# CIPS Supplier Relationships Exam Training Guide Improve Your Efficiency - PracticeTorrent

PracticeTorrent L4M6 practice test simulates the real CIPS L4M6 exam environment. This situation boosts the candidate's performance and enhances their confidence. After attempting the L4M6 practice exams, candidates become more familiar with a real CIPS Supplier Relationships L4M6 Exam environment and develop the stamina to sit for several hours consecutively to complete the L4M6 exam. This way, the actual CIPS Supplier Relationships L4M6 exam becomes much easier for them to handle.

CIPS L4M6 Exam, also known as the CIPS Supplier Relationships exam, is a comprehensive assessment that evaluates a candidate's knowledge and understanding of the supplier relationship management process. L4M6 exam is designed for procurement professionals who want to enhance their skills in managing supplier relationships and improve the effectiveness of their procurement strategies. It is an essential exam for individuals who have completed the CIPS Level 4 Diploma in Procurement and Supply and want to progress further in their procurement career.

## CIPS Supplier Relationships Sample Questions (Q72-Q77):

### NEW QUESTION # 72

Which circumstances make a buyer more attractive to the supplier?

- A. Where the buyer exercises a stringent code of conduct
- B. Where the brand profile is high
- C. When the buyer negotiates longer credit terms
- D. When the buyer is very procedural in its systems

**Answer: A,B**

Explanation:

Buyers with a strong brand profile and adherence to ethical standards attract suppliers, as they provide market prestige and assurance of fair practices. This aligns with CIPS's emphasis on ethical procurement.

### NEW QUESTION # 73

Products or services that are more suitable for partnership sourcing match which of the following criteria?

- A. 1 and 2 only
- B. 2 and 4 only
- C. 1 and 3 only
- D. 2 and 3 only

**Answer: A**

Explanation:

Partnership sourcing is suitable for products that contribute to the buying organization's unique selling point (USP) and for critical products on which key customers depend. This approach ensures strategic alignment and mutual benefits for both parties, focusing on collaboration rather than cost alone.

### NEW QUESTION # 74

In the 1990s, a manufacturer of portable music players partnered with a mini-disk producer. The aim of the partnership was to reduce the size and cost of the devices and enhance flexibility. Sales of the product after launch were low due to a competitive launch of small digital players, which offered better flexibility to customers at a comparable price. The partners suffered substantial loss and never recovered the investment. In order to mitigate the risk described, what should both partners have considered before investing in the product? Select the TWO that apply.

- A. Customer price expectation
- B. Cost of investment
- C. Fast charging markers
- D. New substitute technology
- E. Legal implication of partnering

**Answer: A,D**

Explanation:

Understanding customer price expectations and the potential for substitute technology are critical in product development to anticipate market trends and competitive threats, aligning with risk management principles.

#### NEW QUESTION # 75

Varying levels of commitment is one reason why many partnerships fail. Why is this?

- A. One party doesn't fulfil their KPIs
- **B. It can lead to a lack of trust**
- C. Sufficient time and resources are put in
- D. Less profit is made.

**Answer: B**

Explanation:

The correct answer is 'It can lead to a lack of trust' - this is a quote from p.162. The other answers are all incorrect; in a partnership KPIs are joint between the parties- so there wouldn't be a situation where one party doesn't fulfil their KPIs. Commitment doesn't necessarily have a direct correlation with profit so that answer is incorrect. 'Sufficient time and resources are put in' is a positive thing, so can't be a reason who a partnership fails.

#### NEW QUESTION # 76

A hospital located in a remote area experiences difficulties in attracting staff and regularly uses a staffing agency. Human resourcing is critical due to patient safety risks. The agency has been categorised as a strategic supplier. Which sourcing relationship should be adopted?

- A. Tactical sourcing
- B. Transactional sourcing
- C. Competitive sourcing
- **D. Partnership sourcing**

**Answer: D**

Explanation:

Strategic suppliers are those that are critical to business continuity and risk management. CIPS states that such suppliers require:

\* Long-term commitment

\* High levels of trust

\* Joint planning and collaboration

Given the impact on patient safety and service continuity, a partnership sourcing relationship is appropriate, enabling shared responsibility, performance management, and continuous improvement.

Transactional or competitive sourcing would not provide the stability required.
