## SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q52-Q57):

### NEW QUESTION # 52

Which of the following are captured in a completed Digital Discovery Assessment? Note: There are 2 correct answers to this question.

- A. Known integration requirements
- B. Target customer go-live date
- C. SAP Fiori application extensions
- D. Business role permission requirements

**Answer: A,D**

### NEW QUESTION # 53

Who should be identified and assigned the role of the IT Contact immediately when the implementation begins?

- A. Partner project manager
- B. Customer system admin
- C. Customer project manager
- D. Partner lead configuration expert

**Answer: B**

Explanation:

The IT Contact is the person who is responsible for setting up the initial system access, provisioning users, and managing authentication for the SAP S/4HANA Cloud Public Edition project. The IT Contact should be identified and assigned immediately when the implementation begins, as they will receive all the SAP communications and notifications related to the system setup and configuration. The IT Contact should also be available and accessible throughout the project, and collaborate with the project team and the business stakeholders1.

The IT Contact should be someone who is a hands-on system administrator, not an executive. They should have the skills and experience to perform the system administration tasks, such as creating users, assigning roles, configuring identity providers, and troubleshooting issues. They should also be committed and engaged with the project, and provide feedback and participate in testing and training activities1.

Therefore, the correct answer is C, as the customer system admin is the most suitable person to be the IT Contact for the SAP S/4HANA Cloud Public Edition project. References = 1 How to Choose the Right IT Contact for Your SAP S/4HANA Cloud Public Edition Project - SAP Community

### NEW QUESTION # 54

What have SAP S/4HANA Cloud Business Workflows been designed for? Note: There are 3 correct answers to this question.

- A. To create cross-product workflow procedures
- B. To create complex, repeated work processes with iterative cycles
- C. To create business processes with a high number of people involved in a pre-defined sequence

- D. To create very simple release or approval procedures
- E. To create standard procedures from SAP Signavio Process Navigator

**Answer: A,B,C**

#### **NEW QUESTION # 55**

You want to restrict end user activities for an application.

Where would you look up the business catalog(s) that grant access to the app?

- A. In the Configure Your Solution app
- B. In the SAP Fiori Apps Reference Library
- C. In the App Finder app
- D. In the Define Your Scope app

**Answer: B**

#### **NEW QUESTION # 56**

Where is the initial list of known integrations documented?

- A. In the Fit-to-Standard Workshops
- B. In the Business Driven Configuration Questionnaire
- C. In SAP Cloud ALM
- D. In the Digital Discovery Assessment

**Answer: B**

Explanation:

The initial list of known integrations is documented in the Business Driven Configuration Questionnaire (BDCQ). The BDCQ is a tool that helps you to capture the business requirements and scope of your SAP S

/4HANA Cloud Public Edition project. It contains a series of questions that cover different aspects of your business processes, such as organizational structure, master data, configuration settings, and integration scenarios. The BDCQ also provides guidance on the best practices and recommendations for your project12.

One of the sections in the BDCQ is the Integration section, where you can document the initial list of known integrations that are relevant for your project. The Integration section contains questions about the integration scenarios that you want to enable, such as cross-system process integration, data replication, data migration, and third-party integration. The Integration section also provides information on the available integration options, such as SAP Cloud Platform Integration, SAP API Business Hub, and SAP Cloud ALM13.

The initial list of known integrations is important for your project, as it helps you to identify the integration requirements, dependencies, and risks that need to be considered in the project planning and execution. The initial list of known integrations also helps you to select the appropriate integration tools and methods, and to align the integration scope with the SAP S/4HANA Cloud Public Edition roadmap and release cycles13.

Therefore, the correct answer is A, as the initial list of known integrations is documented in the BDCQ.
