

Free PDF 2026 Marvelous Microsoft AZ-801 Book Pdf

What's more, part of that DumpsQuestion AZ-801 dumps now are free: <https://drive.google.com/open?id=1zQi7886aIzeIJ7ThAnO0bFpgOXG2CJ13>

Before clients buy our AZ-801 questions torrent they can download them and try out them freely. The pages of our product provide the demo and the aim is to let the client know part of our titles before their purchase and what form our AZ-801 guide torrent is. The pages introduce the quantity of our questions and answers of our AZ-801 Guide Torrent. After you try out the free demo you could decide whether our AZ-801 exam torrent is worthy to buy or not. So you needn't worry that you will waste your money or our AZ-801 exam torrent is useless and boosts no values.

Microsoft AZ-801 Certification Exam focuses on advanced topics related to Windows Server Hybrid configuration. This includes topics such as implementing Azure solutions, configuring hybrid identity, and configuring hybrid networking. As a result, this certification is ideal for IT professionals who are already familiar with basic Windows Server concepts and are ready to take on more advanced topics.

Microsoft AZ-801 exam consists of various topics that assess the candidate's knowledge of hybrid cloud solutions. These topics include implementing and managing Azure Site Recovery, implementing and managing Azure backup, implementing and managing Azure AD, and implementing and managing Azure automation. Candidates will also be tested on their ability to design and implement hybrid identity solutions, hybrid networking solutions, and hybrid compute solutions. Passing this certification exam demonstrates that the candidate has the skills and knowledge needed to implement and manage advanced services in hybrid environments, making them a valuable asset to any organization.

Pass Guaranteed AZ-801 - Configuring Windows Server Hybrid Advanced

Services Authoritative Book Pdf

The content of our AZ-801 exam questions emphasizes the focus and seizes the key to use refined AZ-801 questions and answers to let the learners master the most important information by using the least amount of them. And we provide varied functions to help the learners learn our AZ-801 Study Materials and prepare for the exam. The AZ-801 self-learning and self-evaluation functions help the learners find their weak links and improve them promptly.

The AZ-801 Certification Exam comprises of multiple-choice questions, case studies, and drag-and-drop scenarios that test the candidate's ability to configure and manage advanced hybrid scenarios. AZ-801 exam is designed to assess the candidate's practical skills and expertise in designing, implementing, and managing hybrid solutions. Configuring Windows Server Hybrid Advanced Services certification exam is an excellent opportunity for IT professionals to showcase their advanced knowledge and skills to potential employers and clients.

Microsoft Configuring Windows Server Hybrid Advanced Services Sample Questions (Q214-Q219):

NEW QUESTION # 214

Your network contains an Active Directory Domain Services (AD DS) forest. The forest contains the domains shown in the following table.

□ You are implementing Microsoft Defender for Identity sensors.

You need to install the sensors on the minimum number of domain controllers. The solution must ensure that Defender for Identity will detect all the security risks in both the domains.

What should you identify? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

Answer:

Explanation:

□ Reference:

<https://docs.microsoft.com/en-us/defender-for-identity/install-step4>

NEW QUESTION # 215

You have an Azure virtual machine named VM1 that runs Windows Server.

You plan to deploy a new line-of-business (LOB) application to VM1.

You need to ensure that the application can create child processes.

What should you configure on VM1?

- A. Microsoft Defender Application Control
- B. Microsoft Defender SmartScreen
- C. Exploit protection
- D. Microsoft Defender Credential Guard

Answer: D

Explanation:

Reference:

<https://docs.microsoft.com/en-us/microsoft-365/security/defender-endpoint/customize-exploit-protection?view=o365-worldwide>

NEW QUESTION # 216

You have a failover cluster named Cluster1 that contains two Windows Server nodes named Server1 and Server2. Cluster1 hosts highly available Hyper-V virtual machines.

You have a member server named Server3 that runs Windows Server.

You need to implement Cluster-Aware Updating (CUA) on Cluster1 and configure Server3 to manage CUA.

The solution must minimize administrative effort.

What should you install on Server3?

- A. the Host Guardian Service server role
- B. the Windows Server Update Services server role
- C. Windows Admin Center
- D. the Failover Cluster Automation Server feature

Answer: C

NEW QUESTION # 217

You have the on-premises servers shown in the following table.

☐ You have an Azure subscription.

You plan to migrate the servers to Azure generation 2 virtual machines. Which servers can be migrated to Azure by using Azure Migrate?

- A. Server1 only
- B. Server2 only
- C. Server1 and Server2 only
- D. Server1, Server2, and Server3
- E. Server2 and Server3 only

Answer: E

NEW QUESTION # 218

Your network contains an Active Directory Domain Services (AD DS) domain. The domain contains three servers named Server1, Server2, and Server3 that run Windows Server. All the servers are on the same network and have network connectivity.

On Server1, Windows Defender Firewall has a connection security rule that has the following settings:

- * Rule Type: Server-to-server
- * Endpoint 1: Any IP address
- * Endpoint 2: Any IP address
- * Requirements: Require authentication for inbound connections and request authentication for outbound connections
- * Authentication Method: Computer (Kerberos V5)
- * Profile: Domain, Private, Public
- * Name: Rule1

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐
