High-quality Answers 2V0-32.24 Free & Accurate VMware Certification Training - Accurate VMware VMware Cloud Operations 8.x Professional V2

Our website just believe in offering cost-efficient and time-saving 2V0-32.24 exam braindumps to our customers that help them get high passing score easier. Our valid 2V0-32.24 test questions can be instantly downloaded and easy to understand with our 100% correct exam answers. One-year free update right will enable you get the latest 2V0-32.24 VCE Dumps anytime and you just need to check your mailbox.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q13-Q18):

NEW QUESTION # 13

When setting up the vRealize Log Insight integration within vRealize Operations what do administrators configure within vRealize Operations?

- A. The vRealize Log Insight management pack
- B. The vRealize Log Insight troubleshooting dashboard
- C. The vRealize Log Insight collector group instance
- D. The vRealize Log Insight content pack

Answer: A

Explanation:

When setting up vRealize Log Insight integration within vRealize Operations, administrators configure the vRealize Log Insight management pack in vRealize Operations. This management pack allows vRealize Operations to integrate with vRealize Log Insight, enabling the collection and analysis of log data from vRealize Log Insight within the vRealize Operations platform. It provides enhanced visibility and monitoring for logs, allowing users to correlate performance data with log data.

NEW QUESTION # 14

An administrator is setting up vSphere integration for syslog collection from ESXi hosts in vRealize Log Insight. Which one is the correct permission required in vSphere?

- A. Host.Configuration.Change Settings
- B. Security profile and firewall.Configuration
- C. Configuration.AdvancedSettings.Host
- D. Host.Network Configuration.Configuration

Answer: A

Explanation:

To configure vSphere integration for syslog collection from ESXi hosts in vRealize Log Insight, the administrator needs the Host.Configuration.Change Settings permission. This permission allows the user to modify the settings for the host, including configuring syslog settings, which are required for sending logs to vRealize Log Insight.

NEW QUESTION # 15

Forty days ago, an administrator provisioned a Virtual Machine (vm-01) in preparation for a new project. The project has now been delayed due to budgetary constraints. As part of the monthly service management checks, a second administrator executes the reclaim action on all idle virtual machines and vm-01 is listed.

The second administrator accidentally reclaims all idle virtual machines including vm-01.

What action can the administrator complete to prevent this scenario from happening again?

- A. Increase the default value of the Exclude VM provisioned in the last x days setting.
- B. Create a new policy that disables the capacity reclamation on the policy and apply the policy to the parent object hosting new virtual machines.
- C. Disable Capacity reclamation on the policy applied to new virtual machines.
- D. Create a dynamic group with membership based on vSphere tags so that all new virtual machines are included and then exclude the entire group from reclaim analysis.

Answer: A

Explanation:

To prevent virtual machines like vm-01 from being reclaimed too early, the administrator can increase the default value of the Exclude VM provisioned in the last x days setting. This ensures that newly provisioned VMs, like vm-01, will be excluded from the reclamation process for a longer period (e.g., 30, 60, or more days), preventing accidental reclamation of VMs that are still in use or under consideration for future projects.

This action directly addresses the issue of accidentally reclaiming recently provisioned virtual machines.

NEW QUESTION # 16

An administrator has been tasked with implementing a solution to meet the following requirements:

Provide monitoring and predictive analytics across enterprise database solutions
Provide monitoring and predictive analytics across enterprise networking solutions
Provide performance data for common enterprise application solutions
Provide performance data for VMware Tanzu Application Service
Present all collected data to administrators within a single portal
Provide vendor support for the deployed solution
Which solution could help the administrator complete this task?

- A. vRealize Log Insight and vRealize Suite Lifecycle Manager
- B. vRealize Operations using the Endpoint Operations Agent
- C. vRealize Operations using a community created management pack
- **D. vRealize Operations and vRealize True Visibility Suite**

Answer: D

Explanation:

vRealize Operations, combined with the vRealize True Visibility Suite, provides comprehensive monitoring and predictive analytics across various enterprise solutions such as databases, networking, applications, and VMware Tanzu Application Service. The True Visibility Suite includes a wide range of management packs for different technologies, which allows the collection and visualization of performance data for these enterprise solutions in a single portal. Additionally, the suite offers vendor support, ensuring reliable integration and support for the deployed solution.

NEW QUESTION # 17

An administrator has been tasked with deploying vRealize Operations using a new vRealize Suite Lifecycle Manager (vRSLCM) instance that has already been configured with VMware Identity Manager.

Which item must be configured in vRSLCM before the administrator can complete the deployment?

- A. A valid license for vRealize Suite Lifecycle Manager
- B. Outbound notifications settings
- C. A valid license for vRealize Suite
- **D. A registered authentication provider**

Answer: D

Explanation:

Before completing the deployment of vRealize Operations through vRSLCM, an authentication provider must be registered. This step ensures that users can authenticate using appropriate credentials, which is especially important when VMware Identity Manager is already configured. Without a registered authentication provider, users would not be able to access the environment or perform necessary tasks.

NEW QUESTION # 18

.....

It is known to us that more and more companies start to pay high attention to the 2V0-32.24 certification of the candidates. Because these leaders of company have difficulty in having a deep understanding of these candidates, may it is the best and fast way for all leaders to choose the excellent workers for their company by the 2V0-32.24 Certification that the candidates have gained. There is no doubt that the 2V0-32.24 certification has become more and more important for a lot of people. And with our 2V0-32.24 exam questions, you can get the 2V0-32.24 certification easily.

2V0-32.24 Test Simulator: <https://www.it-tests.com/2V0-32.24.html>

In face of the VMware 2V0-32.24 exam, everyone stands on the same starting line, and those who are not excellent enough must do more. The benefit after you getting 2V0-32.24 exam certification is immeasurable. As long as you pay close attention to our 2V0-32.24 exam study files, you find lots of surprises. So our 2V0-32.24 practice materials are perfect paragon in this industry full of elucidating content for exam candidates of various degrees to use for reference.

In clear and simple language, he discusses everything 2V0-32.24 New Dumps Free from troubleshooting specific problems to working with difficult users. For the people who are busy with work and family and have no enough time for 2V0-32.24 test preparation, the PDF file of 2V0-32.24 Training Material is the best choice.

It-Tests will Help You in Passing the VMware 2V0-32.24 Certification Exam

In face of the VMware 2V0-32.24 exam, everyone stands on the same starting line, and those who are not excellent enough must do more. The benefit after you getting 2V0-32.24 exam certification is immeasurable.
