As you know, opportunities are reserved for those who are prepared. Everyone wants to stand out in such a competitive environment, but they don't know how to act. Maybe our Palo Alto Networks Network Security Professional exam questions can help you. Having a certificate may be something you have always dreamed of, because it can prove that you have a certain capacity. Our learning materials can provide you with meticulous help and help you get your certificate. Our NetSec-Pro training prep is credible and their quality can stand the test. Therefore, our practice materials can help you get a great financial return in the future and you will have a good quality of life.

We can say that how many the NetSec-Pro certifications you get and obtain qualification certificates, to some extent determines your future employment and development, as a result, the NetSec-Pro exam guide is committed to helping you become a competitive workforce, let you have no trouble back at home. Actually, just think of our NetSec-Pro Test Prep as the best way to pass the NetSec-Pro exam is myopic. They can not only achieve this, but ingeniously help you remember more content at the same time.

>> NetSec-Pro Reliable Exam Questions <<

NetSec-Pro Valid Exam Testking | NetSec-Pro Reliable Exam Price

It is known to us that our NetSec-Pro learning materials have been keeping a high pass rate all the time. There is no doubt that it must be due to the high quality of our study materials. It is a matter of common sense that pass rate is the most important standard to testify the NetSec-Pro training files. The high pass rate of our study materials means that our products are very effective and useful for all people to pass their NetSec-Pro Exam and get the related certification. So if you buy the NetSec-Pro study questions from our company, you will get the certification in a shorter time.

Palo Alto Networks Network Security Professional Sample Questions (Q42-Q47):

NEW QUESTION # 42

What must be configured to successfully onboard a Prisma Access remote network using Strata Cloud Manager (SCM)?

- A. IPSec termination node
- B. Cloud Identity Engine
- C. Autonomous Digital Experience Manager (ADEM)
- D. GlobalProtect agent

Answer: A

Explanation:

To connect a remote network to Prisma Access via Strata Cloud Manager (SCM), the remote network requires an IPSec termination node. This acts as the VPN endpoint, ensuring secure connectivity between branch locations and Prisma Access.

"To onboard a remote network, configure the IPSec termination node on the customer's premises. This VPN endpoint establishes the secure tunnel to Prisma Access for traffic backhauling." (Source: Onboard Remote Networks) Key takeaway:

The IPSec termination node is fundamental for secure, encrypted connectivity.

NEW QUESTION # 43

Which action optimizes user experience across a segmented network architecture and implements the most effective method to maintain secure connectivity between branch and campus locations?

- A. Configure all branch and campus firewalls to use a single shared broadcast domain.
- B. Establish site-to-site tunnels on each branch and campus firewall and have individual VLANs for each department.
- C. Configure a single campus firewall to handle the routing of all branch traffic.
- D. **Implement SD-WAN to route all traffic based on network performance metrics and use zone protection profiles.**

Answer: D

Explanation:

SD-WAN solutions optimize application experience and provide secure, dynamic connectivity across distributed locations by leveraging real-time path metrics (latency, jitter, loss).

"By implementing SD-WAN, traffic is routed intelligently based on real-time network performance metrics.

Zone protection profiles ensure security while maximizing application performance." (Source: SD-WAN Architecture) Key advantage:

Secure connectivity and best user experience across campuses and branches.

NEW QUESTION # 44

Which two configurations are required when creating deployment profiles to migrate a perpetual VM-Series firewall to a flexible VM? (Choose two.)

- A. Choose "Fixed vCPU Models" for configuration type.
- B. **Allocate the same number of vCPUs as the perpetual VM.**
- C. Deploy virtual Panorama for management.
- D. **Allow only the same security services as the perpetual VM.**

Answer: B,D

Explanation:

When migrating from a perpetual VM-Series firewall license to a flexible VM licensing model, two critical steps are needed: Allocate same number of vCPUs- This ensures that the VM-Series capacity remains consistent and avoids resource bottlenecks.

"When migrating perpetual VM-Series licenses to flexible VM licensing, allocate the same vCPU and memory resources to ensure equivalent performance." (Source: VM-Series Flexible Licensing Migration) Limit to same security services- Flexible licensing requires maintaining the same security services to preserve licensing compliance.

"Ensure that you allow only the same security services on the flexible VM instance as were licensed on the perpetual VM." (Source: Flexible Licensing and Service Subscriptions)

NEW QUESTION # 45

What is a necessary step for creation of a custom Prisma Access report on Strata Cloud Manager (SCM)?

- A. Generate a PDF summary report.
- B. Set up Cloud Identity Engine.

- C. Open a support ticket.
- D. **Configure a dashboard.**

Answer: D

Explanation:

To create custom Prisma Access reports within SCM, you first configure a dashboard that aggregates the relevant logs and analytics. This allows you to define the data points you want to include.

"Dashboards in SCM can be customized to include Prisma Access data sources, enabling you to create and generate reports that meet specific business and security requirements." (Source: SCM Dashboards and Reporting) Once configured, you can export the dashboard as a custom report.

"Use the dashboard's data visualization to create custom reports for Prisma Access, which can be exported as PDFs for distribution." (Source: SCM Report Customization)

NEW QUESTION # 46

Which firewall attribute can an engineer use to simplify rule creation and automatically adapt to changes in server roles or security posture based on log events?

- A. **Dynamic Address Groups**
- B. Dynamic User Groups
- C. Predefined IP addresses
- D. Address objects

Answer: A

Explanation:

Dynamic Address Groups enable the firewall to automatically adjust security policies based on tags assigned dynamically (via log events, API, etc.). This eliminates the need for manual updates to policies when server roles or IPs change.

"Dynamic Address Groups allow you to create policies that automatically adapt to changes in the environment. These groups are populated dynamically based on tags, enabling automated security policy updates without manual intervention." (Source: Dynamic Address Groups)

NEW QUESTION # 47

.....

Maybe you want to get the NetSec-Pro certification, but daily work and long-time traffic make you busier to improve yourself. Thanks to our NetSec-Pro training materials, you can learn for your certification anytime, everywhere. If you get our products, you will surely find a better self. As we all know, the best way to gain confidence is to do something successfully. With our NetSec-Pro Study Guide, you will easily pass the NetSec-Pro examination and gain more confidence.

NetSec-Pro Valid Exam Testking: <https://www.dumpstests.com/NetSec-Pro-latest-test-dumps.html>

The web-based format gives results at the end of every Palo Alto Networks NetSec-Pro practice test attempt and points the mistakes so you can get rid of them before the final attempt, Palo Alto Networks NetSec-Pro Reliable Exam Questions You can even access your previously given tests from the history, which helps you to overcome mistakes while giving the actual test next time, NetSec-Pro training materials are high-quality and high accuracy, since we are strict with the quality and the answers.

Gaps have attracted the attention of market technicians NetSec-Pro since the earliest days of stock charting. This theory is also often referred to as soft inheritance, The web-based format gives results at the end of every Palo Alto Networks NetSec-Pro practice test attempt and points the mistakes so you can get rid of them before the final attempt.

Actual Palo Alto Networks NetSec-Pro Exam Dumps – Pass Exam With Good Scores

You can even access your previously given tests NetSec-Pro Reliable Exam Price from the history, which helps you to overcome mistakes while giving the actual test next time, NetSec-Pro Training Materials are high-quality and high accuracy, since we are strict with the quality and the answers.

Firstly, many candidates who purchased our NetSec-Pro brain dumps said that we replied news and email fast, We are a group of

professional IT experts and certified trainers who focus on the study of Palo Alto Networks Network Security Professional practice exam for many years and offer valid NetSec-Pro Palo Alto Networks Network Security Professional exam questions to our customers.
