

# 100% Pass Quiz NCP-DB-6.10 - High Hit-Rate Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Valid Braindumps Files

BONUS!!! Download part of Pass4suresVCE NCP-DB-6.10 dumps for free: <https://drive.google.com/open?id=1tTB12SYQgxQeFTfNlurjlpap7cDwQHlr>

The Nutanix NCP-DB-6.10 practice test questions are getting updated on the daily basis and there are also up to 1 year of free updates. Earning the Nutanix NCP-DB-6.10 certification exam is the way to grow in the modern era with high-paying jobs. The 24/7 support system is available for the customers so that they can get the solution to every problem they face and pass Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) exam. You can also evaluate the NCP-DB-6.10 prep material with a free demo. Buy Now!

In this age of anxiety, everyone seems to have great pressure. If you are better, you will have a more relaxed life. NCP-DB-6.10 guide materials allow you to increase the efficiency of your work. You can spend more time doing other things. Our NCP-DB-6.10 study questions allow you to pass the exam in the shortest possible time. Just study with our NCP-DB-6.10 exam braindumps 20 to 30 hours, and you will be able to pass the exam.

## Switch Your Nervousness in NCP-DB-6.10 Exam by Using Nutanix NCP-DB-6.10 Exam

Before we start develop a new NCP-DB-6.10 study materials, we will prepare a lot of materials. After all, we must ensure that all the questions and answers of the NCP-DB-6.10 study materials are completely correct. First of all, we have collected all relevant reference books. Most of the NCP-DB-6.10 Study Materials are written by the famous experts in the field. They are widely read and accepted by people. Through careful adaption and reorganization, all knowledge will be integrated in our NCP-DB-6.10 study materials.

## Nutanix Certified Professional - Database Automation (NCP-DB) v6.10

## Sample Questions (Q100-Q105):

### NEW QUESTION # 100

An administrator has been tasked with OS and database patching in a Nutanix NDB environment.

The administrator wishes to automate these activities.

What should the administrator configure to accomplish this task?

- A. Pulse
- B. SMTP Server
- C. Access Control
- D. Maintenance Window

**Answer: D**

Explanation:

To automate OS and database patching in a Nutanix NDB environment, the administrator should configure a Maintenance Window. A Maintenance Window in NDB allows the administrator to schedule automated patching tasks (e.g., OS updates and database software updates) during specified time periods, minimizing disruption to production workloads. This feature integrates with software profiles and can be set to run periodically or on-demand, ensuring patches are applied efficiently and consistently across the environment.

### NEW QUESTION # 101

Which file format is available when downloading a list of alerts?

- A. csv
- B. pdf
- C. xml
- D. xlsx

**Answer: A**

Explanation:

When downloading a list of alerts from NDB, the available file format is csv (Comma-Separated Values). NDB provides this format to export alert data (e.g., alert ID, timestamp, severity, description) in a structured, machine-readable way that can be easily imported into spreadsheet applications like Microsoft Excel or analyzed programmatically. This aligns with NDB's focus on operational efficiency and data portability.

### NEW QUESTION # 102

Which statement describes a user in Era with the Database Infrastructure Admin role?

- A. The user is able to manage database profiles, Network Profiles, database Instance parameter profiles and time machine SLA
- B. The user is able to manage software profiles, database parameter profiles and SLAs
- C. The user is able to manage software profiles, Network Profiles, database Instance parameter profiles and time machine SLA
- D. The user is able to manage software profiles, Network Profiles, database parameter profiles and Time Machine SLAs,

**Answer: D**

Explanation:

The size of a database Time Machine in Nutanix Era is defined by the size of all snapshots and/or transaction logs maintained by Era. The Time Machine leverages Nutanix's efficient snapshot technology to capture the state of the database at different points in time. These snapshots, along with transaction logs that record changes between snapshots, constitute the data maintained by the Time Machine. Therefore, the size of the Time Machine is determined by the total size of these snapshots and transaction logs.

### NEW QUESTION # 103

An administrator needs to provision multiple database clones from the same source database for different purposes, such as QA and

Test/Development. To avoid resource starving, the administrator wants to differentiate VM resources for each department. What is the most efficient way to accomplish this task?

- A. Leverage NCM Self Service to deploy database clones.
- **B. Create multiple Compute profiles.**
- C. Use a VM Template for each department.
- D. Generate a playbook to resize database VMs when released.

**Answer: B**

Explanation:

An administrator needs to provision multiple database clones from the same source database for different purposes (e.g., QA and Test/Development) while avoiding resource starvation by differentiating VM resources for each department. The most efficient way to achieve this is by creating multiple Compute profiles in NDB. Compute profiles define CPU, memory, and other resource allocations for VMs, allowing the administrator to tailor resource limits (e.g., higher resources for QA, lower for Development) and apply them during clone provisioning. This approach is built into NDB, ensuring consistent resource management without manual adjustments.

#### **NEW QUESTION # 104**

What minimum account access level is required in Prism Element to deploy NDB?

- A. User Administrator
- B. Backup Administrator
- **C. Cluster Administrator**
- D. Viewer

**Answer: C**

Explanation:

To deploy Nutanix Database Service (NDB) in Prism Element, the minimum account access level required is Cluster Administrator. This role provides the necessary permissions to manage cluster resources (e.g., storage, networking, and VMs) required for NDB deployment, including registering the cluster with NDB, configuring storage containers, and deploying NDB components. Lower roles like Viewer or Backup Administrator lack the scope to perform these tasks, and User Administrator is focused on user management, not deployment.

#### **NEW QUESTION # 105**

.....

It is apparent that a majority of people who are preparing for the NCP-DB-6.10 exam would unavoidably feel nervous as the exam approaching. If you are still worried about the coming exam, since you have clicked into this website, you can just take it easy now, I can assure you that our company will present the antidote for you--our NCP-DB-6.10 Learning Materials. And you will be grateful to choose our NCP-DB-6.10 study questions for its high-effective to bring you to success.

**NCP-DB-6.10 Latest Braindumps:** <https://www.pass4suresvce.com/NCP-DB-6.10-pass4sure-vce-dumps.html>

We guarantee that our NCP-DB-6.10 exam prep is cost-efficient and affordable for most candidates who want to get certification quickly in their first try, We abandon all obsolete questions in this latest NCP-DB-6.10 exam torrent and compile only what matters toward actual real exam, If you are ready to take the exam, and then use our Pass4suresVCE Nutanix NCP-DB-6.10 exam training materials, we guarantee that you can pass it, Nutanix NCP-DB-6.10 Valid Braindumps Files They are instantly downloadable and supported with our online customers service to answer your queries promptly.

The Document Object Model, That for every two retiring Boomers NCP-DB-6.10 expecting to draw from Social Security there will be one new worker entering the workforce paying into Social Security?

We guarantee that our NCP-DB-6.10 Exam Prep is cost-efficient and affordable for most candidates who want to get certification quickly in their first try, We abandon all obsolete questions in this latest NCP-DB-6.10 exam torrent and compile only what matters toward actual real exam.
