질문 # 62

How does the Procurement Operations Desk help ensure requisitions are processed efficiently by the right people?

- A. It randomly distributes requests across all users in a queue
- B. It uses vacation calendars to avoid assigning tasks to unavailable suppliers
- C. It distributes requests based on requisition attributes, user workload, and defined queues.
- D. It escalates all high-priority requisitions directly to Finance for review

정답: C

설명:

Solution:

The correct answer-based on learning.sap.com content-is:

* It distributes requests based on requisition attributes, user workload, and defined queues. SAP Learning From the documentation:

* The Procurement Operations Desk (POD) uses configurable queues that automatically direct requisitions to appropriate approver teams based on predefined criteria such as commodity type, purchasing unit, or other requisition attributes. SAP Learning

* It also supports workload balancing, considering each user's current workload and avoiding assignment to users on vacation. SAP Learning Therefore option A accurately describes how the POD ensures requisitions are processed efficiently by the right people.

질문 # 65

Which of the following applies to Edit Access in SAP Ariba Contract Compliance? Note: There are 3 correct answers to this question.

- A. You must be a contract approver to have edit access.
- B. Edit access determines who can approve the contract.
- C. Edit access is available in both Release and No Release order contracts.
- D. Edit access is configured separately from release access
- E. Only users or groups with edit access can change contract terms.

정답: C,D,E

설명:

* In both Release Order Contracts and No Release Order Contracts, the system supports configuring Edit Access via the contract request settings. SAP Learning+1 Incorrect Options:

* C. You must be a contract approver to have edit access.

* This is not accurate. A user having Edit Access does not necessarily need to be a contract approver. Edit permissions are separate from approval authority. SAP Learning+1

* D. Edit access determines who can approve the contract.

* Not correct. Edit Access only allows users to modify the contract. Approval authority is managed separately through approval rules and workflows. SAP Learning+1 Conclusion (the three correct answers):

* A. Only users or groups with edit access can change contract terms.

* B. Edit access is configured separately from release access.

* E. Edit access is available in both Release and No Release order contracts.

Explanation:

Solution:

From the content on learning.sap.com regarding Edit Access in SAP Ariba Contract Compliance, these are the accurate statements (three correct answers):

Correct answers:

* Only users or groups with edit access can change contract terms.

* As described in Finalizing Contract Request Settings, only those users or groups explicitly given Edit Access have the permission to make changes to contract terms. SAP Learning

* B. Edit access is configured separately from release access.

* The Access Control options allow you to independently manage both Release Access and Edit Access, meaning they are separate configurations. SAP Learning
