## Salesforce Communications Cloud Accredited Professional (AP) Exam Sample Questions (Q63-Q68):

### NEW QUESTION # 63

ABC communication is using communication cloud for managing its product catalog. The inventory maintains SKUs and enter data related to SKUs. A consultant is analyzing options to sync the SKU data with communication cloud EPC products in the product catalog.

Which communication cloud feature should consultant recommend for this use case to minimize the customer issue

- A. Export the SKU data as product and attribute from the inventory management system in .csv format, create a custom object to .....trigger on custom object to insert product and related records in the product catalog.
- **B. Integrate communication cloud with inventory management system using enterprise product catalog REST APIs. The inventory will expose the EPC API to create the product and product related records in the product catalog.**
- C. Integrate communication cloud with the inventory management system using CPQ API getCartProducts. The inventory management system expose EPC API to create product and create records in the product Catalog.
- D. Create a custom trigger to insert product and related records in the product catalog, Export data related attribute from inventory management system in .csv format and related records in the product catalog.

**Answer: B**

### NEW QUESTION # 64

UC rolling out new offer, which must be fulfilled using industries order management. Orchestration must integrate with the provisioning system, which accepts a different payload for activating the service What is the recommendation approach for designing the orchestration while minimizing unnecessary configurations?

- **A. Create one orchestration plan definition with two orchestration definition having mutually exclusive condition. Configure the scenario to include both Add and disconnect actions.**
- B. Create two orchestration plan, one having the activation Orchestration item and other with the deactivation. Configure scenario to map activation to add action and deactivate
- C. Create two orchestration plans, one having the activation orchestration item and other with deactivation item. Configure the orchestration items based on the products
- D. Create two orchestration plan, one having the activation Orchestration item and other with the deactivation. Configure one scenario to map activation to Add action and deactivation to disconnect action

**Answer: A**

Explanation:

Creating one orchestration plan with mutually exclusive conditions for activation and deactivation orchestration items (C) minimizes unnecessary configurations. This streamlined approach allows for efficient management of service activations and deactivations within a single orchestration framework. References:

Salesforce Industries Order Management documentation on orchestration plan design.

### NEW QUESTION # 65

ABC telecom offer advanced B2B connectivity products to companies with multiple service quotes in different regions based quotes and 1000 line items per quote.

Which application suits supports this scnerio?

- **A. Enterprise sales management**
- B. Advertising sales management
- C. Subscriber lifecycle management

- D. Multiple subscription management

**Answer: A**

#### NEW QUESTION # 66

ABC cloud is using communication cloud's order Management for the provision and activations of service.

As part of the integration with ERP, the ERP order identifiers are required to be saved in the synchronous response in the SFI order record for the reference and troubleshooting purpose. A consultant has started their design using existing velocity process libraries. What solution should consultant propose to save ERP order identifiers back to salesforce Order record.

- **A. Configure response data raptor bundle to process create response from ERP and save returned ERP order identifier to SFI order record**
- B. Enhance OOTB integration adaptor to process CREATE response from ERP and save returned ERP order identifier to SFI order record
- C. Configure integration procedure in conjunction with Auto Task to perform CREATE order in ERP and process response to save return from ERP order identifiers using Load DataRaptor.
- D. Configure GET ERP order callout task straight after the callout task that create an order in ERP.  
Enhance out of the box integration adaptor to process GET response from ERP and save returned ERP order identifier to SFI order record

**Answer: A**

Explanation:

To save ERP order identifiers back to the Salesforce Order record, configuring a Response DataRaptor bundle to process the create response from the ERP and save the returned ERP order identifier to the Salesforce Industries Order (SFI order) record is a streamlined approach. This leverages Salesforce Industries ' out-of-the- box capabilities for data transformation and integration, facilitating efficient and reliable data capture from external systems. References:Salesforce Industries documentation on DataRaptor and integration patterns.

#### NEW QUESTION # 67

United Telecom has completed the high level design (HLD) phase and has information about the objects involved, data volumes, and file requirements, which three steps should a consultant take to assess the storage need on communication cloud.

- **A. Analyze the storage usage of the existing legacy system**
- **B. Access the archiving strategy and determine how storage will be cleared through archiving.**
- C. Identify the storage needs between data storage and file storage.
- D. Analyze an external data storage system for more cost effective data storage
- **E. Calculate the file and data storage required based on required data volume and file attachment requirements.**

**Answer: A,B,E**

#### NEW QUESTION # 68

.....

In fact, purchasing our Salesforce-Communications-Cloud Actual Test means you have been half success. Good decision is of great significance if you want to pass the Salesforce-Communications-Cloud exam for the first time. That is to say, if you decide to choose our study materials, you will pass your exam at your first attempt. Not only that, we also provide all candidates with free demo to check our product, it is believed that our free demo will completely conquer you after trying.
