**Answer: B**

**Explanation:**

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP structures its Financial Management portfolio around five strategic pillars designed to cover the end-to-end responsibilities of the modern CFO. These pillars include:

\* Accounting & Financial Close: Focused on the "Record-to-Report" process, ensuring a fast, accurate, and compliant closing cycle using the Universal Journal.

\* Financial Planning & Analysis (FP&A): Enabling continuous planning, budgeting, and forecasting combined with real-time performance analysis.

\* Governance, Risk & Compliance (GRC): Protecting the business by embedding automated controls, identity governance, and international trade compliance into operations.

\* Quote-to-Cash: Managing the entire lifecycle of a sale, from initial offer to revenue recognition and cash collection, supporting modern subscription-based models.

\* Treasury & Working Capital: Optimizing liquidity, managing financial risks, and ensuring efficient bank connectivity and cash flow. These pillars represent the holistic "Office of the CFO" strategy. Options like Field Service Management (A), Inventory Management (C), or Integrated Business Planning (D) are important operational areas within the broader SAP ERP ecosystem, but they are not categorized as the five core pillars specifically defined for Financial Management Solutions when positioning the suite to finance leadership.
