- A. Library of Pre-Made Content
- B. FedRAMP Certified Platform
- C. SAP Ecosystem Integration
- D. DeepUI Technology

**Answer: D**

Explanation:

C . DeepUI Technology

Why DeepUI?

It uses advanced AI-driven element recognition to understand applications like humans do, automatically adjusting guidance content when application interfaces change-ensuring reliability and consistency in user support.

Why not the others?

\* A. SAP Ecosystem Integration - While WalkMe integrates with SAP, this is not the unique AI engine powering the platform.

\* B. Library of Pre-Made Content - WalkMe offers content building tools, but these aren't the core technology that uses AI context.

- D. To provide real-time analytics for identifying inefficiencies

**Answer: B**

Explanation:

It enables companies to turn data-driven insights into action effectively.

Why other options aren't correct:

\* A. To automate application updates - This doesn't fall under the Action pillar's scope, which focuses on guided workflows and in-app support, not software maintenance.

\* C. To ensure intuitive user experiences - While intuitive experiences are part of the Experience pillar (with smart walkthroughs, AI chat, etc.), the Action pillar focuses specifically on building and rolling out guidance content

\* D. To provide real-time analytics for identifying inefficiencies - This relates to the Data pillar, which handles analytics and insights, not the Action pillar.

B . By offering proactive, contextual guidance through AI-powered tools  WalkMe empowers users by delivering real-time, in-app guidance tailored to individual workflows. Specifically, their contextual AI tools-like the new "Action Bar"-proactively suggest next steps, remind users of critical tasks, and offer support based on ongoing context across applications. This reduces disruptions, closes adoption gaps, and accelerates productivity recovery Why the other options don't apply:

\* A. By automating recruitment processes

WalkMe focuses on user productivity and adoption, not HR or recruiting workflows.

\* C. By outsourcing workflow management to third-party providers

WalkMe provides in-house software tools and guidance-not workflow outsourcing.
