APMG-International ISO-IEC-27001-Foundation Valid Dumps Files, Pass4sure ISO-IEC-27001-Foundation Study Materials

EduDump is unlike other exam materials that are available on the market, ISO-IEC-27001-Foundation study torrent specially proposed different versions to allow you to learn not only on paper, but also to use mobile phones to learn. You can choose the version of ISO-IEC-27001-Foundation training guide according to your interests and habits. And if you buy the value pack, you have all of the three versions, the price is quite preferential and you can enjoy all of the study experiences. This means you can study ISO-IEC-27001-Foundation Exam Engine anytime and anyplace for the convenience these three versions bring.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q28-Q33):

NEW QUESTION # 28

Which statement describes a requirement of an internal audit programme?

- **A. The programme must consider the importance of the target processes**
- B. Previous audit results are disregarded to ensure objectivity
- C. The programme must use third party auditors to ensure impartiality
- D. All processes must be audited within a 3-year cycle

Answer: A

Explanation:

Clause 9.2.2 of ISO/IEC 27001:2022 specifies requirements for the internal audit programme. It requires organizations to: "Plan, establish, implement and maintain an audit programme(s) including the frequency, methods, responsibilities, planning requirements and reporting, which shall take into consideration the importance of the processes concerned, changes affecting the organization, and the results of previous audits." This makes option C correct, since importance of the processes is a required factor. Option A is incorrect because audits do not need third-party auditors; objectivity can be maintained internally if independence is respected. Option B is wrong because previous audit results must be considered, not disregarded. Option D is also incorrect - the standard does not specify a 3-year cycle; frequency depends on risks and needs. Thus, the correct verified answer is C.

NEW QUESTION # 29

Identify the missing word in the following sentence.

The organization shall determine the [?] of interested parties relevant to information security.

- A. influence
- B. number
- **C. requirements**
- D. structure

Answer: C

Explanation:

Clause 4.2 of ISO/IEC 27001:2022 states:

"The organization shall determine: a) interested parties that are relevant to the information security management system; b) the relevant requirements of these interested parties; c) which of these requirements will be addressed through the ISMS." This confirms that the missing word is requirements. Neither number, structure, nor influence are specified in the standard.

NEW QUESTION # 30

Which trend in information security performance is required to be considered during a management review of the ISMS?

- A. Validity of information continuity controls
- B. Relevant external and internal requirements changes
- C. Decisions related to continual improvement opportunities
- **D. Achievement of information security objectives**

Answer: D

Explanation:

Clause 9.3.2 (Management Review Inputs) states that management reviews shall include:

"c) information on the information security performance, including trends in: (1) nonconformities and corrective actions; (2) monitoring and measurement results; (3) audit results; and (4) fulfilment of information security objectives." This makes achievement of information security objectives (option A) a required trend to be considered.

While external/internal requirements (C) and continual improvement opportunities (D) are also part of management review inputs, they are not specifically listed under "trends in performance." Option B is outside the direct requirement.

Thus, the verified answer is A.

NEW QUESTION # 31

Which is a control title within Annex A of ISO/IEC 27001?

- **A. Information security in supplier relationships**
- B. Change control
- C. Responsibilities and procedures
- D. Protection of documents

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled: "Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier agreements and relationships. It is part of the Organizational Controls theme. The other options are not control titles in Annex A:

* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.

* "Protection of documents" (C) relates to document control but is not a specific Annex A control.

* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.

Therefore, the correct Annex A control title is A: Information security in supplier relationships.

NEW QUESTION # 32

Identify the missing words in the following sentence.

The organization shall establish, implement, maintain and [?] an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document.

- A. report on
- **B. continually improve**
- C. enforce standards for
- D. communicate the importance of

Answer: B

Explanation:

Clause 4.4 of ISO/IEC 27001:2022 states:

"The organization shall establish, implement, maintain and continually improve an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document." This requirement highlights that an ISMS is not static; it must evolve continuously to adapt to new risks, technologies, and business changes. Options A, C, and D are not mentioned in the clause. The continual improvement cycle is central to ISO standards, aligning with the Plan-Do-Check-Act (PDCA) model.

Thus, the missing words are "continually improve."

NEW QUESTION # 33

.....

EduDump regularly updates ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) practice exam material to ensure that it keeps in line with the test. In the same way, EduDump provides a free demo before you purchase so that you may know the quality of the APMG-International ISO-IEC-27001-Foundation dumps. Similarly, the EduDump ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) practice test creates an actual exam scenario on each and every step so that you may be well prepared before your actual ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) examination time. Hence, it saves you time and money.
