We regularly update our valid ISTQB ISTQB-CTAL-TA certification test preparation material to keep them in line with the current ISTQB ISTQB-CTAL-TA exam content and industry standards. Professionals from different countries give us their valuable feedback to refine ISTQB-CTAL-TA Actual Dumps even more.

ISTQB (ISTQB CTAL-TA) ISTQB Certified Tester Advanced Level - Test Analyst (Syllabus 2012) Sample Questions (Q69-Q74):

NEW QUESTION # 69
An airline provides self-service check-in kiosks for passengers. The following use case has been created for the self-service check-in process.
Coverage Rules:
* One test case should be designed for the basic behavior
* One test case should be designed for each alternate and error handling behavior Applying these rules to the Self Service Check-in Use Case, how many test cases should be designed?
SELECT ONE OPTION

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
Comprehensive and Detailed in Depth Explanation:
To determine the number of test cases, we follow the coverage rules:
* Basic Behavior:One test case for the standard check-in process without errors (1 test case).
* Error Handling (Exceptions):There are 7 exceptions listed (E1 to E7), and each needs a separate test case.
Hence, the total number of test cases is1 (basic) + 7 (error scenarios) = 8.
Therefore, the correct answer isB (8).

NEW QUESTION # 70
The following document has been produced as part of the replacement of an internal Customer Relationship Management (CRM) application. The replacement application should not differ from the current CRM application, and the documentation reflects this aspiration, with seven specific requirements listed.
Document:New CRM Overview-20nn-1 A
* CRM Replacement
* Author:Andrew Smith
* Date:26-01-20nn
* Version:0.04
The following are individual requirements:
* There are no new screens in the replacement CRM application
* The screen layouts match the existing CRM application
* Screen navigation conforms to the internal company standards
* Data will be displayed within 4 seconds
* Screen US002B layout is amended to introduce the ability to populate a new data item for Financial Conduct Authority registration number (optional field - to be reported from the start of the next tax year). This is a numeric item, unique to any company.
* Security access will be controlled by SSO (Single Sign-On) from the users' network logon
* Users without authorized access will not see any CRM screen
The requirements will be reviewed using a standard checklist:
a. Requirements should be testable
b. Each requirement should be consistent with other requirements
c. Each requirement should be unambiguous
d. Each requirement should have a unique identifier

e. Documents should be versioned, dated, and the author specified
Which checklist items would identify issues in this requirements document?
SELECT ONE OPTION:

- A. a, c
- B. b, e
- C. b, d
- D. d, e

Answer: D

Explanation:
Comprehensive and Detailed In-Depth Explanation:
* b)Consistency is checked and seems fine as no conflicting requirements are stated.
* d)Correct. The requirements listed are not uniquely identified, which can cause confusion during testing.
* e)Correct. The document has a version number, date, and author specified, so this is met.
* a)The requirements are generally testable.
* c)The requirements are generally clear and unambiguous.
Therefore, the correct answer isB (d, e).

NEW QUESTION # 71
How many cases are required to test the tax system specification as described below, using a decision table which is not collapsed?
Tax system
A tax system needs to be updated due to new legislation. For a person with a salary of less than € 20.000 and who is married, the tax needs to be recalculated. If the person also has more than two and less than five children, an additional 10% reduction is applicable.

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
Eight cases are required to test the tax system specification using a decision table that is not collapsed. A decision table is a technique that shows the combinations of conditions and actions for a given scenario. A decision table that is not collapsed contains all possible combinations of conditions and actions, regardless of whether they are valid or not. The conditions for this scenario are:
* Salary less than €20 000
* Married
* Number of children more than two and less than five
The number of cases is equal to the number of possible combinations of these conditions, which is 2
