUMBER

Which two statements are true regarding the creation and storage of data in the above table structure? (Choose two.)

- A. The CUST_STATUS column would store exactly one character.
- B. The TRANS_VALIDITY column would give an error.
- C. The CUST_STATUS column would give an error.
- D. The TRANS_VALIDITY column would have a maximum size of one character.
- E. The TRANS_DATE column would be able to store day, month, century, year, hour, minutes, seconds, and fractions of seconds.
- F. The CUST_CREDIT_LIMIT column would be able to store decimal values.

Answer: A,B

NEW QUESTION # 210

.....

With ExamPrepAway's Oracle 1z1-071 exam training materials, you can get the latest Oracle 1z1-071 exam questions and answers. It can make you pass the Oracle 1z1-071 exam. Oracle 1z1-071 exam certification can help you to develop your career. ExamPrepAway's Oracle 1z1-071 Exam Training materials is ensure that you fully understand the questions and issues behind the concept. It can help you pass the exam easily.
