SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q26-Q31):

NEW QUESTION # 26

What do you use to control what is displayed on the mobile device? Note: There are 2 correct answers to this question.

- A. Queue type
- B. User profile
- C. Personalization profile
- D. Presentation profile

Answer: C,D

NEW QUESTION # 27

What is defined with the preparation time in the warehouse order creation rule?

- A. The time required by the system for the picking strategy
- B. The time required by an employee to prepare the processing of the warehouse order
- C. The time required by the resource until it reaches the storage type
- D. The time required by the wave for the creation process

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The preparation time in a warehouse order creation rule (WOCR) represents the time an employee needs to prepare for processing a warehouse order, such as gathering tools or reviewing instructions. Option D ("The time required by an employee to prepare the processing of the warehouse order") is correct, as defined in SPRO: SCM Extended Warehouse Management > Cross-Process Settings > Warehouse Order > Define Creation Rules. Options A, B, and C are incorrect because preparation time doesn't relate to resource travel (A), system picking logic (B), or wave creation (C); those are handled by other settings like travel time or wave templates.

NEW QUESTION # 28

Which standard functions can be executed in the background when you enter an exception code in a radio frequency (RF) transaction? Note: There are 3 correct answers to this question.

- A. Confirm warehouse order
- B. Create bin replenishment
- C. Generate workflow process

- D. Cancel physical inventory document
- E. Block a bin

Answer: B,C,E

NEW QUESTION # 29

What can you do with a hotspot in the warehouse management monitor?

- A. Call the corresponding user interface on the selected object.
- B. Call a method to perform actions on the selected object.
- C. Change from the list view to the form view of the selected object.
- D. Create a basic measurement service.

Answer: B

Explanation:

A hotspot in the SAP Warehouse Management Monitor allows you to:

* B. Call a Method to Perform Actions on the Selected Object:

* Hotspots enable execution of predefined methods, such as triggering actions or navigating to specific functions related to the object in focus.

Incorrect Options:

- * A: Calling user interfaces is not the purpose of hotspots.
- * C: Changing from list view to form view is unrelated to hotspot functionality.
- * D: Creating basic measurement services is outside the scope of hotspots.

NEW QUESTION # 30

How can you configure the storage of products in a temperature-controlled area of a warehouse? Note: There are 3 correct answers to this question.

- A. Create a new storage bin type
- B. Configure a storage type search sequence
- C. Configure a material staging area
- D. Create a new putaway control indicator
- E. Create a new storage type

Answer: B,D,E

Explanation:

Temperature-Controlled Product Storage Configuration

* New Storage Type (B): Define a dedicated storage type for temperature-controlled areas.

* Putaway Control Indicator (D): Classify products for specific storage requirements.

* Storage Type Search Sequence (E): Guide system decisions to allocate products to temperature- controlled zones.

Excluded Options

* A (Storage Bin Type): Defines physical bin attributes, not temperature control.

* C (Material Staging Area): Used for production staging, not storage.

SAP S/4HANA Cloud Private Edition Reference

* Refer to Temperature-Controlled Storage Configuration in SAP EWM.

NEW QUESTION # 31

.....

We can confidently say that Our C-S4EWM-2023 training quiz will help you. First of all, our company is constantly improving our products according to the needs of users.
