P.S. Free & New PL-400 dumps are available on Google Drive shared by PassLeaderVCE: [https://drive.google.com/open?id=1gCDjXz mh\\_FRveSV2opp8kjML-IDu5gSr](https://drive.google.com/open?id=1gCDjXz mh_FRveSV2opp8kjML-IDu5gSr)

The third and last format is the Microsoft PL-400 desktop practice exam software form that can be used without an active internet connection. This software works offline on the Windows operating system. The practice exams benefit your preparation because you can attempt them multiple times to improve yourself for the Microsoft PL-400 Certification test. Our Microsoft Power Platform Developer (PL-400) exam dumps are customizable, so you can set the time and questions according to your needs.

Microsoft PL-400: Microsoft Power Platform Developer is an essential certification exam for developers who work with Power Platform technologies. PL-400 exam validates a candidate's knowledge of the Power Platform's various components and their ability to create, configure, and deploy custom solutions. Passing the exam can help developers advance their careers and become more valuable to their organizations.

The PL-400 exam measures a candidate's ability to design, develop, secure, and troubleshoot Power Platform solutions. It includes various topics such as creating and customizing model-driven apps, designing and developing canvas apps, creating and managing Power Automate workflows, creating and managing chatbots with Power Virtual Agents, and integrating Power BI with other Power Platform services. Passing the PL-400 Exam demonstrates that a candidate has the necessary skills and knowledge to create and customize business solutions with Microsoft Power Platform, making them a valuable asset to any organization looking to leverage these powerful tools.

If you want to spend less time on preparing for your PL-400 exam, if you want to pass your PL-400 exam and get the certification in a short time, our PL-400 Study Materials will be your best choice to help you achieve your dream. Only studying with our PL-400 exam questions for 20 to 30 hours, you will be able to pass the PL-400 exam with confidence.

Passing the Microsoft PL-400 Exam will give individuals a competitive edge in the job market. Employers are always looking for skilled professionals who can develop custom business solutions using the latest technologies. Certification in Microsoft Power Platform Developer will help individuals stand out from the crowd and increase their chances of landing their dream job.

## Microsoft Power Platform Developer Sample Questions (Q170-Q175):

### NEW QUESTION # 170

A create a model-driven app. You run Solution checker. The tool displays the following error:

Solution checker fails to export solutions with model-driven app components.

You need to resolve the issue.

What should you do?

- A. Assign the Environment Maker security role to your user ID
- B. Assign the System Administrator security role to your user ID
- C. Disable the Power Apps Checker application user
- **D. Assign the Environment Maker security role to the Power Apps Checker application user**
- E. Manually export the solution before running Solution checker

**Answer: D**

Explanation:

To resolve this issue, grant the Environment Maker security role to the Power Apps Checker application user.

Note: Solution checker fails to export solutions with model-driven app components. If a solution contains a model-driven app, Solution Checker might fail to export the solution for analysis. This error is caused by role-based security for sharing of apps. If the Power Apps Checker application user does not have appropriate access to model-driven apps, any solutions containing them will fail to export with solution checker.

### NEW QUESTION # 171

You have the following JavaScript function: (Line numbers are included for reference only.)

```
01 function displayIconTooltip(rowData, userLCID)
02 {
03   var imgName = "";
04   var tooltip = "Relationship Health";
05   var str = JSON.parse(rowData);
06   var prevrev = str.new_previousyearannualrevenue_Value;
07   var rev = str.revenue_Value;
08   var health = parseFloat(new) - parseFloat(prevrev);
09   if (health > 0)
10     imgName = "new_good";
11   else if (health == 0)
12     imgName = "new_warm";
13   else
14     imgName = "new_bad";
15   var resultarray = [imgName, tooltip];
16   return resultarray;
```

The Annual Revenue view column is configured to call the function as shown in the Column Properties exhibit. (Click the Change Column Properties tab.)

Users report that the icons that appear in the Active Account view are incorrect, as shown in the Active Accounts View exhibit. (Click the Active Accounts View tab.)

You need to determine why the incorrect icons are being displayed.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Statements	Yes	No
If the Previous Year Annual Revenue column is in the Active Accounts view but has a null value, the selected imgName is set to <b>new_good</b> for Accounts that have an Annual Revenue greater than 0.	<input type="radio"/>	<input type="radio"/>
If the Previous Year Annual Revenue column is included in the Active Accounts view, and exception is raised and an error is displayed.	<input type="radio"/>	<input type="radio"/>
The userLCID can be used to gain access to users' Language settings in personal options and change the tooltip to their chosen language.	<input type="radio"/>	<input type="radio"/>
The imgName refers to an image that is a URL to an external image file.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statements	Yes	No
If the Previous Year Annual Revenue column is in the Active Accounts view but has a null value, the selected imgName is set to <b>new_good</b> for Accounts that have an Annual Revenue greater than 0.	<input type="radio"/>	<input checked="" type="radio"/>
If the Previous Year Annual Revenue column is included in the Active Accounts view, and exception is raised and an error is displayed.	<input type="radio"/>	<input checked="" type="radio"/>
The userLCID can be used to gain access to users' Language settings in personal options and change the tooltip to their chosen language.	<input checked="" type="radio"/>	<input type="radio"/>
The imgName refers to an image that is a URL to an external image file.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Statements	Yes	No
If the Previous Year Annual Revenue column is in the Active Accounts view but has a null value, the selected imgName is set to <b>new_good</b> for Accounts that have an Annual Revenue greater than 0.	<input type="radio"/>	<input checked="" type="radio"/>

**NEW QUESTION # 172**

You are training a group of makers to use Power Automate.

You have the following expressions:

Name	Expression
1	<code>outputs('Get_Item').statusCode</code>
2	<code>if from: "@result('MyScope')"</code>

You need to identify what each expression is doing.

What does each expression do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Expression	Action
1	<input type="checkbox"/> Return the statuscode at runtime. <input type="checkbox"/> Return the output to the statuscode at runtime. <input type="checkbox"/> Return the Get_Item at runtime.
2	<input type="checkbox"/> Return MyScope as all the action items. <input type="checkbox"/> Return all the variables from all actions from MyScope. <input type="checkbox"/> Return all the results from all actions from MyScope.

**Answer:**

Explanation:

### NEW QUESTION # 173

You need to modify Microsoft flow to resolve CustomerCs issue. What should you do?

- A. Add b condition containing approval hierarchy.
- B. Add a data operation that specifies the false conditions.
- C. Add a configure run that is set to Is successful.
- D. Add a timeout setting to the approval flow.

**Answer: D**

Explanation:  
Explanation

Scenario: CustomerC requested additional information from the parts department through the customer survey and has not received a response one week later.

Imagine having a process where you want to give someone a couple of days to reply to an approval. If that someone doesn't respond in time, you want to assign a new approval to another person or group of people. To achieve this you can set the timeout in the action settings.

### NEW QUESTION # 174

A company implements Dynamics 365 Customer Service. The company deploys synchronous plug-ins for the PreOperation and PostOperation stages on create and for the PostOperation stage on update for processing different case type.

Users experience errors when updating cases. The plug-in trace log files show that the PosOperation plug-in update of case times out after two minutes.

You perform basic testing and discover that this plug-in is triggered on every update of a case. You examine the code and discover that the plug-in retrieves all columns for the updated case record performing its work.

You need to reduce the number of errors. You need to achieve this goal with the test amount of changes.

Solution: In the Plug-in Registration tool, update the plug-in step and increase the Execution Order.

Does the solution meet the goal?

- A. Yes
- B. No

**Answer: B**

### NEW QUESTION # 175

.....
