

2026 Updated 100% Free JN0-336–100% Free Latest Exam Fee | Security, Specialist (JNCIS-SEC) Certification Cost

PRACTICE PAPER – 3

Time : 3 Hours] [Max. Marks : 80

General Instructions :
The question paper is divided into four sections.

(1) **Section A :** Q. 1 contains eight multiple choice type of questions, each carrying two marks.
Q. 2 contains four very short answer type questions, each carrying one mark.

(2) **Section B :** Q. 3 to Q. 14 contain twelve short answer type questions, each carrying two marks.
(Attempt any eight)

(3) **Section C :** Q. 15 to Q. 26 contain twelve short answer type questions, each carrying three marks.
(Attempt any eight)

(4) **Section D :** Q. 27 to Q. 34 contain eight long answer type questions, each carrying four marks.
(Attempt any five)

(5) Use of log table is allowed. Use of calculator is not allowed.

(6) Figures to the right indicate full marks.

(7) Use of graph paper is not necessary. Only rough sketch of graph is expected.

(8) For each multiple choice type of question, it is mandatory to write the correct answer along with its alphabet, e.g. (a) / (b) / (c) / (d) etc. No marks shall be given, if ONLY the correct answer or the alphabet of correct answer is written. Only the first attempt will be considered for evaluation.

(9) Start answer to each section on a new page.

SECTION – A

Q. 1. Select and write the correct answer for the following multiple choice type of questions : [16]

(i) The negation of $p \wedge (q \rightarrow r)$ is

(a) $\sim p \wedge (\sim q \rightarrow \sim r)$ (b) $p \vee (\sim q \vee r)$
(c) $\sim p \wedge (\sim q \wedge r)$ (d) $\sim p \vee (q \wedge \sim r)$ (2)

(ii) $\cos^{-1}\left(\cos \frac{7\pi}{6}\right) = \dots\dots\dots$

(a) $\frac{7\pi}{6}$ (b) $\frac{5\pi}{6}$ (c) $\frac{\pi}{6}$ (d) $\frac{3\pi}{2}$ (2)

(iii) If $\vec{a}, \vec{b}, \vec{c}$ are non-coplanar unit vectors such that $\vec{a} \times (\vec{b} \times \vec{c}) = \frac{(\vec{b} + \vec{c})}{\sqrt{2}}$, then the angle between \vec{a} and \vec{b} is

(a) $\frac{3\pi}{4}$ (b) $\frac{\pi}{4}$ (c) $\frac{\pi}{2}$ (d) π (2)

(iv) The corner points of the feasible solution given by the inequations $x + y \leq 4$, $2x + y \leq 7$, $x \geq 0$, $y \geq 0$ are

(a) (0, 0), (4, 0), (7, 1), (0, 4) (b) (0, 0), $\left(\frac{7}{2}, 0\right)$, (3, 1), (0, 4)
(c) (0, 0), $\left(\frac{7}{2}, 0\right)$, (3, 1), (0, 7) (d) (0, 0), (4, 0), (3, 1), (0, 7) (2)

P.S. Free 2026 Juniper JN0-336 dumps are available on Google Drive shared by ValidTorrent: <https://drive.google.com/open?id=1MB2JCZ38II6mKRf22jC65mOZeIZHwawf>

Our online test engine and windows software of the JN0-336 test answers will let your experience the flexible learning style. Apart from basic knowledge, we have made use of the newest technology to enrich your study of the JN0-336 exam study materials. Online learning platform is different from traditional learning methods. One of the great advantages is that you will soon get a feedback after you finish the exercises. So you are able to adjust your learning plan of the JN0-336 Guide test flexibly. We hope that our new design can make study more interesting and colorful. You also can send us good suggestions about developing the study material.

To choose our ValidTorrent to is to choose success! ValidTorrent provide you Juniper certification JN0-336 exam practice questions and answers, which enable you to pass the exam successfully. Simulation tests before the formal Juniper certification JN0-336 examination are necessary, and also very effective. If you choose ValidTorrent, you can 100% pass the exam.

>> JN0-336 Latest Exam Fee <<

Reliable JN0-336 Latest Exam Fee Spend Your Little Time and Energy to Pass JN0-336: Security, Specialist (JNCIS-SEC) exam

Besides, considering the current status of practice materials market based on exam candidates' demand, we only add concentrated points into our JN0-336 exam tool to save time and cost for you. Our JN0-336 exam tool has three versions for you to choose, PDF, App, and software. If you have any question or hesitate, you can download our free Demo. The Demo will show you part of the content of our JN0-336 Study Materials real exam materials. So you do not have to worry about the quality of our exam questions. Our JN0-336 exam tool have been trusted and purchased by thousands of candidates. What are you waiting for?

Juniper Security, Specialist (JNCIS-SEC) Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which two statements about SRX Series device chassis clusters are correct? (Choose two.)

- A. The chassis cluster can contain a maximum of three devices.
- B. The chassis cluster data plane is connected with SPC ports.
- C. The chassis cluster data plane is connected with revenue ports.
- D. The chassis cluster can contain a maximum of two devices.

Answer: C,D

Explanation:

Two statements that are correct about SRX Series device chassis clusters are:

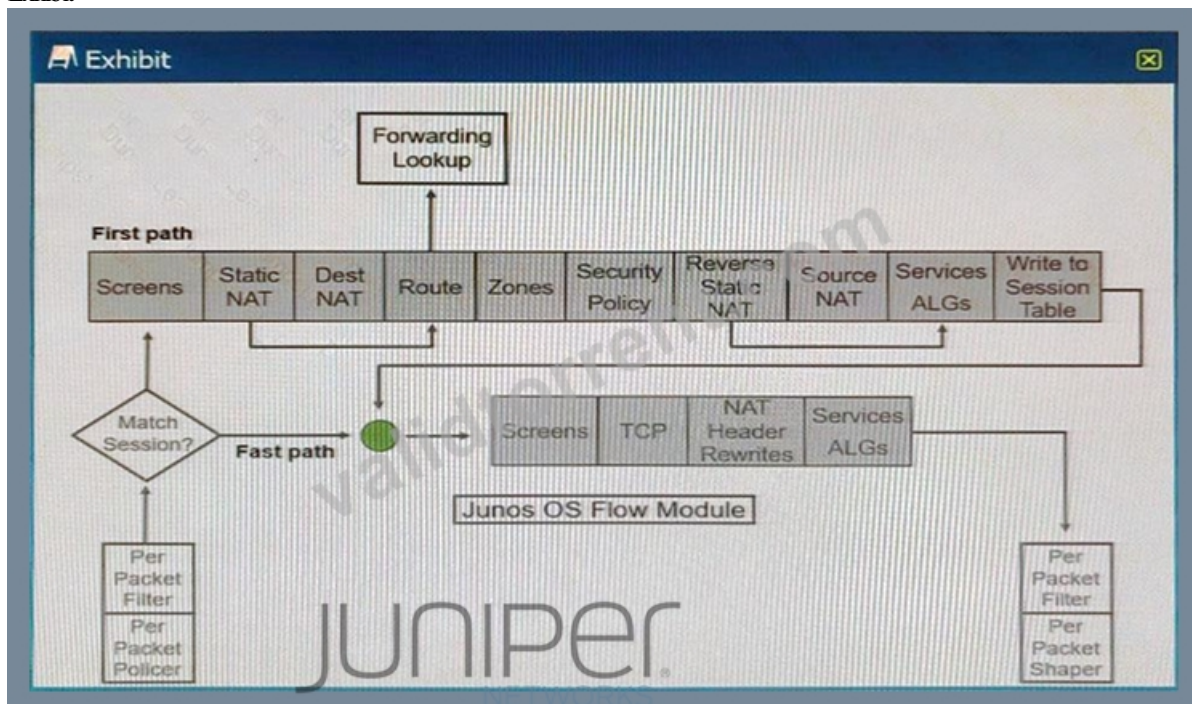

The chassis cluster data plane is connected with revenue ports: A chassis cluster is a high-availability feature that groups two identical SRX Series devices into a cluster that acts as a single device. The cluster has two types of links: control links and fabric links. The control links are used for exchanging heartbeat messages and configuration synchronization between the nodes. The fabric links are used for forwarding data traffic between the nodes. The fabric links are connected with revenue ports, which are regular Ethernet interfaces that can also be used for normal traffic when not in cluster mode.

The chassis cluster can contain a maximum of two devices: A chassis cluster can only consist of two nodes: node 0 and node 1. The nodes must be the same model, have the same hardware configuration, run the same software version, and have the same license keys. The nodes share a common configuration and act as backup for each other in case of failure.

Reference: = Configuring Chassis Clustering on SRX Series Devices, SRX Series Chassis Cluster Configuration Overview, Connecting SRX Series Firewalls to Create a Chassis Cluster

NEW QUESTION # 54

Exhibit

Referring to the SRX Series flow module diagram shown in the exhibit, where is application security processed?

- A. Screens
- B. Services ALGs
- C. Security Policy

- D. Forwarding Lookup

Answer: B

NEW QUESTION # 55

What are two benefits of using a vSRX in a software-defined network? (Choose two.)

- A. no required software license
- B. granular security
- C. infinite number of interfaces
- D. scalability

Answer: B,D

Explanation:

- Scalability: vSRX instances can be easily added or removed as the needs of the network change, making it a flexible option for scaling in a software-defined network.

- Granular Security: vSRX allows for granular security policies to be enforced at the virtual interface level, making it an effective solution for securing traffic in a software-defined network.

The two benefits of using a vSRX in a software-defined network are scalability and granular security.

Scalability allows you to increase the number of resources available to meet the demands of network traffic, while granular security provides a level of control and flexibility to your network security that is not possible with a traditional firewall. With a vSRX, you can create multiple levels of security policies, rules, and access control lists to ensure that only authorized traffic can enter and exit your network.

Additionally, you would not require a software license to use the vSRX, making it an economical solution for those looking for increased security and flexibility.

NEW QUESTION # 56

Which solution enables you to create security policies that include user and group information?

- A. JIMS
- B. ATP Appliance
- C. Network Director
- D. NETCONF

Answer: A

Explanation:

The solution that enables you to create security policies that include user and group information is JIMS (Juniper Identity Management Service). JIMS collects and maintains a large database of user, device, and group information from Active Directory domains or syslog sources, and enables SRX Series devices to rapidly identify thousands of users in a large, distributed enterprise. With JIMS, you can create security policies that include user and group information, and enforce user-based access control policies to protect network resources.

NEW QUESTION # 57

You are asked to create an IPS-exempt rule base to eliminate false positives from happening.

Which two configuration parameters are available to exclude traffic from being examined? (Choose two.)

- A. destination IP address
- B. destination port
- C. source IP address
- D. source port

Answer: A,C

Explanation:

You can specify the source IP address or a range of IP addresses to exclude certain traffic originating from specific network segments or devices. This is useful for whitelisting traffic from known, secure sources that are otherwise triggering false positives in

the IPS system.

Similarly, you can specify the destination IP address or a range of addresses to exclude traffic destined for particular network hosts or segments. This helps in reducing false positives for traffic directed towards trusted internal resources or specific external services that are known to be safe.

NEW QUESTION # 58

.....

Our JN0-336 exam training' developers to stand in the perspective of candidate, fully consider their material basis and actual levels of knowledge, formulated a series of scientific and reasonable learning mode, meet the conditions for each user to tailor their learning materials. What's more, our JN0-336 Guide questions are cheap and cheap, and we buy more and deliver more. The more customers we buy, the bigger the discount will be. In order to make the user a better experience to the superiority of our JN0-336 actual exam guide, we also provide considerate service,

JN0-336 Certification Cost: <https://www.validtorrent.com/JN0-336-valid-exam-torrent.html>

What's more, you may practice a lot, but still have difficulties in the JN0-336 Certification Cost - Security, Specialist (JNCIS-SEC) exam test, Our Juniper JN0-336 exam questions have gained wide popularity among candidates, The second one is the web-based Juniper JN0-336 practice exam which can be accessed through the browsers like Firefox, Safari, and Juniper Chrome, Also you can find JN0-336 examcollection dumps and detailed test answers to make your preparation successfully.

Immediately download for Security, Specialist (JNCIS-SEC) updated practice is JN0-336 the superiority we provide for you as soon as you purchase, A First Attempt at Automating Device Configuration.

What's more, you may practice a lot, but still have difficulties in the Security, Specialist (JNCIS-SEC) exam test, Our Juniper JN0-336 Exam Questions have gained wide popularity among candidates.
