Salesforce Certified B2C Commerce Architect Sample Questions (Q60-Q65):

NEW QUESTION # 60

During the testing of the login form, QA finds out that the first time the user can log in, but every other login attempt from another computer leads to the homepage and the basket being emptied. Developers tried to debug the issue, but when they add a breakpoint to the login action, it is not hit by the debugger.

What should the Architect recommend developers to check?

- A. Add remote include for the login page
- B. Remove CSRF protection from Login Form Action.
- C. Add disable cache page in the template ISML - `<is:cache status--off"/>`.
- **D. Check Login Form and any included templates for includes that enable page caching.**

Answer: D

NEW QUESTION # 61

Northern Trail Outfitters (NTO) wants to use Salesforce as a front end for creating accounts using the lead-to-opportunity process. When an opportunity is closed or won, an order must be created in the ERP, which manages orders. The organization has an Enterprise Service Bus (ESB) that supports the CometD protocol.

Which two integration approaches or steps should a Solution Architect recommend for this scenario?

Choose 2 answers

- A. Define a new platform event in the back-end system for the order details and then create a Process Builder process to initiate the platform event when the opportunity status changes to Closed-Won.
- **B. Enable ESB to publish to the platform event using the CometD protocol and notify the back-end ERP system to create the order synchronously.**
- **C. Enable ESB to subscribe to the platform event using the CometD protocol and notify the back-end ERP system to create the order asynchronously.**
- D. Define a new platform event in Salesforce and then create a Process Builder process to publish a platform event when the opportunity status changes to Closed-Won.

Answer: B,C

NEW QUESTION # 62

An organization chose a multi-cloud solution that is comprised of Service Cloud and B2C Commerce. The organization now wants to ensure that the theme of its self-service portal is consistent with the theme of its B2C Commerce storefront.

How should a Solution Architect ensure that this requirement is met?

- A. Set the value of the Style Sheet URL setting to match the publicly-accessible URL of the style sheet the organization wants to use.
- B. Set the value of the Portal Theme URL setting to match the publicly-accessible URL of the style sheet the organization wants to use.
- **C. Make a copy of the appropriate .ess file from the organization's web server and upload it to the self-service portal.**
- D. Copy any relevant .ess code from the organization's website and paste it into the pages for the self-service portal in Page Builder.

Answer: C

NEW QUESTION # 63

A company has B2C Commerce and Marketing Cloud. The Marketing team wants to match up the purchasing data from B2C Commerce to the Marketing Cloud subscriber data.

Which two objects from B2C Commerce should a Solution Architect map to Marketing Cloud in order to meet the company's

needs?

Choose 2 answers

- A. Profile
- B. Customer
- **C. Orders**
- D. Contact

Answer: C

NEW QUESTION # 64

An ecommerce site has dynamic shipping cost calculation. it allows the customers to see their potential shipping costs on the Product Detail Page before adding an item to the cart.

For this feature, shipping costs are calculated using the following logic:

- * Set the shipping method on the Basket
- * Add the item to the basket, calculate the basket total and get the shipping cost for this method
- * Remove the item from the Basket to restore the original state
- * The above process is repeated for each shipping method

During the testing it was discovered that the above code violates the `spi.basket.addResolveInSameRequest` quota.

What should the Architect do to resolve this issue and maintain the business requirement?

- A. Wrap each Individual step of the process its own transaction Instead of using one transaction for all steps.
- **B. Omit the calculation of shipping cost until the customer is ready to check out and has chosen the shipping method they want to**
- C. Omit the removal of the Item and speed up the process for the customer by adding the product to the basket for them.
- D. Wrap the adding of product and shipping cost calculation in a transaction which is then rolled back to restore the original state

Answer: B
