Answer: B

NEW QUESTION # 127

Your users receive a notification for a transaction from CPQ when an approval has been retracted and is no longer needed. The notification contains a generic message about this action. However, users would like to get more details about the transaction. What is the Oracle-recommended best practice to fulfill this requirement in CPQ?

- A. When a transaction needs to be revised, allow the transaction owner to send a parallel email to approvers, which should include the necessary transaction details.
- B. Trigger an email action to notify users by custom defining the email's subject and body, which contain the transaction details, by using the advanced function available in the Revise action.
- C. Switch the system-generated email-to-email template, which will include the desired transaction information when approvers are notified.

Answer: B

NEW QUESTION # 128
