

# Complete HCL-HWA-ADM-102 Exam Dumps, HCL-HWA-ADM-102 Updated Dumps

Fortunately, there's no need to worry anymore. Now you can access and analyze your HCL-HWA-ADM-102 exam dumps by using the resourceful and well-researched HCLSoftware Certified Administrator- HWA 10.2 exam questions that is available only on Itcertmaster. This easy-to-use HCL-HWA-ADM-102 practice material encompasses the whole syllabus and its users find it very competitive as its Real HCL-HWA-ADM-102 Questions are specially Itcertmaster in this field. Each candidate has a different style of learning and preparation. They find it beneficial to pursue their desired study pattern for improved results.

Due to busy routines, applicants of the HCLSoftware Certified Administrator- HWA 10.2 (HCL-HWA-ADM-102) exam need real HCLSoftware exam questions. When they don't study with updated HCLSoftware HCL-HWA-ADM-102 practice test questions, they fail and lose money. If you want to save your resources, choose updated and actual HCL-HWA-ADM-102 Exam Questions of Itcertmaster. At the Itcertmaster offer students HCLSoftware HCL-HWA-ADM-102 practice test questions, and 24/7 support to ensure they do comprehensive preparation for the HCL-HWA-ADM-102 exam.

## **HCLSoftware HCL-HWA-ADM-102 Updated Dumps - Exam HCL-HWA-ADM-102 Pattern**

You will also face your doubts and apprehensions related to the HCLSoftware HCL-HWA-ADM-102 exam. Our HCLSoftware HCL-HWA-ADM-102 practice test software is the most distinguished source for the HCLSoftware HCL-HWA-ADM-102 Exam all over the world because it facilitates your practice in the practical form of the HCL-HWA-ADM-102 certification exam.

## **HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q437-Q442):**

### **NEW QUESTION # 437**

During the installation of a new HCL Workload Automation dynamic agent on an IBM i system, the administrator must specify the host that the agent will connect to, the installation directory, and other agent-related details. The target system will be part of an existing distributed environment, and the administrator wants to ensure the installer correctly registers the agent against the endpoint.

According to the IBM i agent installation parameters, which parameters are essential to correctly identify the host and installation directory?

- A. db.serverName and db.databaseName parameters set in the engine configuration
- **B. hostname and -inst\_dir parameters supplied to the installation program**
- C. agent.dynamic.gateway.hostname and agent.dynamic.gateway.port parameters only
- D. db.portNumber and db.driver.path parameters supplied during installation

**Answer: B**

Explanation:

HCL Workload Automation agent installation on IBM i systems requires specifying the hostname when the host is a localhost, and also uses the `-inst_dir` parameter to indicate the directory of the HWA installation on that system. These parameters inform the installer where to place the agent binaries and to which host the agent will be associated for subsequent communication in the distributed environment. Dynamic gateway parameters are relevant when configuring dynamic agents in Kubernetes or remote gateway scenarios, whereas database parameters and driver paths are associated with the server's database configuration, not the IBM i agent installation.

#### **NEW QUESTION # 438**

A security officer requires that a group of users have read-only access to specific workload monitoring views in the Dynamic Workload Console but no ability to modify jobs, calendars, or scheduling objects. The HCL Workload Automation administrator plans to configure this using console capabilities rather than database-level permissions. Which configuration action should the administrator perform to meet this requirement?

- A. Disable `comman` access for those users while leaving console permissions unchanged
- B. Edit `localopts` for those users to remove any write-related parameters
- C. Restrict access by removing the users' `db.user` privileges in the HWA database
- **D. Create a custom role in the Manage Roles page with only monitoring permissions and assign it to the target users**

**Answer: D**

Explanation:

By using the Manage Roles page in the Dynamic Workload Console, administrators can create and customize roles that define what console functions and monitoring views users can access. A custom role with only monitoring permissions and no edit privileges can be assigned to the read-only group so that they can view workload status without modifying any scheduling objects. Database privilege changes and `localopts` adjustments do not control console-level authorization logic, and `comman` access is separate from web-based console permissions.

#### **NEW QUESTION # 439**

An administrator customizes the Dynamic Workload Console branding. After deployment, some users still see old logos. What is the most likely cause?

- A. Customization directory incorrect
- B. Files not in PNG format
- C. Engine restart required instead of console
- **D. Browser cache not cleared**

**Answer: D**

Explanation:

Branding assets like logos and favicons are cached by browsers. Users must clear their browser cache or perform a hard refresh to load the new customized files after the console server has been restarted.

#### **NEW QUESTION # 440**

HCL Workload Automation 10.2 server installation on IBM Power10 EC45 enterprise server (256 cores/4TB RAM) for mainframe hybrid scheduling encounters J9JIT24 fatal error during makprod of z/OS job streams. Java 11.0.19 installed. AIX 7.3 TL2. Which server installation JVM sizing using precise -X options prevents JIT compilation OOM?

- A. JobManager.ini [JVM] heapSize=96G newSize=16G survivorSize=2G
- B. JAVA\_OPTS="-Xaggressive -Xcomp:multi 4 -Xtune:virtualized -Xjit:disableAsyncCompilation"
- C. tws\_env JAVA\_MAX\_RAM=75%; export IBM\_JAVACOREDIR=/TWS/java\_cores; ulimit -c unlimited
- D. TWS\_JAVA\_OPTS="-Xms16g -Xmx96g -XX:+UseContainerSupport -XX:MaxRAMPercentage=75 -Xjit:count=50000"

**Answer: D**

Explanation:

Power10 JIT requires -Xms16g -Xmx96g -XX:+UseContainerSupport -XX:MaxRAMPercentage=75 -Xjit:count=50000 allocating 96GB heap within 75% 4TB RAM constraint, enabling container cgroup awareness despite bare metal while limiting JIT compilations preventing code cache exhaustion during z/OS hybrid makprod. aggressive tuning risks latency, JAVACOREDIR diagnostic only, JobManager.ini heap scoped to engine excluding conman.

#### NEW QUESTION # 441

Using HCL Workload Automation 10.2 templates to deploy standardized fault-tolerant job streams across 20 fault domains, template expansion fails with "unresolved @FAULTDOMAIN\_ID". To configure templates that dynamically resolve fault domain membership during composer import for automatic workload distribution, which template variable substitution leverages engine topology?

- A. @VAR FAULTDOMAIN\_ID="\$ {resolve('domain.fault.id')}"
- B. TEMPLATE FAULT @PARAM(domain="\$ {@fault.id()}" )
- C. #INCLUDE TEMPLATE fault\_std vars="@domain\_fault()
- D. DEFINE TEMPLATE FAULT vars="#faultdomain.query()

**Answer: A**

Explanation:

Templates resolve fault domain topology using @VAR FAULTDOMAIN\_ID="\$ {resolve('domain.fault.id')}" , querying engine database during composer import to substitute actual fault domain IDs for workload distribution across 20 domains, enabling template-driven automatic balancing without static domain lists.

#### NEW QUESTION # 442

.....

Whereas the HCLSoftware HCL-HWA-ADM-102 web-based version of our practice test is compatible with iOS, Android, Windows, Linux, and Mac. Additionally, you can take the HCLSoftware HCL-HWA-ADM-102 web-based practice test online using Chrome, Firefox, Safari, MS Edge, Internet Explorer or any other popular browser.

**HCL-HWA-ADM-102 Updated Dumps:** <https://www.itcertmaster.com/HCL-HWA-ADM-102.html>

These formats are HCLSoftware HCL-HWA-ADM-102 PDF questions file, desktop practice test software, and web-based practice test software, Through years' efforts, our HCL-HWA-ADM-102 exam preparation has received mass favorable reviews because the 99% pass rate of our HCL-HWA-ADM-102 study guide is the powerful proof of trust of the public, Therefore, our HCL-HWA-ADM-102 study tool can help users pass the qualifying examinations that they are required to participate in faster and more efficiently as our HCL-HWA-ADM-102 exam questions have a pass rate of more than 98%.

Salon s The Scarey New Labormetrics of Work HCL-HWA-ADM-102 Updated Dumps describes a trend we ve following for some time now, Verify with Multiple Sources, These formats are HCLSoftware HCL-HWA-ADM-102 PDF questions file, desktop practice test software, and web-based practice test software.

### Complete HCL-HWA-ADM-102 Exam Dumps & HCLSoftware HCL-HWA-ADM-102 Updated Dumps: HCLSoftware Certified Administrator- HWA 10.2 Pass Certify

Through years' efforts, our HCL-HWA-ADM-102 Exam Preparation has received mass favorable reviews because the 99% pass rate of our HCL-HWA-ADM-102 study guide is the powerful proof of trust of the public.

Therefore, our HCL-HWA-ADM-102 study tool can help users pass the qualifying examinations that they are required to

participate in faster and more efficiently as our HCL-HWA-ADM-102 exam questions have a pass rate of more than 98%.

There is nothing superfluous or irrelevant in Itcertmaster's HCL-HWA-ADM-102 dumps that wastes your time and energy. Some customers might have the fear that the rapid development of information HCL-HWA-ADM-102 will infringe on the learning value of our HCLSoftware HCLSoftware Certified Administrator- HWA 10.2 valid study guide.
