

確保通過的1Z1-1170考證和資格考試中的領先提供者 & 優秀的1Z1-1170考題套裝

PDFExamDumps為您提供的針對性培訓和高品質的練習題，是你第一次參加Oracle 1Z1-1170 認證考試最好的準備。PDFExamDumps提供的練習題是與真實的考試試題很相似的，能確保你一次成功通過Oracle 1Z1-1170 認證考試。如果你考試失敗，我們將全額退款。

Oracle 1Z1-1170 Exam Syllabus Topics:

Section	Objectives
AI Foundations and Huawei AI Ecosystem	- Artificial intelligence concepts and development workflow 1. AI application lifecycle 2. AI development principles
	- Huawei AI strategy and platforms 1. MindSpore, ModelArts, and Atlas ecosystem 2. Huawei full-stack AI strategy
Data Preparation and Governance	- Data labeling and quality management 1. Dataset quality control 2. Annotation methods and standards
	- Data collection and preprocessing 1. Feature preparation and transformation 2. Data ingestion and cleaning

	- Pre-training and fine-tuning • 1. Fine-tuning methods • 2. Pre-training workflow
Model Development and Training	- Model architecture and training basics • 1. Model construction concepts • 2. Training objectives and loss functions - Inference and service deployment • 1. Cloud, edge, and device deployment • 2. Model inference workflow
Model Inference, Deployment, and Application	- Application integration and validation • 1. Testing, verification, and release • 2. Application scenario integration - Model migration to Huawei AI platforms • 1. Framework migration and adaptation • 2. Ascend compatibility and conversion
Model Migration, Operator Development, and Optimization	- Operator development and performance tuning • 1. Operator implementation basics • 2. Performance profiling and optimization

1Z1-1170考題套裝 & 1Z1-1170學習筆記

對於1Z1-1170認證考試，你已經準備好了嗎？考試近在眼前，你可以信心滿滿地迎接考試嗎？如果你還沒有通過考試的信心，在這裏向你推薦一個最優秀的參考資料。只需要短時間的學習就可以通過考試的最新的1Z1-1170考古題出現了。这个考古題是由PDFExamDumps提供的。

最新的 Oracle Cloud 1Z1-1170 免費考試真題 (Q99-Q104):

問題 #99

What is the main purpose of an OLVM Data Domain?

- A. Store only legacy exported VM backups
- B. Store only installation ISO images
- C. Store only network bonding configuration
- **D. Store virtual machine disks and related VM data**

答案: D

解題說明:

A Data Domain is the primary storage domain used for active VM disk storage.

問題 #100

Which statement best describes REST API usage in OLVM?

- A. It is used only when PostgreSQL is offline.
- B. It replaces the hypervisor entirely.
- **C. It allows programmatic management and automation of OLVM resources.**
- D. It is only used to change monitor brightness.

答案： C

解題說明：

The REST API enables scripted and integrated operations across OLVM objects such as VMs, hosts, storage, and networks.

問題 #101

Why is network bonding used in OLVM hosts?

- A. To create ISO domains
- B. To install ovirt-engine
- C. To provide link aggregation, failover, or both
- D. To seal virtual machines

答案： C

解題說明：

Bonding groups NICs to improve availability and, depending on mode, bandwidth handling.

問題 #102

What is a key reason for using ovirt-engine-rename instead of manually changing only the hostname?

- A. It removes the need for DNS resolution
- B. It updates engine identity references and helps avoid broken secure-token or certificate relationships
- C. It automatically increases all VM memory
- D. It converts Active-Passive DR into Active-Active automatically

答案： B

解題說明：

The engine identity is referenced across the OLVM environment, so a supported rename utility is safer than manual hostname changes.

問題 #103

What is the main purpose of an ISO Domain in OLVM?

- A. Provide migration network bandwidth
- B. Store installation media and boot images
- C. Host the engine database only
- D. Store active VM disk images

答案： B

解題說明：

An ISO Domain stores images used to install or boot guest operating systems.

問題 #104

.....

當你被失敗擁抱時，也許成功正在一邊等著你。1Z1-1170 考古題含蓋最新的 Oracle 考試指南，由專業的 Oracle 認證專家進行編訂適合全球考生適用的題庫版本，保證考生都可以通過考試。讓考生遠離考試失敗的憂慮。如果考生沒有把握通過考試，本文將力薦 Oracle 1Z1-1170 考古題，含蓋最新的考試指南，確保考生順利通過 1Z1-1170 考試。
