The countless OGBA-101 Exam candidates have passed their dream The Open Group OGBA-101 certification exam and they all got help from real, valid, and updated OGBA-101 practice questions, You can also trust on Itcertmaster and start preparation with confidence.

The Open Group TOGAF Business Architecture Foundation Exam Sample Questions (Q32-Q37):

NEW QUESTION # 32
Refer to the table below:
Which ADM Phase(s) does this describe?

- A. Phase B
- B. Preliminary Phase
- C. Phase E
- D. Phase B. C and D

Answer: D

Explanation:
The table describes the steps involved in Phase B (Business Architecture), Phase C (Information Systems Architectures), and Phase D (Technology Architecture) of the TOGAF ADM5. These phases are responsible for developing the target architectures for each domain and identifying the gaps between the baseline and target architectures. The table shows the outputs and outcomes of each phase, as well as the essential knowledge required for each phase.
The table describes the iterative cycle of defining requirements, identifying gaps, and creating solutions that occurs throughout the architecture development phases of the TOGAF ADM. This cycle is most prominent in:
Phase B (Business Architecture):
Develop the Business Architecture, identifying gaps between the baseline and desired business capabilities, processes, and information flows.
Define work packages to address these gaps and realize the target business architecture.
Phase C (Information Systems Architectures):
Develop the Data and Application Architectures to support the Business Architecture.
Identify gaps between the baseline and target information systems architectures.
Define work packages to address these gaps and realize the target data and application architectures.
Phase D (Technology Architecture):
Develop the Technology Architecture to support the Data and Application Architectures.
Identify gaps between the baseline and target technology architectures.
Define work packages to address these gaps and realize the target technology architecture.

NEW QUESTION # 33
Complete the sentence. The TOGAF standard covers the development of four architecture domains. Business. Dat a. Technology and_____.

- A. Segment
- B. Application
- C. Capability
- D. Transition

Answer: B

Explanation:
The TOGAF standard covers the development of four architecture domains: Business, Data, Technology, and Application. The Application Architecture domain defines the applications required to process the data and support the business functions.

NEW QUESTION # 34
Consider the following business capability map. where cells of a model are given different colors to represent desired maturity levels (Green (G) = level achieved, yellow (Y) = one level away, red (R) =two or more levels away, purple (P) = missing capability):

Which of the following best describes what this shows?

- A. Agent Management needs immediate attention. Market Planning. Government Relations Management, and HR Management have Issues but are of lower priority Partner Management. Customer Management, and Training Management are new business capabilities that do not exist.
- B. Policy Management. Government Relations Management, and HR Management need immediate attention. Partner Management. Account Management, and Training Management have issues but are of lower priority Agent Management Is a new business capability that does not exist
- C. The Strategic capabilities need more attention in two areas. Policy Management, and Government Relations Management. Agent Management is missing as a Core capability Information Management needs attention as a Supporting Capability.
- D. Agent Management needs immediate attention. Market Planning. HR Management and Government Relations Management need attention. Customer Management. Training Management and Partner Management need attention but are of lower priority.

Answer: B

Explanation:
The business capability map provided uses color coding to represent the maturity levels of various business capabilities in strategic, core, and supporting functions. The colors indicate the current state or priority for development, with red indicating capabilities that are significantly below desired maturity levels and thus require immediate attention. In this case, Policy Management, Government Relations Management, and HR Management are marked as red, signaling the need for urgent improvement. Yellow indicates capabilities that are closer to the desired state but still need attention, while green shows capabilities that have achieved the desired maturity level. Purple indicates a missing capability that does not currently exist in the enterprise, which is the case for Agent Management.

NEW QUESTION # 35
Which of the following are two of the four purposes that help frame the planning horizon, depth, and breadth of an Architecture Project?
1. Architecture to Support Strategy
2. Architecture to Support Capability
3. Architecture to Support Portfolio
4. Architecture to Support Agility

- A. 2 & 3
- B. 2 & 4
- C. 3 & 4
- D. 1 & 3

Answer: D

NEW QUESTION # 36
Which of the following is an analysis technique which is used to show a range of different perspectives on the same set of business capabilities?

- A. Relationship mapping
- B. Heat mapping
- C. Capability decomposition
- D. Information mapping

Answer: B

Explanation:
Heat mapping is an analysis technique used in TOGAF to show a range of different perspectives on the same set of business capabilities. This technique involves visually representing data to highlight areas of importance or concern, such as performance levels, resource allocation, or risk exposure. Heat maps provide a clear and intuitive way to identify strengths, weaknesses, opportunities, and threats within the business capabilities, facilitating better decision-making and prioritization of improvement efforts.

NEW QUESTION # 37

......
