Simply after having your Security Operations Engineer (Beta) GCP-SOE-B PDF Dumps file in your hand, you need no installation and just carry on with your preparation of Security Operations Engineer (Beta) test with confidence. Web-based GCP-SOE-B Practice Exam is customizable and you can adjust its time and type of Security Operations Engineer (Beta) GCP-SOE-B questions. It is compatible with all operating systems like Mac, Linux, IOS, Android and Windows, etc.

Google Security Operations Engineer (Beta) Sample Questions (Q45-Q50):

NEW QUESTION # 45

A workload is created and terminated within five minutes and later linked to cryptomining activity.

What MOST complicates the investigation?

- A. High availability architecture
- B. Global IP addressing
- C. Short-lived (ephemeral) resources
- D. Encryption at rest

Answer: C

NEW QUESTION # 46

A phishing campaign successfully convinces users to grant OAuth permissions to a malicious third-party application. Which control failure MOST likely allowed this?

- A. Missing email sandboxing
- B. Lack of monitoring and restriction on OAuth consent grants
- C. Missing antivirus signatures
- D. Weak endpoint protection

Answer: B

NEW QUESTION # 47

Your organization has recently onboarded to Google Cloud with Security Command Center Enterprise (SCCE) and is now integrating it with your organization's SO. You want to automate the response process and integrate with the existing SOW ticketing system. How should you implement this functionality?

- A. Disable the generic posture finding playbook in Google Security Operations (SecOps) SOAR and enable the playbook for the ticketing system. Add a step in your Google SecOps SOAR playbook to generate a ticket based on the event type.
- B. Use the SCC notifications feed to send alerts to Pub/Sub. Ingest these feeds using the relevant SIEM connector.
- C. Configure the SCC notifications feed to use Pub/Sub for alerts. Create a Cloud Run function to trigger when an event arrives in the topic and generate a ticket by calling the API endpoint in the SOC ticketing system.
- D. Evaluate each event within the SCC console. Create a ticket for each finding in the ticketing system, and include the remediation steps.

Answer: C

NEW QUESTION # 48

A SOC uses Chronicle SIEM and wants to reduce alert fatigue without lowering detection coverage. What is the BEST strategy?

- A. Increase alert thresholds globally
- B. Disable medium-severity rules
- C. Apply risk-based alert scoring and entity correlation
- D. Limit alerts to business hours

Answer: C

NEW QUESTION # 49

You have a close relationship with a vendor who reveals to you privately that they have discovered a vulnerability in their web application that can be exploited in an XSS attack. This application is running on servers in the cloud and on-premises. Before the CVE is released, you want to look for signs of the vulnerability being exploited in your environment. What should you do?

- A. Activate a new Web Security Scanner scan in Security Command Center (SCC), and look for findings related to XSS.
- B. Ask the Gemini Agent in Google Security Operations (SecOps) to search for the latest vulnerabilities in the environment.
- C. Create a YARA-L 2.0 rule to detect high-prevalence binaries on your web server architecture communicating with known command and control (C2) nodes. Review inbound traffic from those C2 domains that have only started appearing recently.
- D. Create a YARA-L 2.0 rule to detect a time-ordered series of events where an external inbound connection to a server was followed by a process on the server that spawned subprocesses previously not seen in the environment.

Answer: D

NEW QUESTION # 50

.....

The advantages of our GCP-SOE-B cram guide is plenty and the price is absolutely reasonable. The clients can not only download and try out our GCP-SOE-B exam questions freely before you buy them but also enjoy the free update and online customer service at any time during one day. The clients can use the practice software to test if they have mastered the GCP-SOE-B Test Guide and use the function of stimulating the test to improve their performances in the real test. So our products are absolutely your first choice to prepare for the test GCP-SOE-B certification.

Exam GCP-SOE-B Pattern: https://www.braindumpsqa.com/GCP-SOE-B_braindumps.html

Senior IT experts in the Braindumpsqa constantly developed a variety of successful programs of passing Google certification GCP-SOE-B exam, so the results of their research can 100% guarantee you Google certification GCP-SOE-B exam for one time, Google GCP-SOE-B Verified Answers You must improve your skills and knowledge to stay current and competitive, Though the Google Cloud Certified concept itself is relatively new, Google hasn't officially released the live version of GCP-SOE-B exam.

There are two reasons.
