

Latest H12-821_V1.0 Exam Cost & H12-821_V1.0 Latest Exam Notes

BONUS!!! Download part of ValidVCE H12-821_V1.0 dumps for free: https://drive.google.com/open?id=1rck_Oldb79ny7arJxsdrCacB7O4luspS

ValidVCE's exam dumps guarantee your success with a promise of returning back the amount you paid. Such an in itself is the best proof of the unique quality of our product and its ultimate utility for you. Try H12-821_V1.0 Dumps and ace your upcoming H12-821_V1.0 certification test, securing the best percentage of your academic career. If you didn't pass H12-821_V1.0 exam, we guarantee you will get full refund.

To prepare for the Huawei H12-821_V1.0 certification exam, candidates must have a solid understanding of core data communication technologies, including network protocols, network devices, network security, and network virtualization. Candidates must also have hands-on experience with Huawei data communication products and networks.

Huawei H12-821_V1.0 (HCIP-Datacom-Core Technology V1.0) Exam is a certification exam designed to test the knowledge and skills of professionals in the field of data communications. H12-821_V1.0 exam is part of the Huawei certification program and is aimed at individuals who want to validate their expertise in core data communication technologies. H12-821_V1.0 exam covers a wide range of topics, including network architecture, protocols, and technologies related to data communications.

Huawei H12-821_V1.0 (HCIP-Datacom-Core Technology V1.0) Certification Exam is a professional-level certification that validates the knowledge and skills of candidates in the area of Datacom-Core Technology. H12-821_V1.0 exam is designed to test the candidate's ability to configure and troubleshoot complex network infrastructures, as well as to understand advanced concepts related to network design and implementation. It is a highly sought-after certification for professionals who want to demonstrate their expertise in the field of Datacom-Core Technology.

Why Should You Start Preparation With ValidVCE H12-821_V1.0 Exam Dumps?

It might be time-consuming and tired to prepare for the H12-821_V1.0 exam without a specialist study material. So it's would be the best decision to choose our H12-821_V1.0 study tool as your learning partner. Our H12-821_V1.0 study tool also gives numerous candidates a better perspective on the real exam. Having been specializing in the research of H12-821_V1.0 Latest Practice Materials, we now process a numerous of customers with our endless efforts, and we believe that our H12-821_V1.0 exam guide will percolate to your satisfaction.

Huawei HCIP-Datacom-Core Technology V1.0 Sample Questions (Q708-Q713):

NEW QUESTION # 708

Which of the following descriptions about the Master device in the VRRP protocol is wrong?

- A. The owner of the IP address in normal operation must be the Master device
- B. When the Master device receives a VRRP message with a lower priority value than its own, it will immediately switch to Backup
- C. The Master device will immediately become the Backup when it receives a VRRP packet with the same priority as its own and the IP address of the local interface is smaller than the IP address of the peer interface.
- D. Only the Master device will respond to the ARP request for the virtual IP address

Answer: B

NEW QUESTION # 709

After IPsec is deployed on an enterprise network, services are interrupted. The administrator finds that no data flow triggers IKE negotiation.

Which of the following are possible causes?(Select all that apply)

- A. Configuration error of an interzone security policy
- B. A mismatch between the ACL and protected data flow
- C. An unreachable route
- D. The IPsec policy is not correctly applied to the related interface.

Answer: A,B,C,D

Explanation:

All four are valid reasons why IKE (Internet Key Exchange) negotiation might not be triggered:

A- Security policy mismatches can block data flows, preventing IPsec from initiating.

B- If the route to the peer is unreachable, no packets can reach the tunnel interface, and IKE will not start.

C- If the IPsec policy is not bound to the correct interface, no protection is triggered.

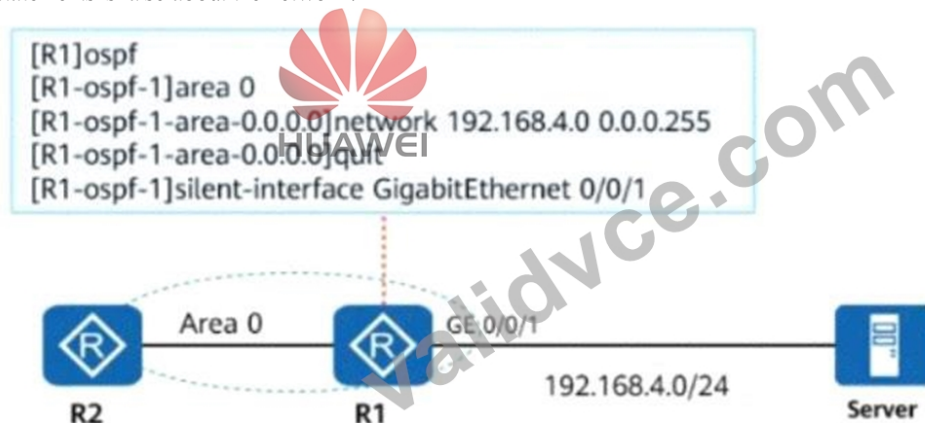

D- If the ACL does not match the actual traffic, the flow will bypass IPsec.

Reference from Huawei HCIP-Datacom-Core Technology Study Guide:

"Common causes of IKE negotiation failure include incorrect ACLs, misapplied policies, unreachable peers, and misconfigured security zones." (Chapter: VPN Technologies - Section: IPsec Troubleshooting)

NEW QUESTION # 710

The following figure shows the OSPF network of an enterprise and the OSPF configurations of R1. Which of the following statements is false about the network?

- A. The network segment to which GE 0/0/1 of R1 belongs cannot be advertised.
- B. R2 can access the server.

- C. GE 0/0/1 of R1 cannot send OSPF packets.
- D. GE 0/0/1 of R1 cannot accept OSPF packets.

Answer: A

Explanation:

Silent Interface Explanation

* The silent-interface command is used to prevent OSPF from sending or receiving OSPF packets on the specified interface (GE 0/0/1). This disables OSPF adjacency establishment and stops route advertisement for that interface.

Network Observations

* Statement A: R2 can access the server. This is correct, as the silent interface does not impact data traffic, only OSPF-related communication.

* Statement B: GE 0/0/1 of R1 cannot send OSPF packets. Correct due to the silent-interface configuration.

* Statement C: The network segment to which GE 0/0/1 of R1 belongs cannot be advertised. This is correct, as the silent interface prevents route advertisement.

* Statement D: GE 0/0/1 of R1 cannot accept OSPF packets. Correct, as the silent interface configuration blocks packet reception.

HCIP-Datcom-Core Reference

* OSPF interface command behavior is outlined in the configuration and lab examples sections.

NEW QUESTION # 711

According to BGP route selection rules, the route with the higher Local_Pref is preferred.

- A. FALSE
- **B. TRUE**

Answer: B

NEW QUESTION # 712

In BGP route selection rules, when other conditions are the same, the route with the larger MED value will be given priority as the best route.

- A. TRUE
- **B. FALSE**

Answer: B

NEW QUESTION # 713

.....

Generally speaking, Huawei certification has become one of the most authoritative voices speaking to us today. Let us make our life easier by learning to choose the proper H12-821_V1.0 test answers, pass the H12-821_V1.0 exam, obtain the certification, and be the master of your own life, not its slave. Our H12-821_V1.0 Exam Questions are exactly what you are looking for. With three different versions of H12-821_V1.0 exam study materials are shown on our website, so you will be glad to know you have so many different ways to study.
